

Dadi Janki - 15th March 2019 – Gyan Sarovar Meeting double foreigners

Om Shanti, Om Shanti, Om Shanti... I have been invited here (to GS) to take a tour of the whole world. Therefore, I say 'thank you' from the heart. You called me here in such a way that I feel I should stay here and not go down to Shantivan!

What should I share with you? In fact, everything is the wonder of Baba. Everything is to do with the One. We have five fingers but the One is doing everything. In fact, I don't know how to give a class. I just want to be with you (Dadi gave drishti to everyone and put her hand up as a blessing). Is this a class or is this a form of bhavna that we experience? Through our feelings we understand everything.

We have one Baba – no-one else.... The moment you set your foot here you became aware of who you belong to. He calls us here. After that, there is only Baba – no third person. Who belongs to me? Only the One. He taught me how to smile. There is a song, 'Come my beloved'... You get the feelings from this song don't you? The song pulls us. There are many songs which teach us to laugh and not to cry... Wherever you go, be like a fragrant flower and smile. The Beloved is calling us...

Dadi Gulzar may be in Mumbai but I feel that she is seeing all of us. The pull of all our love is reaching her. We won't call her here but our love reaches her.

Dadi then gave toli to everyone...

Om Shanti
