

Dadi Janki , 14th March 2018 – Shantivan, Evening Class

Become a Worthy Child – A Conqueror of Matter

We say om shanti - on one side is Baba and on other side is fortune. Baba is on the right and on the other side is our fortune. So in between what do we have to do? We have to remember only Baba.

Baba has said that we have to benefit time. If we do not benefit time we will not be happy hearted.

We should also know: Who am I and who is mine? I am a soul and mine is the Supreme Soul. There is nothing else that “I” and “mine” refer to. We have to go beyond this world to the land of peace. We do not belong to this world. We should have the firm sanskar that I am a soul and mine is Baba. We should have this remembrance.

We can see the atmosphere here in Diamond Hall is very powerful which means that matter is giving its support. There is no carelessness in the atmosphere.

When we go into the Conference Hall it should be that our drishti and attitude should be transformed. As is the attitude so is the vision.

We have to become Baba’s worthy children.

Baba is taking us forward. This is Baba’s wonder. Baba makes us sit in the plane and takes us back home.

Baba says remember Me and remember the home. We have to go to our home.

How will we go home? Baba will take us back. We place our footsteps and because we are instruments our feet are not on the ground. This is why I say that our feet should not be on the ground because if they are it will take time to go from here to there.

We feel that Baba is enabling us fly so that we can go with Him.

From the stage of ascent we are now in the flying stage. No time is required in the flying stage.

Baba has made me belong to Him and to drink the nectar of knowledge. He has fed me Brahma bhogan and I have heard the knowledge through the mouth of Brahma Baba.

Baba has taught us how to do service through the mind, words and deeds. Time, thought and breath have to be benefitted. The breath should not be wasted or become fruitless.

Now it is the Confluence Age. We have to use our time, thought and breath in a worthwhile way. We have to earn an income.

Wearing white clothes and having empty pockets, we are the rulers of the globe. We have to give Baba’s message to the world. Everyone’s attention should be drawn towards this. We desire that the entire world should come to know and understand the meaning of: who am I and who do I belong to?

We are easy yogis. Raja Yogis. Live with the understanding that nothing is difficult and we should not feel anything to be difficult. This is Baba’s wonder.

I never say that this or that is not right. To say or think about this is a waste of time. We have to benefit our energy. We have to make our energy successful.

During Dadi’s class Dadi asked Sr. Hansa to come and sit beside her. Dadi was saying that Sr. Hansa takes such good care of her and all the audience clapped in agreement of this.

.....Om shanti.....
