

Synopsis: Sakar Murli November 28, 2014

1. The Father explains: I am the **Master**, I am the **Sentient Being**, the **Seed**, the **Ocean of Knowledge**. The Father explains the secrets of Himself, and also the whole significance of Brahmand and the beginning, middle and end of the world. No one else knows about Brahmand, the brahm element, the land of peace, the place in which you and I reside. That is called the land of nirvana, the land beyond sound. The Father explains this knowledge to you and through that, you become deities.
2. The Father now gives you the eye of knowledge. When there isn't any knowledge in the soul, there is the eye of ignorance. Without being made pure by God, you cannot go to the pure world. That doesn't mean that you cannot meet God unless you have become pure. People ask God to come and purify them. It is impure ones who meet God in order to be purified. God does not meet pure ones. Only those who are ignorant receive knowledge.
3. Knowledge is the path to salvation. Only the one Satguru takes everyone beyond. Shiv Baba is the One who changes you from worshippers into those who are worthy of worship. Ravan changes you from being worthy of worship into worshippers.
4. The Father, the **Supreme Soul**, has explained to you: I am imperishable whereas this body is perishable. There is a vast difference between the soul and the body. The body is a large puppet made of the five elements. Even if a body is small, it is still much larger than a soul. A soul is a living being. The puppet is of no use until a soul enters it. It is the soul that speaks and moves. It is a very tiny point. It never becomes smaller or larger. It is never destroyed.
5. The Father says: I have come here to make you so very elevated. You have to remember Him in the body of Brahma. You remember Me in this one, and this is why you remember both Bap and Dada. Some senseless people don't accept Brahma. Baba doesn't tell you not to remember Brahma. How can Shiv Baba be remembered without remembering Brahma?

Blessing: May you be an unlimited server who spreads vibrations through your unlimited attitude (behad ki vitti) while doing any type of service.

Now, bring about an intense speed in the unlimited service of transformation. Do not think, "Well, I am doing whatever I can and I am so busy that I don't have any time. However, while doing whatever type of service, you can be co-operative in an unlimited way. Simply let your attitude be unlimited and the vibrations will continue to spread. To the extent that you remain busy in the unlimited, the more easily you will be able to fulfil your duty. To spread elevated vibrations through your every thought at every second is to be an unlimited server.

Points to churn from the blessing:

We, the souls, are the unlimited great master bestowers full of all attainments, who, by saying "Yes, indeed, my Lord," make the Lord present, and by constantly saying "Yes, indeed" for service, give the real proof of love...whatever power souls need, we use our mind, that is our pure attitude and vibrations to donate power to them, that is, to co-operate with them...

We give the experience of the powers of peace, love, happiness and bliss through our drishti as a great donor and an image that grants blessings... through our face we give vibrations and the experience of divinity through our eyes...we are the great donors and the images that grant blessings who give power and receive power through drishti...

Like the Father, we are Bestowers...through the vibration of our every thought, through the spiritual glance of one second, through one second's connection and through one word, we make any unhappy soul experiencing sorrow happy and joyful and swing with happiness...our duty is to give happiness and to receive happiness... as well as being those who receive, we are also bestowers at every second...we are world benefactors who become world emperors distributing the treasures for world benefit...
