

Essence: Sweet children, only by using the mantra that disciplines the mind, “Manmanabhav”, can you conquer Maya. Remind everyone of this mantra.

Question: Who are the greatest *labourers* in this unlimited *drama* and in which way?

Answer: The greatest *labourers* in cleaning this old world are the *natural calamities*. The world is cleansed by earthquakes and floods. God does not give *directions* to anyone for this. How could the Father *destroy* His children? This is their *part* in the *drama*. Because this is the kingdom of Ravan, they cannot be called *Godly calamities*.

Om shanti. Only the Father says to you children: Children, manmanabhav! It isn't that you children can sit here and explain to the Father. Children do not say: Shiv Baba, manmanabhav! No. Although when children sit together and *chat* they can come up with ideas, the main, great mantra is the one that the Father gives you. Gurus give mantras, but when did that system begin? The Father, the One who creates the new world, first gives the mantra “Manmanabhav”. This is called the mantra that disciplines the mind. It is the mantra to conquer Maya. You don't have to chant it inside, but you do have to explain it. The Father explains the meaning of it. This mantra is written in the Gita, but no one understands its meaning. This time is now that *episode* of the Gita, but the name (of the One who spoke it) has simply been changed. On the path of devotion, they create such huge books etc. In fact, the Father sits here and explains this to you children *orally*. The knowledge is in the Father's soul. It is the souls of you children that imbibe the knowledge. These pictures have been created so that this knowledge is easy for you to explain. You children have all of this *knowledge* in your intellects. You understand that there definitely used to be the original, eternal deity religion; there were no other lands at that time. All of those other lands were *added* later on. You should keep this picture somewhere in a corner to show that, when it was their kingdom in Bharat, there were no other religions at that time. There are now so many religions! Then, none of them will exist any longer. This is Baba's *plan*. Those people have so many worries. You children understand that this is absolutely accurate. It has also been written that the Father comes and carries out establishment through Brahma. Establishment of what? Establishment of the new world. The *capital* is on the banks of the Jamuna. There is only one religion there; the tree is very small. Only the Father gives you the knowledge of the tree. He also gives the knowledge of the cycle. There is only one language in the golden age; there is no other language at that time. You can prove that there was only one Bharat; there was only one kingdom and one language. In *Paradise*, there was happiness and peace; there was no name or trace of sorrow. There was *health, wealth, happiness*, everything. At the time when Bharat was new, the lifespan of its people was very long because there was purity. When there is purity, people are healthy. Look at the state of human beings now that there is impurity! Untimely death takes place suddenly. Even young people die; there is so much sorrow. Untimely death does not take place there; people reach their *full age*. None of them die until they have reached their full lifespan, that is, until they have become old. Whenever you explain to people, you have to enable their intellects to imbibe that they must remember the unlimited Father because He alone is the Purifier and the Bestower of Salvation. You should have that map so that you can explain and prove that this is a map of the world today and that that is a map of tomorrow's world. Some do listen carefully. You have to explain this accurately. This Bharat is the eternal land. When this deity religion existed, there were no other religions. That original deity religion no longer exists. Where did Lakshmi and Narayan go? No one can tell you that. No one has the power to tell you that. You children can explain very well with the full meaning. There is nothing to be confused about. You now understand everything and so you can *repeat* it to others. You can ask anyone: Where did these deities go? They will be amazed when they hear your question. You can tell them with faith how they take 84 births. This is in your intellect. You can instantly say that it was our kingdom in the golden age of the new world. There was only the original eternal deity religion there. There were no other religions at that time. *Everything* is *new*; everything is satopradhan. There is limitless gold there. It is mined very easily and their bricks and buildings are made from it. Everything there is made of gold. The mines would all be new. There would be no *imitations* there when *real* materials are so plentiful. Here, there is no trace of *real* things. Here, there is so much influence of *imitation*, and this is why it has been said that the body is false, Maya is false and property is also false. So many different varieties of diamonds and jewels have emerged that you can't even tell whether they are real or false. They have so much *show* that you can't discriminate between real and false ones. These false things will not exist there. When destruction takes place, everything will go beneath the earth. They used such huge diamond stones in their buildings. Where would all of those have come

from? Who would have *cut* them? There are many *experts* in India. They will continue to become cleverer and they will then take their skills there with them. The crowns etc. will not be made simply of diamonds. They will be made of totally *refined* gold and real diamonds. Electricity, *telephones* and *motor* cars etc. did not exist before. All of those things have emerged during Baba's *lifetime*. It has been about 100 years since all of those things emerged. There, they are great *experts*. Even now, people are still learning; they are still becoming clever. You children are also given visions of that. The *helicopters* there will be *foolproof*. You children will be satopradhan and have *shrewd* intellects. As you progress a little further, you will continue to have visions of everything. It is similar to when you return from abroad and approach your home country and see the trees; you have happiness inside that you are now about to arrive home. At the end, you will also continue to receive such visions. You children understand that Baba is the *most beloved*. He is the *Supreme* Soul. Everyone remembers Him. You also used to remember the Supreme Soul on the path of devotion, but you didn't know whether He was small or large. It is remembered that there is a unique star sparkling in the centre of the forehead, and so He must definitely be like a point. He alone is called the *Supreme* Soul, God. He has all the specialities. He is the Ocean of Knowledge. What knowledge does He give you? You can only find that out when He gives it to you. Did you know any of this previously? You only knew about devotion. Now you understand what a *wonder* this is! You can't see a soul with your physical eyes and so you also forget the Father. However, the *part* in the *drama* is such that the name of the one who is made into the master of the world is used and the name of the One who made him that is made to disappear. They have said that Krishna is Trilokinath (Lord of the Three Worlds) and the Lord of Paradise, but they don't understand the meaning of that. They just give him that importance. They have made up many stories on the path of devotion. They say that God has so much power that He is brighter than a thousand suns and that He can burn everything. They have made up such stories! The Father says: How could I burn My children? That is not possible! Would the Father *destroy* His children? No! This is *part* of the *drama*. The old world has to be destroyed. These *natural calamities* are *labourers* for the destruction of the old world. They are the greatest *labourers*. It isn't that the Father gives them *directions* for destruction; no. Storms take place, *famine* takes place. Does God say: Do this? Never! This is *part* of the *drama*. The Father does not say: Create *bombs*! All of these are said to be Ravan's directions. This *drama* is predestined. This is the kingdom of Ravan and so its people have devilish intellects. So many die! At the end, everything will be burnt. This is a predestined play which continues to *repeat*. It isn't that by Shankar's eye opening destruction takes place. Those things cannot be called *Godly calamities*; they are *natural*. The Father is now giving you children shrimat. It is not a matter of causing sorrow for anyone. The Father is the One who shows the path to happiness. According to the *drama plan*, buildings continue to become old. The Father says: The whole world has become old; it has to be destroyed. Look how people keep fighting amongst themselves! They have devilish intellects. When people have Godly intellects, there is no question of killing etc. The Father says: I am the Father of everyone; I love everyone. Whilst Baba looks at children here, His vision goes towards the special children, the ones who remember the Father with a lot of love and who also do *service*. Whilst sitting here, the Father's vision goes towards the *serviceable* children. Sometimes it is on Dehradun, sometimes on Merath and sometimes on Delhi. I also remember the children who remember Me. I even remember those children who don't remember Me because I have to take everyone back with Me. Those who understand the knowledge of the cycle of the world from Me will then claim a high status, numberwise. These are unlimited matters. Those *teachers* etc. are limited; that One is unlimited. Therefore, you children should experience so much happiness inside you. The Father says: Not everyone's *part* can be the same. This one has this *part*. There are a handful out of multimillions who *follow*. They say: I am Your child of seven days; I am Your child of one day. So, you are kittens. The Father continues to explain each aspect. You definitely crossed the river and came. Knowledge began as soon as the Father came. He is praised so much! You must have studied that Gita episode so many times for birth after birth. So, look at the difference between the versions spoken by God Krishna and the versions spoken by God Shiva! The contrast is like that of day and night. It is now in your intellects that when you were in the land of truth you saw a great deal of happiness. In fact, you experience happiness for three-quarters of the cycle. The Father has created the *drama* for happiness, not sorrow. You began to experience sorrow afterwards. The war cannot take place that quickly. You receive a lot of happiness. If it were half and half, there wouldn't be that much pleasure. No wars will take place here for three and a half thousand years. There aren't any sicknesses etc. Just look how there is now illness after illness. In the golden age, there won't be any insects that eat the grain. That is why it is called heaven. You should also display a map of the *world* so that people can understand. Originally, there was only Bharat; there were no other religions

at that time. The founders of religions came later, numberwise. You children now know the *history* and *geography* of the *world*. Everyone, except you, says: “Neti neti”, which means that they don’t know the Father. They say that He has no name, form, land or time period. If He doesn't have a name or form, He cannot have a land either. However, they don't understand anything. The Father now gives His accurate introduction to you children. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. In order to stay constantly in limitless happiness, continually remember all the unlimited things that the unlimited Father tells you and continue to *follow* the Father.
2. Adopt purity in order to remain constantly healthy. On the basis of purity, you can claim the inheritance of *health*, *wealth* and *happiness* from the Father.

Blessing: May you become unshakeable and immovable by making your stage elevated with the tilak of awareness of three things.

BapDada has given all the children a tilak of awareness of three things. One is the awareness of the self, then is the awareness of the Father and the third is the awareness of the *drama* in order to perform elevated actions. The stage of those who are constantly aware of these three things is elevated. Together with the awareness of the soul is the awareness of the Father and together with the Father, the awareness of the *drama* is most essential because when you have the knowledge of the *drama* while performing actions, you will not fluctuate. Whatever adverse situations arise, you will remain unshakeable and immovable.

Slogan: Make your drishti alokik, your mind cool and your intellect merciful.
