

Essence: Sweet children, listen to the one Father alone and then relate to others what He says.

Question: What understanding has the Father given you which you have to explain to others?

Answer: Baba has given you souls the understanding that all of you are brothers. You have to stay in remembrance of the one Father. You have to tell everyone this one aspect because you have to benefit all your brothers of the whole world. You alone are the instruments for this service.

Om shanti. Generally, why do you say, "Om shanti"? This is giving your introduction. Souls would give their own introduction. It is souls that converse through their bodies. A body without a soul cannot do anything. Therefore, souls introduce themselves: I am a soul; I am a child of the Supreme Father, the Supreme Soul. Those people say that the soul is the Supreme Soul. All of these things are now explained to you children. Baba would say, "Child, child", would He not? The spiritual Father says: O spiritual children! You understand through your physical *organs*. The Father explains: First, there is knowledge and then there is devotion. It isn't that devotion is first and that then there is knowledge. First, there is knowledge, the day, and then devotion, the night. So, when can the day begin again? When there is disinterest in devotion. Keep it in your intellects that there is gyan and vigyan (silence). You are now studying this knowledge and you then receive the reward of this knowledge in the golden and silver ages. Baba gives you knowledge at this time and then, in the golden age, you receive the reward of studying it. This is something to understand. The Father is now giving you knowledge. You know that you will go beyond gyan into vigyan (silence), your home, the land of silence. That is neither called gyan nor devotion. That is called vigyan. You go beyond gyan, to the land of silence. You have to keep all of this knowledge in your intellects. For which place does the Father give you this knowledge? He gives it to you for the future new world. Before you go to the new world, you will first go to your home. You have to go to the land of liberation where you souls live. You will definitely go there. Only you listen to these new aspects. No one else can understand them. You souls understand that you are the *spiritual* children of the *spiritual* Father. Spiritual children surely need to have a spiritual Father. There is the spiritual Father and the spiritual children. You spiritual children only have one spiritual Father. He comes and gives you *knowledge*. It has also been explained to you how the Father comes. The Father says: I too have to take the support of matter. You must now only keep listening to the Father. Listen to no one but the Father. You children listen and then relate that to your brothers. You definitely have to relate something or other. Consider yourself to be a soul and remember the Father because He alone is the Purifier. The intellect goes there. When this knowledge is explained to you children, you are able to understand. Previously, you didn't understand anything. Because you had no understanding on the path of devotion, what happened to you when Ravan's claws grasped you? You became so dirty! What did you become when you drank alcohol? Alcohol spreads even more dirtiness. It is now in your intellects that you have to claim your inheritance from the unlimited Father. You have been claiming it for cycle after cycle. Therefore, you definitely also have to imbibe divine virtues. There is so much praise of Krishna's divine virtues. The Master of Paradise is so sweet! You would not say that it is the *dynasty* of Krishna; the *dynasty* is said to be of Vishnu, which means that of Lakshmi and Narayan. You children now know that only the Father can establish the *dynasty* of the golden-aged kingdom. Even if these pictures didn't exist, you could still explain this. Many temples continue to be built. Those who have knowledge will continue to run and benefit others and make them similar to themselves. Check yourself and ask: To how many have I given this knowledge? Some are shot by the arrow of knowledge very quickly. Bhishampitamai etc. said: I have been shot by the arrows of the kumaris. All these are pure kumars and kumaris, that is, they are children. All of you are children. Therefore, you say that you are brothers and sisters, children of Brahma. This is a pure relationship. You are *adopted children*. The Father has *adopted* you. Shiv Baba *adopted* you through Prajapita Brahma. In fact, you shouldn't use the word "*adopted*". You are the children of Shiv Baba anyway. Everyone calls out to Me: Shiv Baba, Shiv Baba, come! However, they have no understanding. All souls adopt bodies and play their *parts*. So, Shiv Baba too would definitely play His *part* through a body. If Shiv Baba didn't play a *part*, He would be of no use; He would be of no *value*. He has *value* when He enables the whole world to attain salvation. That is why they sing His praise on the path of devotion. When they have attained salvation, there is no need to remember the Father. They simply speak of *God*, the *Father*; the *Teacher* disappears. It is just for the sake of saying it that they say that the Supreme Father is the One who purifies everyone. They do not even say that He is the One who grants salvation. Although it is remembered that the Bestower of Salvation for All is One, they say this without understanding the meaning of it. Whatever you say now is meaningful. You understand

that devotion, the night, is distinct from knowledge, the day. There is the *time* of the day and the *time* of devotion. These are unlimited aspects. You children have received unlimited *knowledge*. For half a cycle, it is the day and for the other half, it is the night. The Father says: I come to change night into day. You know that it is Ravan's kingdom for half a cycle and that there are many types of sorrow in that. Then the Father comes and establishes the new world in which you have only happiness. It is said that this is a play about happiness and sorrow. Happiness means Rama and sorrow means Ravan. When you conquer Ravan, the kingdom of Rama starts. Then, after half a cycle, Ravan comes and conquers the kingdom of Rama and rules it. You are now conquering Maya. Every word you speak has meaning. This is your Godly language. How could anyone else understand how God speaks? You know that this is the language of *God*, the *Father*. Because He is *knowledge-full*, it is said that He is the Ocean of Knowledge, the One filled with *knowledge*, and so He would surely give this *knowledge* to someone. You now understand how Baba gives *knowledge*. He gives you His own introduction and also the *knowledge* of the world cycle. Then, by receiving this *knowledge*, we become the rulers of the globe. There is the discus of self-realisation. By having remembrance, our sins are cut away. This is your non-violent discus of remembrance. That discus is violent; it is for cutting off someone's head. Ignorant people continue to cut off one another's heads. By knowing the discus of self-realisation, you attain the kingdom. Lust is your greatest enemy through which you experience sorrow from its beginning, through the middle, to the end. That is the discus of sorrow. The Father explains to you the *knowledge* of the cycle. He makes you into spinners of the discus of self-realisation. They have made up so many stories in the scriptures. You now have to forget all of those. You simply have to remember the one Father because you can only claim your inheritance of heaven from the Father. Remember the Father and claim your inheritance from Him. It's so easy! The unlimited Father establishes the new world and so you remember Him in order to claim your inheritance from Him. This is the meaning of "Manmanabhav" and "Madhyajibhav". By remembering the Father and your inheritance, the mercury of happiness of you children will remain high. We are the children of the unlimited Father. The Father is establishing heaven. We were the masters of heaven and we will definitely become those masters once again. We are the ones who then became the residents of hell. We were satopradhan and have now become tamopradhan. We are the ones who went onto the path of devotion. We have been *all round* the whole cycle. We people of Bharat first belonged to the sun dynasty, then the moon dynasty, and we then came down into the merchant dynasty. We people of Bharat were deities and then we fell down. You now know everything. When you go onto the path of sin, you become so dirty! They have created such dirty images in the temples. Previously, they used to make clocks too with such images. You now understand that you were so beautiful previously and that you then became so dirty whilst taking rebirth! When you were the masters of the golden age, you were human beings with divine virtues. You now have devilish traits, but, otherwise, there is no other difference. There are no human beings with a tail or a trunk. Those things are simply symbols of deities. Heaven disappeared and just those pictures remained as symbols. There is also the symbol of the moon dynasty. You are now battling in order to conquer Maya. The symbol of your *failing* whilst battling is the bow and arrow. In fact, the people of Bharat belong to the deity clan. Which clan could they be counted in otherwise? However, because the people of Bharat do not know about their clan, they call themselves Hindus. Otherwise, you are all just the one clan. Everyone in Bharat belongs to the deity clan which is established by the unlimited Father. Bharat only has one scripture. The *deity dynasty* is established and then other *branches* emerge from that. The Father establishes the deity religion. There are four main religions and their *foundation* is the deity religion. All of you souls are residents of the land of liberation. Then you go into your deity *branch* (trunk). Bharat only has one *boundary* (foundation); none of the other religions have this. You originally belong to the deity religion. Then, according to the *drama plan*, other religions emerge from that. The original religion of Bharat is the *deity* religion which is established by the Father. Then, new leaves emerge from that. This whole tree is God's tree. The Father says: I am the Seed of this tree. This is the *foundation* and the *tubes* emerge from it. The main thing is that all of us souls are brothers. The Father of all souls is the One whom everyone remembers. The Father says: You have to forget whatever you see with your physical eyes. This disinterest is unlimited whereas their disinterest is limited. They simply have distaste for their home whereas you have distaste for the whole of the old world. When you have finished your devotion, you have distaste for the old world. Then we go to the new world *via* the land of peace. The Father says: This old world is going to be burnt. You must not attach your heart to this old world. Until you become worthy, you have to stay here. You have to settle all your accounts. You are accumulating happiness for half a cycle. That is called the land of peace and that is the land of happiness. First, there is happiness and then sorrow. The Father has

explained that all new souls come down from the home. For instance, when the Christ soul first comes, he doesn't experience any sorrow. This play is first about happiness and then sorrow. New ones that come are satopradhan. Just as your experience of happiness is greater than theirs, so is your experience of sorrow too. You have to use your intellects to understand all of this. The Father sits here and explains to you souls. You then explain to other souls. The Father says: I have adopted this body. I enter this body at the end of this one's many births, that is, I enter a tamopradhan body. Then, he becomes the *first* one to come. The *first* becomes *last* and the *last* becomes *first*. This also has to be explained. Who comes after the *first* one? Mama! She too has to play her *part*. She has given teachings to many. Then, you children are numberwise in teaching many others. Those who are studying also make such effort that they become cleverer than you. There are many students at the *centres* who become cleverer than their *teachers*. Each one is seen individually. You can understand everything from each one's behaviour. Maya catches hold of some by the nose in such a way that she completely finishes them; they fall into vice. As you progress further, you will hear this of many. You will be amazed. "This one used to give us knowledge. Why did she go away? She used to tell us to become pure and she herself has now become dirty." You will definitely be able to understand. Many become dirty. Baba has said: Maya will greatly trouble even very good maharathis. Just as you trouble Maya and gain victory over her, so too, Maya does the same. The Father gave you such *first-class* entertaining names, but oh Maya! They are amazed by the knowledge, they relate it to others and then they run away! They fall down. Maya is so powerful! This is why you children must remain very cautious. This is a battlefield. Your war with Maya is so great! Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Settle all your karmic accounts here and accumulate happiness for half a cycle. Do not attach your heart to this old world. Forget everything you can see with your physical eyes.
2. Maya is very powerful. Therefore, remain very cautious of her. *Gallop* in your study and make progress. Only listen to the one Father and only relate to others what you have heard from Him.

Blessing: May you be a soul who has all rights and has firm faith and intoxication of victory in every action.

"Victory is my birthright." Constantly continue to fly with this awareness. No matter what happens, remain aware that you are constantly victorious. No matter what happens, let your faith always be firm. The basis of intoxication is faith. When there is less faith, there is less intoxication. Therefore, it is said: The one who has faith in the intellect is victorious. Do not be one who only sometimes has faith. The Father is imperishable and so be one who has a right to the imperishable attainment. Let there be the faith and intoxication of victory in every action.

Slogan: Stay under the canopy of protection of the Father's love and no obstacle will then be able to stay.
