

Essence: Sweet children, you must not love any impure bodily beings because you are going to the pure world. Have love for the one Father.

Question: What is it that you should not get fed up with and why?

Answer: You must not get fed up, even slightly, with that old body of yours because that body is very, very *valuable*. The soul sits in that body and wins a very big *lottery* by remembering the Father. If you stay in remembrance of the Father, you continue to receive the nourishment of happiness.

Om shanti. Sweetest, spiritual children, you are now residents of the faraway land and you will then become *passengers* going to the faraway land. We are souls and we are now making effort to go to the land very far away. Only you children know that you souls are residents of the faraway land. You call out to the Father who resides in the faraway land: Come and take us to the faraway land too. Now, the Father, who resides in the faraway land, is taking you children there. You are spiritual *passengers* because you are with those bodies. It is the spirit that does the *travelling*. The body will be left here, and the spirit will do the *travelling*. Where will you souls go? To their spiritual world. This is the physical world and that is the spiritual world. The Father has explained to you children: You now have to return to the home from where you came to play your *parts*. This is a very big *stage*. Everyone has to *act* and perform their *parts* on the *stage* and then return home. You can only go back when the play is over. You are now sitting here and your intellect's yoga is with your home and the kingdom. Remember this very firmly because it is remembered that your final thoughts lead you to your destination. You are now studying here and you know that God, Shiv Baba, is teaching you. God cannot teach you at any time other than at this most auspicious confluence age. Only once in the whole 5000 years does the Father, incorporeal God, come and teach. You have this firm faith. The study is so easy; you now have to return home. The whole world loves that home. Everyone wants to go to the land of liberation, but they don't understand the meaning of that. Look what people's intellects are like at this time and look what your intellects have now become: there is such a vast difference! You have clean intellects, numberwise, according to your efforts. You have a very good *knowledge* of the beginning, middle and end of the world. It is in your hearts that you now have to make effort and definitely become Narayan from an ordinary human. From here, you will first go to your home, and so you have to go in happiness. Just as in the golden age, the deities shed their bodies and take others in happiness, in the same way, you have to shed those old bodies in happiness. You must not get fed up with it because it is a very *valuable* body. It is through that body that the soul wins a *lottery* from the Father. Until we become pure, we cannot go back home. Only when you continue to remember the Father with that power of yoga will the burden of sins be removed. Otherwise, there will have to be a lot of punishment. You definitely have to become pure. In worldly relationships, if a child does some dirty, impure act, then, because he has become impure against the law, his father, out of anger, could even beat him with a stick. If someone loves another against the law, the parents do not like that. This unlimited Father says: You children don't have to live here any longer. You now have to go to the new world. No vicious, impure beings exist there. Only the one Purifier Father comes and makes us pure like that. The Father, Himself, says: My birth is divine and unique. Other souls cannot enter a body in the way that I do. Although the souls of the founders of religions also enter a body, that is a different matter. I come to take everyone back. They come down from up above to play their *parts*. I take everyone back with Me and then tell you how you will first go to the new world. There are no storks in that golden-aged new world. The Father comes in the midst of storks and makes you into swans. You have now become swans; you select pearls. You will not receive these jewels in the golden age. You are now picking up these jewels of knowledge and becoming swans. The Father sits here and explains how you become swans from storks. He is now making you into swans. Deities are called swans and devils are called storks. You now enable people to renounce rubbish and make them select pearls. You alone are called multimillion times fortunate; there are multimillions at every step. Shiv Baba does not have feet that He could have multimillions. He makes you multimillion times fortunate. The Father says: I have come to make you into the masters of the world. All of these things have to be understood very clearly. People understand that there was heaven, but they don't know when it existed or how it will exist again. You children have now been enlightened. All of those people are in darkness. They don't know when or how Lakshmi and Narayan became the masters of the world. It is a matter of 5000 years. The Father sits here and explains to you: Just as you come to play your *parts*, so I too come in the same way. You invite Me and say: O Baba, come and make us impure ones pure!

You would never say this to anyone else; you would not even say to the founder of your religion: Come and make us all pure. Neither *Christ* nor Buddha would be called the Purifier. A guru is one who grants salvation. Those people (founders of religions) come down here and then everyone has to follow them down. Only the one Father, the Immortal Image, is the One who shows you the way back home and grants everyone salvation. In fact, the word "Satguru" is *right*. The Sikhs speak words that are more *right* than the words you speak. They say very loudly: Satguru, the immortal One. They chant this very loudly. They say: The Satguru is the Immortal Image. If there were no Image, how could He be the Satguru and how could He grant everyone salvation? That Satguru comes and He Himself gives His own introduction: I do not take birth in the way that you do. Everywhere else it is bodily beings who sit and relate knowledge, whereas the bodiless, spiritual Father sits here and explains to you. There is the difference of day and night. Whatever people do at this time is *wrong* because they are following the dictates of Ravan. There are the five vices in each one. It is now the kingdom of Ravan. The Father sits here and explains these things to you in *detail*. Otherwise, how would you know about the cycle of the whole world? You should know how this cycle turns. You don't ask Baba to explain it to you. The Father continues to explain by Himself without your asking Him. You don't need to ask a single question. God is the Father. The Father's duty is to tell you everything by Himself and to do everything by Himself. A father gets his children admitted into a *school* by himself. He gets them to go to work and tells them to leave everything after the age of 60 and just remember God, sing devotional songs, read the Vedas and scriptures and perform worship. You have been worshippers for half the cycle and you are now becoming worthy of worship for half the cycle. It is explained to you so easily how you can become pure. Then, worshipping is completely stopped. All of those people are performing worship whereas you are receiving knowledge. They are in the night, whereas you are going into the day, that is, to heaven. It is written in the Gita: Manmanabhav! This word is very well known. Those who study the Gita can understand it. What is written is very easy. People have been studying the Gita all their lives, but they haven't understood anything. That same God of the Gita now sits here and teaches you. You then become pure from impure. We now hear the Gita from God and we then relate it to others and become pure. There are the Father's elevated versions. This is that same easy Raja Yoga. People are drowning so much in blind faith that they don't even listen to you. According to the *drama*, only when their fortune opens can they come to you. None of those of other religions have the fortune that you have. The Father has explained: This deity religion of yours is one that gives a lot of happiness. You also understand that what the Father says is right. In the scriptures, they have also shown Kans, Ravan etc. there. No one knows about the happiness there. Although they worship the deities, nothing sits in their intellects. The Father now says: Children, do you remember Me? Have you ever heard a father saying to his children, "Remember me"? Does a worldly father ever ask you to make effort to remember him? The unlimited Father sits here and explains to you. By knowing the beginning, middle and end of the whole world, you become rulers of the globe. First of all, you will go home and then come down here as actors. Now, no one would be able to tell whether someone is a new soul or an old soul. New souls would definitely become well known. Even now, look how well known some are. So many human beings come. So many people come unexpectedly. There is that impact. Baba too comes in this one unexpectedly, and so there is that impact. That too is a new soul coming and so there is an impact on the old souls. When the branches and twigs continue to emerge, there is their praise. No one knows why they are so famous. Because of being new souls, there is attraction in them. Now, look how many false gods there are! This is why it is remembered: The boat of truth may rock, but it will not sink. Many storms come because God is the Boatman. Children also fluctuate and the boat is affected by many storms. Many go to other spiritual gatherings, but there is no question of storms there. Here, there are so many assaults on innocent women. Nevertheless, establishment definitely has to take place. The Father sits here and explains: O souls, you have become such sharp thorns! When you become a thorn and prick others, you too are pricked. You receive the *response* to everything you do. There isn't anything dirty there that would cause sorrow. That is why it is called heaven. People speak of heaven and hell, but they don't understand anything. They say: So-and-so has gone to heaven. In fact, it is *wrong* to say that. The incorporeal world cannot be called *heaven*. That is the land of liberation. They then say that that person has gone to heaven. You now know that the land of liberation is the home of souls, just as there is a home here. On the path of devotion, those who are wealthy have big temples built. Look how the temple to Shiva was built. They also build temples to Lakshmi and Narayan and there are so many real jewels etc. There is a lot of wealth there. Now, all have become false. Previously, you used to wear so much real jewellery. Now, because of fear of the *Government*, people hide real jewellery away and wear false jewellery. There, there is nothing but the truth;

there is nothing false there. Here, even though they have real jewellery, they hide it. Day by day, gold continues to become more and more expensive. There, that is heaven. You receive everything new. In the new world, everything is new and there is an abundance of wealth. Now, look how everything has become so expensive. All the secrets from the incorporeal world onwards have been explained to you. Who else, other than the Father, would tell you the secrets of the incorporeal world? You then also have to become *teachers*. You may live at home with your families. Remain as pure as a lotus. If you make others similar to yourselves, you can claim a very high status. You can claim a higher status than those who live here; it is numberwise. While living outside (at home, not at a centre), you can still be threaded in the rosary. Just take the week's *course* and then go abroad or anywhere else. The whole world has to receive the *message*. The Father has come and simply says: Constantly remember Me alone! That Father is the *Liberator* and the *Guide*. If you go there, you will become well known through the newspapers. Others will also find this very easy: The soul and the body are two separate things. The mind and the intellect are in the soul and the body is non-living. It is the soul that becomes an actor. It is the soul that has the speciality and so you now have to remember the Father. Those who live here don't remember Him as much as those living outside. Those who remember Him a lot and continue to make others similar to themselves, who continue to change thorns into flowers, claim a high status. You understand that, you too were thorns previously. The Father has now issued an *ordinance*: Lust is the greatest enemy. Conquer it and you will become the conquerors of the world. However, no one understands anything simply from that writing. The Father has now explained everything. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Become swans who constantly select the jewels of knowledge. Only select the pearls and leave the rubbish. Earn an income of multimillions at every step and become multimillion times fortunate.
2. In order to claim a high status, become a *teacher* and serve many others. Become as pure as a lotus and make others similar to yourself. Change thorns into flowers.

Blessing: May you claim the *marks* in all four *subjects* that please the Father and become seated on the heart-throne.

Children who claim good *marks* in all four *subjects* and *pass* with a good *number* from the beginning to the end are said to have *passed with honours*. Let it not be that you have few *marks* in-between and that you then *make up* for it, but you claim the marks that please the Father in all four *subjects*; you can be seated on the heart-throne. Along with this, those who are loved by everyone in the world, those who are co-operative with everyone, those who receive respect from everyone can be seated on the heart-throne and the future throne of the kingdom.

Slogan: A beloved is one who constantly has this unlimited song playing in his heart: I belong to the Father and the Father belongs to me.

*** OM SHANTI ***
