

Dadi Janki - 12th May 2019 – GCH

Finish all desires...

(Dadi read the Avyakt Murli and then gave a short class)...

Om Shanti, Om Shanti, Om Shanti... The essence of the Murli is that we don't now desire anything because Baba has given us everything. Baba has given us the inspiration to become angels. Baba has told us that this scene will repeat after a cycle. It happened a kalpa ago and will repeat...

After long time I am present in the morning class... This is a beautiful gathering of Baba's children in GCH... Baba has individually selected each one of His children. He sees that you have true love... You receive Baba's true love through His drishti and vibrations. All of you have received that love. You are becoming angels. Baba has hopes in each one of us and our task is to fulfil those hopes.

Yesterday I was give the topic, 'True Heart, Big Heart'. We should keep that slogan on a poster here... I need to have an honest heart. There should be nothing else in my mind; no pulls or attractions. Baba has said that we should become ignorant of all desires.

At the Confluence we have the power of peace, the power of love and we will continue to receive that power from Baba. Baba, it's a wonder how You have found all these children from different places and threaded them onto one rosary. Of course there is the Rosary of 8 and the Rosary of 108. Those who feel that you are part of the Rosary of 8 raise your hands! Remember that Baba is the Bestower of Fortune. I am receiving my fortune – remember this. One Baba and none other. This is the basis. Look at yourself. See yourself and make sure that all you have received from Baba is emerged. Baba has given us teachings and all that He has taught is in our practical lives. Baba has taught us to be stable – never to become upset. Baba has given us a very good life.

I am very happy to see all of you! I feel that blessings are enabling me to move along.

Om Shanti
