Madhuban

Om Shanti.

Beloved Avyakt Image, Mother and Father, BapDada's deeply loving instrument teachers, brothers and sisters of this land and abroad, who are the decoration of the Brahmin clan, please accept sweet Godly love filled with remembrance.

Our Dadiji, one who was lovelier than life and the pride of the whole Brahmin family, BapDada's lovely little Nandi (little bull, God's chariot), sweetest Dadi Gulzarji, left behind an immortal memorial of her memories and became a resident of the subtle region. You took beyond with your spiritual glance hundreds of thousands of brothers and sisters from this land and abroad. You gave experiences of meeting with God. The body of such a sweet and lovely Dadi was merged with the five elements today, at 10.00 am on 13th March 2021. While giving the final farewell to Dadi, all senior brothers and sisters shared their experiences with Dadiji and offered their tribute. Many brothers and sisters from Bharat and abroad had reached here on this occasion. All of you must be watching this through the live transmission. Everyone's vision is now on Madhuban. After the final rites, everyone came together in the Diamond Hall where Shashiben offered bhog to BapDada. The message that Shashiben shared is being sent to all of you. Please share it with everyone in class. Achcha.

Lots of love and remembrance. Om shanti.

Divine message 13-03-2021

Today, as I reached the subtle region carrying the remembrances of all of you filled with deep love, in the subtle region, a beautiful decoration of many types of garlands of diamonds and pearls was visible. I could see Baba coming from a distance in a beautifully decorated viman. Both Baba and Dadi were in it, and seeing them, it felt as though Dadi was in Baba's form and Baba was in Dadi's form. One second, it was Baba and one second it was Dadi. I couldn't recognise whether it was Dadi or Baba. I said: Baba, today, Dadi's form is looking very different. So, Baba said: The chariot has so much importance. Baba has made this chariot complete and perfect with very good planning and revealed it in front of the devotees in this form. Then I said: Dadi, you went to the subtle region just like that. Dadi said: Baba would take me on a tour somewhere or other every day. I asked: Where did you used to go to? She smiled and said: Ask Baba. Baba said: This child has had such a part from the beginning that she used to bring many types of trance messages, with which many special tasks of the yagya continued. For some time, Baba has been taking this child to different places and sometimes she would serve the scientists, and sometimes, she would go and give a message to the great leaders who are bringing about world transformation and continued to inspire them. Then I said: Dadi, what was your body doing? So, Dadi replied: The body used to do its own work and Baba would do His work. Baba said: From the beginning, this child has had the part of being detached and loving, of being free from any other thoughts. The doctors were looking after her body very well. They too used to have very good experiences. Some would experience power and blessings just on touching Dadi's body. I then told Dadi: Dadi, everyone is remembering you a lot today. Dadi said: Give my remembrances to everyone. What did I see then? There were many cards in front of me, and there was something or other written on each of those cards. Some were writing thanks to Dadi, and some were complaining. Dadi, you enabled us to meet Baba, you gave us so many blessings, you gave us the experience of sakar Baba. It was as though Dadi then began to look at those cards. It was as though a mountain of cards was visible, and that whole mountain changed into a tiny light, and everyone was receiving power from that light. Dadi said: It is not a matter of giving thanks for these experiences and the power that you are receiving. Baba says: Children, now become full with so much power that you are able to give others the experience of the perfect form.

Then I said: Baba, You gave us so many experiences through this chariot, so what will happen now? Baba said: Now, children have to prepare themselves of their own accord. Whatever you have received, you have to practise that and move towards perfection. Just as the daughter was perfect in everything, in the same way, children have to make themselves perfect and create the new world. Then Baba made all the children emerge in the subtle region. Baba and Dadi were in the middle of all of them. Sometimes, Dadi was visible in Baba's heart, and sometimes, she was seen as being merged in Baba's arms. Baba was giving everyone drishti and

through that drishti, one or another blessing was reaching each one. Dadi was looking very detached and lovely in the form of light. Baba said: The child has merged the Father in her heart from the beginning and Baba has made the child carry out special tasks. Even now, in order to make the children complete and perfect for the new world, Baba will enable the child to do service for the advance party.

Then I said: Baba, today, I have brought bhog for Dadi. Baba opened the bhog and began to feed Dadi. Dadi then said: Call everyone to the subtle region today and feed them bhog. Then Dadi took some bhog in her hands and gave it to Baba in His hand. It was as though from Baba's hand, it continued to reach each one's mouth and each one also continued to receive one or another blessing. Then I asked: Dadi, do you want to say anything to everyone? So she said: Baba, give all of them such a throne on which they can be seated, and just then a throne emerged in front of me. There were words written on all four corners. 1) Merciful. 2) Good wishes. 3) World Benefactor . 4) Image of blessings. Then Dadi said: Now, according to the time, each one has to be merciful for the self. Especially when you have thoughts for Brahmins, then be merciful and sacrifice those thoughts. You have to have mercy for the devotees and others, and by doing so, your own experience will increase and you will also receive blessings. According to the time, there is a need for this now.

Then, together with remembrances of all Dadis, I also conveyed remembrance of Neeluben and all the service companions. Baba made all of them emerge in the subtle region. While giving drishti to Neeluben and all the service companions, Baba said: Look how child Neelu did so much service while being tireless. Baba caught hold of her hand and made her swing in the swings and said: The child played her part of service with a lot of love with all the companions. The fortune of many opened through this part, and they also received so many experiences. This chariot has been looked after with so much love, and Baba is always with you anyway. To look after the chariot, to receive blessings, this is also a way of increasing fortune. The child's fortune is very beautiful.

Then Baba made the doctors emerge and said to them: The service that they received was not service, but they experienced many alokik powers in their lives. Through this, they have to experience even more deeper experiences in themselves. Then Dadi remembered all the brothers and sisters of this land and abroad and specially all the brothers and sisters of all the places in Delhi. Baba said: She was a Dadi of the world, she was loved by everyone and everyone's love and remembrance has reached her. Baba gave love and remembrance to everyone. Then Baba said: The child is now with Baba. Baba has had the child carry out special tasks and will continue to do so. Bringing love and remembrance for everyone, I came back down below.
