

### **Purity is the main basis of Brahmin life.**

Today, at amrit vela, BapDada was looking at the *personality of purity* on the forehead of each of you children. The sparkle of *purity* of each of you was numberwise, according to your efforts. The main basis of this Brahmin life is *purity*. The greatness of all of you elevated souls is your *purity*. *Purity* is the greatness of this land of Bharat. The *purity* which you attain in this birth is the *prosperity* of you Brahmin souls for many births. *Purity* is the basis for world transformation. It is because of your *purity* that, even today, your non-living images are considered to be more elevated than living forms. Even famous people of today continue to bow down to *purity*. You children receive this *purity* from the Father as your birthright. People consider *purity* to be very difficult, whereas you experience it to be very easy. For you children, the definition of *purity* is very ordinary because you are now aware that the original form of the soul is always *pure*. The eternal form is of a pure soul and the original form is a pure deity. Now, this last birth too, is a pure Brahmin life. On the basis of this awareness, you experience it to be very easy to create a pure life. Impurity is an external religion (not your religion), whereas purity is your own original religion. It feels easy to adopt your own religion. The first order the Father gives you obedient children is: Become pure, for only then will you be able to become yogi. BapDada is pleased to see the obedient children who are obeying this order. Within that, BapDada specially sings the praise of His foreign children who have been following these elevated directions and created a pure life. On seeing such pure and obedient souls, He sings praise of the children. Do the children sing more praise of the Father or does the Father sing more praise of the children? What special decoration appears in front of the Father in the subtle region?

Just as you decorate some places with garlands, so BapDada also has the decoration of the garlands of the children's virtues. This decoration would be so beautiful! You can each see it from a distance, can you not? Each of you can recognise your garland of virtues as to whether it is a long one or a short one and as to whether you are extremely close to BapDada, in front of BapDada or at a short distance away from Him. You can recognise the garlands of those who are close. Those who are close to the Father in His virtues and His task are constantly close. Such children reveal the Father through their every virtue. They are the jewels who are close because, in everything they do, they prove it to be the Father's task.

Today, BapDada was giving *marks* on the *subject of purity*. What specialities did Baba look for in giving these *marks*? The first speciality was purity of the mind. From the moment you took birth, no sanskars of impurity should have *emerged*, even in your thoughts. When you renounce impurity, you receive the elevated fortune of purity. In Brahmin life, even your sanskars are changed. Your mind should constantly have the elevated awareness of the soul-conscious form, that is, of being brothers. It is on the basis of this awareness that you receive *marks* for *purity* of the mind. In your speech, there should constantly be honesty and sweetness. Especially on the basis of these two, you receive *marks* in the subject of speech. In your actions, constantly to have humility and contentment – the practical fruit of that is to be constantly cheerful. It is on the basis of this speciality that you receive *marks* in the subject of actions. Now, examine yourself regarding all three, and *check* yourself to see what *number* you would claim. What *number* would the foreign souls claim?

Today, Baba has especially come to meet all of you. Even the Father has to change from the Foreigner into a resident of this land in order to serve some souls. The Father is the Foreigner of the most distant land. The Father, the Foreigner, has come to meet the foreigners of this world. The people of Bharat are no less! For the people of Bharat to give a *chance* to the foreigners is the greatness of Bharat. The people of Bharat who have given a *chance* have all become *chancellors*. Do you know the speciality of the foreigners, on the basis of which they are claiming a *number* ahead? The main thing for many foreigners is that, as soon as they come, they experience themselves as belonging to this family and feel that they are very old souls of this religion. This is known as experiencing yourselves to have all rights as soon as you come. You do not take a lot of effort: the awareness of the previous cycle is easily awakened in you. This is why, the words, "Our Baba", very quickly *emerge* from the lips and in the heart on the basis of your experience. Secondly, the

special *subject* of easy Raja Yoga in this *Godly study*: the *majority* of foreign souls very easily have very good experiences in this *subject*. Because you are especially attracted to this main *subject*, the *foundation* of your faith becomes strong. This is your second speciality. You are as strong as Angad, are you not? Maya does not shake you, does she? Today, it is especially the *turn* of those from abroad and this is why the people of Bharat are just observers.

The people of Bharat know their fortune very well. However, those of you from abroad are also going to rule here, are you not? Do you know your fortune? You have very good *parts* of becoming instruments for service in the future.

**Baba speaking to Dada Ram and Dadi Savitri's family:** Everyone is happy to see the fortune you have attained. Because of some especially fortunate souls, the whole family becomes fortunate. When you put any thought into practice, you definitely experience happiness. Achcha.

To those who constantly swing in happiness, to those who go into the stage of ascent on seeing their sparkling star of fortune, to those who have the *personality of purity*, to those who transform the world on the basis of the greatness of purity, to the world-benefactor souls, BapDada's love, remembrance and namaste.

### **BapDada meeting the London group:**

Do all of you constantly experience yourselves to be the Father's companions? Can you see your *combined* form? You are not alone; wherever there are the children, the Father will be with every child. You are constantly under the canopy of protection of remembrance of the Father. No type of obstacle of Maya can come under this canopy of protection. So, wherever you stay and whatever task you carry out, always experience yourselves to be in a place of *safety*. Do you experience this? BapDada has special love and gives special co-operation to the foreigners. Souls from abroad will play very good *parts* on the field of service later on. The future of service is very good. What new *plans* of service do you have to create? As well as having *general programmes*, you must also serve special souls. This will of course take greater effort, but success is your birthright. Therefore, don't think that you have done a great deal but can't see any results. The fruit of that is being prepared. No action can be fruitless because you are doing everything in remembrance of the Father. The fruit of whatever you do in a state of remembrance is always elevated. Therefore, you must never become disheartened. Just as the Father has faith that your actions will definitely bear fruit, so you too should also have the same faith in your intellects. Some fruit emerges quickly, whereas other fruit takes a little time. However, you mustn't worry about this, but carry on doing everything. The time is soon to come when people will themselves come to you to *enquire* where you received this message and information from. Just wait a little for the bang of destruction, and then see how long a *queue* will form! You will then say that you have no time. At this moment, those people say that they don't have *time*. Later you will say, "*Too late!*".

Whatever you find difficult to do, hand that over to the Father and just remain an easy yogi. To remain an easy yogi means constantly to do *service*. The subtle power of your yoga will automatically attract souls to you, and so this is easy service. All of you are doing this, are you not? The London Brahmins have expanded service very well. Have you prepared equals just as good yourselves? Is the rosary now ready? Have you prepared 108 jewels? London should prepare a *group* of all *varieties*; there should be scientists, religious souls and political leaders. There should also be special souls from the different *associations*. Until all types of *variety* souls sow the seeds for the establishment of the new world, how can destruction take place? People of all professions will be useful in the golden age. They will be servers to serve you. Now, serve them for a short time in this one birth and prepare them. They will then become your servers who will serve you for many births. *Scientists* too have *parts* there. Those who have specialities to provide the facilities for your comfort there will come to you here. So, this service now has to take place at a fast pace in the foreign lands. Prepare the kingdom! Prepare the subjects! Prepare the *royal family* and also prepare the servers! No profession should be left out that they would complain that they didn't receive the message.

## 2. The new and elevated method for Godly service.

To do Godly service through your thoughts is a new and elevated form of service. Every morning, as soon as a jeweller opens his shop, he *checks* that all his jewels are clean and sparkling and placed in their correct sections. In the same way, every day at amrit vela, with your thoughts, cast your vision on the souls who are to come into contact with you. The more you remember them through your thoughts, the more your thoughts will reach them and they will say that they also remembered you many times. Continue to move forward by adopting these types of new forms of service. This month, have a special *programme* for the souls you have connections with. Have a warm and friendly gathering.(sneh-milan). Hold a *programme* of sharing experiences and some entertainment. Find a reason to call them and increase your connection with them. Don't think that two or three have to emerge. It is good if even one emerges! The flame of one deepak (lamp) can prepare the flames of a whole garland of deepaks.

### German group:

Those from Germany have adopted a good method to give the Father's introduction in their country. Now, prepare *hands* in the neighbouring countries of Germany and increase the *field* of service. Each one that comes should then be able to look after a centre because very little time remains and a kingdom has to be prepared. The *group* from Germany is of those who *follow the Father*, is it not? Definitely carry on *serving*, but do it with the support of your contacts, not *independently*. Just as every branch is *connected* to the trunk of a tree, so too, your connections with the instrument souls should also be very good. You will then become very successful. Therefore, make such *plans*! Achcha.

### At the time of leaving:

These days of the confluence age are so invaluable. It is only at the confluence age that BapDada can see the gathering of the children in their corporeal forms. You enjoy the confluence age, do you not? Will you not transform the world? Both the confluence age and the new world have their own specialities. When you go to the new world, you will even forget the Father! Will you remember Him at that time? The Father is of course happy that His children claim such an elevated status. A father's desire is always for his children to go ahead of him. The Father is very pleased to see the elevated fortune of His children. You create so much fortune in just a short *time*! The speciality that the confluence age has is that you can create your fortune at every moment and with every thought. You have a *chance* to create as much fortune as you want. Are you taking that full *chance*? There isn't a lot of time for attainment now; therefore, do as much as you want to now. Otherwise, you will later remember this time of earning your attainment and realise that you should have done so much, but that you did not do it. Continue to make your pilgrimage of remembrance *powerful*. Continue to fill all your thoughts with the essence of all powers. Continue to fill every thought with power. You can serve a great deal with the power of thoughts. Achcha.

**Blessing:** May you be prosperous and experience constant contentment through being full.

The prosperity of self-sovereignty is knowledge, virtues and powers. Those who are self-sovereigns and are full of all these types of prosperity are constantly content. They have no name or trace of any type of a lack of attainment. They are ignorant of the knowledge of limited desires: this is known as being prosperous. They are constant donors, not those who ask for anything. They have a right to a kingdom that has the sovereignty of unbroken happiness and peace. No type of adverse situation can break their unbroken peace.

**Slogan:** Those who know the three aspects of time and the three worlds with the eye of knowledge are *master knowledge-full*.

\* \* \* O M S H A N T I \* \* \*
