

**The special blessing of the confluence age - the age of charity,  
is everyone receiving benefit through your ascending stage.**

According to the time, do you all experience yourselves to be in the ascending stage at every *second* and in every thought? You all know that this short confluence age is the age where there is the ascending stage. According to the drama, this age, this time, has received the blessing of bringing benefit to everyone through the ascending stage. No other age has received this blessing.

The confluence age is also called the age of charity. That is, the elevated souls who follow the accurate religion and who also perform accurate karma, play *parts* in this age of charity. The special *parts* of the authority of religion, the authority of ruling and the authority of science are revealed in this age, that is, only at this time do all souls attain these three authorities. Who are the special actors at this elevated time? Do you consider yourselves to be actors at this elevated time?

The ascending stage depends upon you special souls. It is through your ascending stage that there is benefit for all souls, that is, they are benefited. For a long time, all souls have had the desire to attain liberation. This is only fulfilled through your ascending stage. The basis of all souls attaining liberation is all you souls attaining liberation-in-life. Do you continually consider yourselves to be images of support in this way? The Bestower who bestows is the Father, but whom has He made into instruments? The inheritance is claimed from the Father, but the Father has also made you children instruments. Do you pay this much *attention* to yourselves at every step knowing that benefit for all souls depends on you souls? When you have this awareness, carelessness and laziness, which are visible at present in the *majority* of you in one way or another, will finish. This is why, instead of the ascending stage, you come to a standstill. You also have become very clever in remaining at a standstill. What cleverness do you show? Instead of *using* the points of knowledge accurately or the methods that you have received from the Father from time to time accurately, you *misuse* them. You change the meaning and just hold on to the words. You are influenced by your old nature, that is, under the influence of your nature you change the real meaning.

In order to make you children *master* trikaldarshi, BapDada very clearly tells you the secrets of the drama. According to the secrets of the drama, the Father tells you of the *number* attained by the effort-makers and also about the significance of the kingdom, that within the drama and the kingdom there will be those who attain all types of status, and that the rosary is created numberwise. So, not everyone will become a maharathi or a part of the rosary of victory. Not everyone will become an emperor. This is what our part seems to be visible as. The Father tells you this in order to make you go *in advance*, but, instead of going in *advance*, children take *advantage* of it wrongly. You do not finish your carelessness and laziness, but change the meaning of what the Father said and take support from that. You then tell the Father, "But this is what You said." Due to being influenced by your own different natures, you change the meaning of the right things and start to play a very good game of standing still. You yourselves pay very little *attention* to using the methods for becoming conquerors of Maya but *use* the words spoken by the Father to protect yourselves. You say, "Baba, You said that Maya is very powerful! She doesn't even leave Father Brahma alone. Maya even attacks maharathis. As Maya doesn't leave Father Brahma or the maharathis alone. What is the big deal if we are defeated when she comes to us? This will happen; it will continue to happen until the end." In this way, you take the support of words that make you come to a standstill in your efforts, and you deprive yourself of the ascending stage. The Father says that Maya will come, but who are those who are remembered as the conquerors of Maya and the conquerors of the world? If Maya doesn't come, if you haven't faced an enemy, how can you be called victorious? Maya will come, but the Father doesn't say that you have to be defeated. You have to defeat Maya, not be defeated by her. You are the victorious jewels of every cycle. You forget the powerful words that "you are the victorious ones of every cycle and that you will definitely reveal yourselves as the victorious ones." You weaken the Father's words through your own weakness. Father Brahma became the conqueror of Maya and claimed the status of the conqueror of the world. There is a memorial of this for cycle after cycle. Just as Father Brahma made himself strong and was not afraid even though Maya was powerful, so you have to *follow the father* in the same way.

Have the deep feeling of becoming victorious. Do not deceive yourself by not understanding what it means to make effort because of your limited intellect. The Father's every word is filled with benefit for the three aspects of time of every soul. This is why He is remembered as the World Benefactor. Do not use words of benefit for a task to cause damage yourself. Nowadays, the *majority* of you are very *knowledge-full* in this way. You consider yourselves to be *knowledge-full* in this way and you therefore call yourselves very sensible. However, you then actually perform some wasteful or wrong action which is a *royal* form of sin. You also know a very good method of proving yourselves to be sensible. Whatever wasteful or *royal* form of sinful actions are visible, are, in fact, actions that cause damage to yourselves and others. The recognition of this is that by performing such actions, you are not internally content within yourself. You do not experience happiness or power. You experience being empty of the treasures of virtues and powers. Superficially, because of being body conscious and having arrogance of your own understanding, you try to prove your own understanding to be correct. Your every word will be hollow internally and externally these will have the form of trying to hide yourself. There is the saying, "An empty vessel makes most noise." There is a lot of external show, but it is internal deceit. Externally, it is very showy. As a consequence of such actions, you become instruments for *disservice* of Brahmin souls and the souls of the world who do not have knowledge. When you perform such wasteful or sinful actions, firstly, you become *dissatisfied* with yourself and, secondly, there is *disservice* of many others. Due to this, instead of having the ascending stage, you come to a standstill.

Check yourself and ask: Why does your happiness decrease as you move along? Why does the zeal and enthusiasm for making intense effort decrease? Why do you stumble over waste thoughts instead of being *yogyukt*? Why are you not able to settle the bondage of your *sanskars* and nature? What is the reason for all of that? Do you know the reason? The main reason is that, when you first come to Baba, you work hard on making effort using the methods Baba teaches you. Day and night, you have no concern as to whether tiredness or Maya may prevent you from doing anything. You continue to make very fast progress with the intoxication that you have found the Father and that you have to claim your inheritance and your rights. However, what do you do now? Nowadays, people find it difficult to work hard. They want the salary, but don't want to make the effort. In the same way, Brahmin souls become careless or lazy in making effort. Everyone wants to be a maharathi or a mahavir and yet they don't want to make the effort of even the infantry. You want a ready-made *stage*, but you don't want to create your own *stage* by making effort. You think that you don't want to be anything less in any aspect and that you should be in the *list* of maharathis. The real meaning of being a maharathi is to show "the greatness of a maharathi". However, you find it difficult to remain stable in this stage. You take good *advantage* of the title "co-operative". Due to this, the effort and *attention*, the awareness of an effort-making life and the power of the Father's company that is needed at every step are not there in a *practical* way. You don't want to make effort, and yet you want to go across with the Father's help! You remember a lot more the Father's work and you forget what you have to do, and, because of this, you are not able to use the methods that Baba has shown you. You do not know how to *use* them at the right time. You ask the Father time and again why you are not able to have yoga. "What can I do when my bondages are not breaking?" Since the *revision course* and the *realisation course* are now taking place, has BapDada not told you all of this in the *course*? Is there still anything left for Baba to tell you? This is the *course* of the first and second classes (kindergarten). Now churn everything that you have heard. Due to not churning and thereby not becoming powerful, you become weak and you therefore keep stopping. You are not able to experience the ascending stage. Therefore, always remember that all souls will benefit through the stage of ascent of you instrument souls. Achcha.

To those who accurately understand the Father and every word of His, to those who make themselves and others great by making effort, to those who experience the aim and qualification of the ascending stage at every step, to those who protect themselves from the many different *royal* forms of Maya, to such conquerors of Maya who are victorious jewels every cycle, BapDada's love, remembrance and namaste.

#### **BapDada meeting groups:**

Do you constantly have the awareness that you are a victorious jewel who has faith in the intellect? The fruit of faith is victory. While performing any task, if you have full faith in the self, in the Father and in the drama, it would then be impossible for you not to attain victory. If you are defeated, it means you lack faith.

If you have doubt in anything, about whether or not something will happen or whether or not you will be successful, then this would not be called having full faith. Thoughts of an intellect filled with faith would be determined, not weak. If you think that you'll do whatever you are meant to, then this too is a doubtful thought. You should not think that whatever is to happen will happen, but you should have the full faith that everything is already accomplished. Before performing that deed, you should have the full faith that it is already accomplished. Do you have such a *stage*? No matter what type of Maya comes, you must not fluctuate. Someone who has faith in the intellect will face every storm or obstacle as though it is nothing. You have *scientific* inventions to keep you cool - when it is hot, you will not feel hot. In the same way, when storms of Maya come to those who have faith in the intellect, it would not be a big thing for them. If you have the methods of remaining *safe*, you will become a conqueror of Maya.

You should be one who has total faith in the intellect in every aspect. Those who have such faith in the intellect constantly observe their own *parts* as detached observers and do not get disturbed when they see the parts of others. They do not go into the questions of "Why? or What?".

Do the original jewels of the task of establishment have the intoxication of being the original jewels? This intoxication brings you happiness. You have experienced in your *practical* life the fortune that people desire to have even in their dreams. All of you experienced this in practice in the living form, whereas now, everyone just hears of these inspiring activities. So is this fortune small? Any other type of fortune can be attained even now, but you cannot attain this fortune at any other time. Such fortune can only be attained by a handful out of multimillions, and a few out of that handful. Those who came at the beginning can constantly remain very happy if they do not remember anything other than their fortune and that this *part* of theirs is fixed for cycle after cycle. The speciality of Brahmins is happiness. If you don't have happiness, you are not a Brahmin.

At present, *service* abroad is beginning to speed up. In a short time, they have already begun the service of giving many people Baba's message simultaneously through many different methods. Countries abroad are more co-operative in giving the message. All facilities are attained very easily. Bharat will *copy* the foreign countries in this aspect. People of Bharat are not so open hearted, they hesitate a lot, whereas the foreigners are very generous hearted. When this sound reaches Bharat from abroad, the people of Bharat will learn a lesson and be ashamed that the foreigners give much more importance to the *philosophy* of their Bharat than they do. The *foundation* of serving quickly through all methods at the same time is spreading fast. There has to be something new every year, so that people from abroad will be attracted to the *knowledge* of gyan and yoga. This will be a lesson for the people of Bharat. Whatever happens, every *part* has a speciality. The *response* is good due to everyone's zeal and enthusiasm everywhere. This will also become a memorial. Wherever Brahmins are playing their parts in serving the foreign lands, those will become tourist places in the future. These will be memorials, not temples. The scene of the *practical* place will be like a memorial. Bharat is being taught a lesson through the service of important people that is taking place, and the places for the future kingdom are also being fixed. Achcha.

**Blessing:** May you be a fortunate soul who, constantly performs elevated deeds and sings songs of wonder according to the elevated time.

At this elevated time, constantly perform elevated deeds and continue to sing songs of "Wah!, Wah!" in your mind. "Wah my elevated actions!" or Wah Baba who taught me how to perform elevated actions!" Constantly sing songs of "Wah!, Wah!". When you see a scene of sorrow even by mistake words of distress should not emerge through your lips. Wah drama! Wah! Wah Baba! Wah! Maintain the intoxication of this fortune that what you never even dreamt of, you received that fortune while sitting at home.

**Slogan:** Make your mind and intellect powerful and you will remain unshakeable and immovable in any upheaval.

\*\*\* OM SHANTI \*\*\*
