

**Essence:** Sweet children, only by having accurate *knowledge* of the *drama* can you remain unshakeable and stable and have a constant stage: storms of Maya cannot shake you.

**Question:** What is the one main virtue of the deities that should always be visible in you children?

**Answer:** Staying cheerful. Deities are always shown as cheerful and smiling. Similarly, you children also have to stay constantly cheerful. No matter what happens, simply continue to smile. Never allow there to be sadness or anger. The Father gives you the understanding of what is *right* and what is *wrong* and never becomes angry or unhappy with you. So, you children too must not become unhappy.

Om shanti. The unlimited Father explains to you unlimited children. A physical father would not say this. He would perhaps have five to seven children. Here, all souls are *brothers*. There must definitely be the Father of all of them. People say that they are all brothers and they say this about everyone. For anyone who comes, they would say: We are brothers. All are tied in the *drama* which no one knows about. Not to know is also fixed in the *drama*. Only the Father comes and tells you all of this. When people relate religious stories, they say: Salutations to the Supreme Father, the Supreme Soul, but they don't know who He is. They say: Deity Brahma, Deity Vishnu and Deity Shankar, but they do not say this with understanding. In fact, Brahma should not be called a deity. Vishnu is called a deity. No one knows about Brahma. It is right to say, "Deity Vishnu", but Shankar has no *part*; there is no *biography* of him. There is the *biography* of Shiv Baba. He comes here to make impure ones pure and establish the new world. The one original eternal deity religion is now being established and all the other religions are to be destroyed. Where does everyone go? To the land of peace. Everyone's body is to be destroyed. In the new world, there will just be you. You know all the main religions. You cannot mention the names of all of them; there are many small branches and twigs. First of all, there is *deityism* and then there is the Islam religion. These things are not in the intellect of anyone except you children. That original eternal deity religion has now disappeared and this is why the example of a banyan *tree* is given. The whole tree is standing, but it doesn't have a *foundation*. It is a banyan *tree* that has the greatest lifespan. Here, it is the deity religion that has the greatest duration. When that disappears, the Father can come and say: Now the one religion has to be established and the other religions have to be destroyed. This is why the Trimurti has been created, but they don't understand the meaning of that. You children know that God is the Highest on High, and then there are Brahma, Vishnu and Shankar. Then, when you come onto the earth, apart from the deities, there are no other religions. The path of devotion is also fixed in the *drama*. First of all, people worship Shiva and then the deities. This applies to Bharat alone, because all the rest of the people know when their religion or sect was established. The Aryans say: We are very ancient. In fact, the oldest is the original eternal deity religion. When you explain the picture of the tree, they can understand for themselves that their religion begins at such-and-such a time. Everyone has to play their original and eternally predestined *parts* that they have received. You cannot blame anyone or say that it is anyone's mistake. It is just explained why you have become sinful souls. People say that they are all the children of the unlimited Father. So, why are all the *brothers* not in the golden age? However, that is not *part* of the *drama*. This eternal *drama* is predestined. Have faith in it and do not say anything else! You have been shown how the cycle turns. There is also the picture of the kalpa tree but no one knows what its duration is. The Father does not defame anyone; He only explains. He also explains to you how you were so pure. Now that you have become impure, you call out: O Purifier, come! First of all, you all have to become pure and then come down to play your *parts*, numberwise. All souls reside up above. The Father too resides up above and then you call out to Him to come. He doesn't come by your calling Him. The Father says: My *part* is also fixed in the *drama*. Just as the main *actors* in a limited *drama* have a main *part*, so this is the unlimited *drama*. All are tied in the bondage of the *drama*. This does not mean that you are tied with a string; no. The Father explains that that tree is non-living. If the seed were living, it would know how the tree grows and how it bears fruit. That One is the Living Seed of this human world tree. It is called the inverted tree. The Father is *knowledge-full*. He has the *knowledge* of the whole tree. This is the same *knowledge* of the Gita. It is not anything new. Baba is not reciting any verses here. Those people study the Granth and then sit and explain its meaning. The Father explains: This is a study. There is no need for verses in this. In the study of those scriptures, there is no *aim* or *objective*. They speak of knowledge, devotion and disinterest. This old world is to be destroyed. The sannyasis have limited disinterest whereas you have unlimited disinterest. When Shankaracharya comes, he sits and teaches people to have disinterest in the home and family. He doesn't

teach the scriptures etc. in the beginning. It is only when there has been a lot of expansion that people begin to write the scriptures. In first establishing a religion, there is just one person and then expansion gradually takes place. You also have to understand what religion was the first one in the world. There are now many religions. There used to be the original eternal deity religion which was called *heaven*. By knowing the Creator and creation, you children become theists. There is so much sorrow when you are atheists. You become orphans and continue to fight and quarrel amongst yourselves. It is said: you continually fight amongst yourselves. "Do you not have a lord and master?" At this time, all are orphans. In the new world there was purity, peace and happiness in fact everything and there was limitless happiness. Here, there is limitless sorrow. That is in the golden age and this is in the iron age. This is now your most auspicious confluence age. There is just one auspicious confluence age. The confluence of the golden and silver ages cannot be called auspicious. There are deities there and devils here. You know that this is the kingdom of Ravan. They show a donkey's head on the head of Ravan.. No matter how clean you make a donkey before you place the laundry on him, he will roll in the dust and spoil all the clothes. The Father cleans your clothes and makes you beautiful. Then, you roll around in the kingdom of Ravan and become impure. Both soul and body become impure. The Father says: You lost all your decoration. The Father is called the Purifier. You can say in a full gathering how decorated you were in the *golden age*. You had such a *first-class* fortune of the kingdom, and you then rolled around in the dust of Maya and became dirty. The Father says: This is the city of darkness. They have said that God is omnipresent. Whatever happened will *repeat* identically. There is no need to be confused about this. A child calculated how many hours, *minutes* and *seconds* there are of each religion in the 5000 years and sent this calculation to Baba. He must have wasted his intellect on that. Baba just explains how the world continues. Prajapita Brahma is the *great great grandfather*. No one knows his *occupation*. They have created a variety-form image but they have put Prajapita Brahma aside. They don't know the Father or the Brahmins accurately. They call him Adi Dev. The Father explains: I am the Living Seed of this tree. This is an inverted tree. The Father who is the Truth, the Living Being and the Ocean of Knowledge is praised. If there is no soul in a body, it cannot move around. A soul enters a womb after four to five months. This *drama* is predestined. Then, when the soul leaves the body, everything is finished. A soul is imperishable and plays his *part*. The Father comes and makes you *realise* that a soul is such a tiny dot and has an imperishable *part* recorded in him. The Supreme Father too is a soul and He is called the Ocean of Knowledge. He gives you *realisation* of the soul. Those people simply say that God is the Almighty Authority and that He is brighter than a thousand suns, but they don't understand anything. The Father says: They have described all of that on the path of devotion and written those things in the scriptures. When Arjuna was given a vision, he said: "I am unable to tolerate so much brightness." So that idea has become fixed in people's intellects. If someone that bright were to enter someone, that person would explode! They don't have any knowledge. So, they think that the Supreme Soul is brighter than a thousand suns and they want to have a vision of Him. They have those loving feelings of devotion, and so they have a vision of that. In the beginning, many people who came to you would have visions and their eyes would become red. They had visions, but where are they now? All of those things belong to the path of devotion. The Father explains all of these things. There is no question of defamation in this. You children should always remain cheerful. This *drama* is predestined. People insult Me so much, but even then, what do I do? Do I become angry? I understand that all of them are trapped on the path of devotion according to the *drama*, and so there is no need to get upset. The *drama* is fixed in this way. You have to explain with love. The poor helpless people are in the darkness of ignorance and you should feel mercy for them because they don't understand. You should remain constantly smiling. Those poor people will not be able to come to the gates of heaven. They are all going to go to the land of peace. Everyone wants peace. So the Father explains *real* things to you. You now understand that this play is predestined. Each one has received a *part* in the *drama*. You need a very unshakeable and stable intellect in this. Until you have an unshakeable, immovable and constant stage, how would you be able to make effort? No matter what happens, even if storms come, you have to remain stable. Many storms of Maya will come and they will come till the end, but your stage has to be strong. This effort is incognito. Some children make effort and continue to blow away the storms. The more someone *passes* in this, the higher the status he will claim. There are many different levels of status in the kingdom. The best pictures are the Trimurti and the cycle (one picture), and the tree. These were created at the beginning. You can take these two pictures abroad for *service*. They will be able to understand them very well. Baba wants these pictures to be made on cloth and that too will gradually happen. You will explain how establishment is taking place. If

you too understand this, you will claim a high status in your own religion. If you wish to claim a high status in the *Christian* religion, understand this very well. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

**Essence for dharna:**

- 1 Become pure at this most auspicious confluence age and decorate yourself. Never allow your decoration to be spoiled by rolling in the dust of Maya.
- 2 Understand this *drama* accurately and make your stage unshakeable, immovable and stable. Never become confused; always remain cheerful.

**Blessing:** May you be cheerful and have the fortune of happiness and create the fortune of others with your awareness of God and your fortune.

From amrit vela till night time, bring the variety of your fortune into your awareness and continue to sing the song: Wah my elevated fortune! Only those who maintain the awareness of God and their fortune are able to make others fortunate. A Brahmin means to be one who is constantly fortunate and to have the constant fortune of happiness. No one would have the courage to reduce the happiness of a Brahmin soul. Each one is cheerful and has the fortune of happiness. It is impossible to lose your happiness in Brahmin life. Even if the body goes, your happiness cannot go.

**Slogan:** Leave the swings of Maya and constantly continue to swing in the swing of supersensuous joy.
