

**Essence:** Sweet children, in order to stop your old habits, continue on the pilgrimage of remembrance. It is only by having remembrance that you will be able to finish your old habits.

**Question:** How is the unlimited Father merciful in an unlimited way?

**Answer:** Baba says: I am merciful because I cannot bear to see My children experiencing sorrow. I have come to grant them liberation in life in a *second*. Knowledge takes a *second* and destruction also takes a *second*. It isn't that when destruction takes place you will be suffering in *hospital*. Therefore, such things are being created that they will destroy everything in a *second*. This is fixed in the *drama*. The Father gives patience to you children and says: Children, there will be peace in the world after destruction.

Om shanti. The spiritual Father is sitting in this chariot and speaking to you spiritual children who are in your chariots and listening through your physical *organs*. He says: You do understand that you are sitting with the Father. That One is your *Teacher* and your Guru, but, first of all, He is your Father. When children are with their father, would they constantly salute him? If they did this, it would be understood that they don't consider him to be their father, but some sage or holy man etc. Because you have become accustomed to saluting sages and holy men and falling at their feet for birth after birth, you haven't understood this knowledge very well. Those to whom the Father explains understand that He has now come to give them their inheritance. Therefore, children, you should have so much happiness that the Father comes every cycle to give you your inheritance. There is no question of being afraid in this. Devotees are afraid that sages or holy men might cast a bad spell on them; they are also concerned that their guruji should not become upset. You children know that the Father is very sweet. He has come once again to create the original, eternal deity religion. However, first of all, you have to become Brahmins. The highest clan is that of Brahmins. They are the children of Prajapita Brahma. Brahma is also called the *great-great-grandfather*, and so there would definitely be children as well. This matter has to be understood. Those on the path of devotion simply say whatever enters their minds. Even Maharishi says: Eat, drink and be merry; all your habits will stop automatically. However, unless you have yoga you will be unable to finish your habits. You definitely need someone to inspire you to finish them. At present, everyone is impure and tamopradhan. You say that this is the last birth of Lakshmi and Narayan, that they are now impure and in a different name, form, country, place and time. These matters have to be deeply understood. Just look: they sing that they are virtueless, that they do not have any virtues. However, they don't understand the meaning of being 'virtueless'. At present, no one has any virtues. The conscience also says that no one can have any virtues in Ravan's kingdom. The organisation called 'Nirgun Balak' (virtueless child) is so large! All of those who are without virtues have to become virtuous. In fact, you too were virtueless and had no virtues; you were impure thorns. You have come here to become virtuous. There is only the one Father who can make your stage ascend. Everyone has to be benefited by the Father. In the Granth (Sikh scripture), it says: There is benefit for everyone because of You. Benefit for all takes place in the land of peace and the golden age. This is the land of sorrow. You children now know the whole cycle. You are swadarshanchakardhari. The first one to claim the title of Swadarshanchakardhari is the Father, because only He knows the cycle of 84 births. Only the Father can make you swadarshanchakardhari. However, neither the Father nor any of you has these symbols because you are effort-makers. Not all of you are able to imbibe this knowledge fully. When you have become very firm and strong, all the knowledge will be in your intellects. All of these matters are those of knowledge, but they have portrayed Krishna using the discus in a violent way. They understand nothing at all! The Father explains the significance of all those pictures. There, they are *unrighteous*, whereas here, they are *righteous*. You know that Baba, the Charioteer, is sitting in this chariot and giving you the *righteous knowledge* of how this world cycle turns and how all these religions grow. The Father has come once again to create the one religion and when that is complete, everyone will be destroyed at the end. Every *act* that a soul performs, *second by second*, the soul will repeat that same *act* identically once again. There is no need to be confused about this. The world is the same one; it simply becomes old from new. People think that there is another world up above. They say that they'll buy a *plot* on the moon, and do this or that etc. All of that is the extreme arrogance of Maya, the extreme arrogance of *science*. Just look at where they go to. As you go further, you will see even more new things. *Second by second*, new things will appear. Although something may appear *temporarily* to be good, it will definitely be destroyed. All of that is called the *pomp* of Maya. You have to understand and imbibe these things very well. You know that Baba has come to create the pure world and destroy the impure world. There is the creation, destruction and sustenance. It is not the law that He causes destruction to take place through Shankar. They

have created that picture simply to show His praise, just as they have created pictures of Hanuman. They also make pictures of Ravan but they don't know what Ravan is. The Father now explains everything so well! We souls accept that we really have become impure. The Father now says: Constantly remember Me alone and you will become pure. You children have to make effort. However, there are plenty of gurus who have very many *followers*. They will not leave them so quickly. You don't have to worry about them; you simply have to show everyone the path to the land of peace. You know the secrets of the cycle. Everyone will return to the section they came from. Each one has to play his own *part*. There is no need to be confused. The Father says: I inspire you children to make effort. It isn't that I can give you this inspiration from up above. To have an inspiration means to have a thought. You children are being given *knowledge*. You are being given the *knowledge* of the pilgrimage of remembrance and the *knowledge* of the cycle. The Father says: Constantly remember Me alone! This is the *real* knowledge for remembrance which only the Father has. The Father is called the Ocean of Knowledge. He says: You call out to Me, "Ocean of Knowledge, come!" So then, to say that I am omnipresent and mix Me with the dust is ignorance. You have caused so much defamation! The destruction of all of this is fixed in the *drama*. The Father says: I am merciful. It isn't that when destruction takes place you will remain suffering in a *hospital* and continue to experience pain; no! Such things have been created that everything will be destroyed within a *second*. You receive liberation-in-life in a *second*, and so destruction too has to take place within a *second* through these weapons they make. Knowledge is also that of a *second*. They manufacture such bombs etc. These matters are unlimited. The moon and the stars etc. are the beautiful lights of this canopy. Day and night are also definitely needed. The new world will definitely be created from the old world. If there were to be as many people there, where would the food for all of them come from? Even the elements have now become tamopradhan. The oceans have been swallowing up so many things and even the *steamers* sink. There continues to be untimely death here. There is no question of sorrow there; the very name is *heaven*. Lakshmi and Narayan were the masters of *heaven*. You are now being given *accurate knowledge*. Previously, you knew nothing, and so what questions could you ask Baba? Baba Himself tells you everything. The Father says: Constantly remember Me alone. Don't *waste time* asking these questions. First of all, make the effort that is essential; remove all the rubbish. Your intellects now understand how you have been around the cycle of 84 births. The *knowledge* of the cycle is in your intellects. You souls must leave your bodies while in remembrance of the Father. You will achieve this stage at the end and then claim a status. While continuing to study you have to be *transferred*. School children are *transferred* from one *class* to the next, and you are *transferred* from the land of death to the land of immortality. You children are certain that you listen to this *knowledge* from Baba every cycle, and so you children should have a lot of happiness. This *episode* of the Gita is being *repeated*. This is the most elevated confluence age. This age is now changing. The changing of the age means to change from degraded to elevated. Our days of sorrow are now over. The Father gives patience to you children: There are only a few more days remaining. After destruction, there will be peace. However, it isn't that all the religions will become one. Everyone has to come down, numberwise, into this tree. Why should all the religions become one? The religion that the Father establishes is one anyway. None of those poor people understand anything. You would be amazed to hear what they talk about! What one religion should there be? At least tell us this much! All of them say whatever comes into their minds. You have now been given the *authority* to ask: What do you mean by one religion? Has there ever been one religion before, that there should be one religion now? There was peace in the world of the golden age. There was no question of sorrow there. The Father says: I have to come to give you knowledge. No one else has the authority to explain all of this. Nor do all of you understand this to the same extent! You are all numberwise in studying as well. You shouldn't have *heart failure* in this! Make effort and *follow* the father; imbibe what the *Teacher* is teaching you. Benevolent children have to benefit others. While living at home with your family, link your intellect's yoga to the one Father. While eating, the image of the beloved would appear to the lover, not for indulging in sin, but because they love one another. Even at work, they would continue to see the image of the one they love. This is how they have a vision. This is something to be understood. The Father is teaching you, but you cannot see Him with those eyes. You cannot see a soul either. You are able to see souls in divine visions, but what benefit is there in seeing them? You cannot claim a status simply by seeing them. This is an education in which the main thing is yoga. It is by studying this that you become pure. It is this that takes effort. God says: Consider yourself to be a soul, and yet you children still forget! The Father knows that all of you will understand numberwise, but He still inspires you to make effort. The Father says:

Children, you belonged to the religion of the pure family path. You have now become impure. I now give you this *ordinance*: Conquer this great enemy of lust, constantly remember Me alone and your sins of innumerable births will be absolved. While your sins have been accumulating, you gradually became vicious. You must not commit any more sin. If you disobey Me, there will be severe punishment. It is said: Anyone who defames the Satguru cannot claim a high status. The Father comes to make you pure, and so why do you want to remain impure? Each one has to come down the ladder. From being satopradhan, you have to go through the stages of sato, rajo and tamo. This world is a tree of thorns and you are to go into the tree that is full of flowers. There is no need to be confused about anything. The Father says: You play *all-round* parts in this *drama*. You do not know your own births. The Father has now explained this to you. Our hearts become so happy listening to Baba. The Father is now teaching us. The Father is incorporeal. We too will become incorporeal and then go to the land of silence. You called out to the Father to come and make you pure and take you home. Just see what My *duty* is! You yourselves called out to Me: Come and make us pure. *Liberate* us from Ravan's kingdom. You must not become influenced by going into the company of others. The main thing is to remember the Father and turn the cycle around in your minds and you will then become the rulers of the globe. Remove all consciousness of your bodies. Even by considering yourselves to be brothers and sisters, there can be *criminal assault*. The Father says: Achcha, consider yourselves to be brothers. You must make such effort that you won't become conscious of name or form. Great effort is needed to do this. Scarcely any are able to do this. How could you become the masters of the world without making some effort? No one would ever have dreamt it, nor that souls who have become as absolutely tamopradhan, sinful and vicious as Ajamil are once again becoming satopradhan! The Father says: Remember Me and your sins will be cut away. He tells you the story of the 84 births of those who were deities. There is no need to be confused. Nevertheless, Maya makes you forget. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

**Essence for dharna:**

1. Do not become confused on seeing any *scene* of the *drama*. Each soul has to play his own *part accurately*. Understand the significance of how the cycle turns and show everyone the path to the land of peace. Become pure and also inspire others to become pure.
2. Don't *waste time* by asking too many questions. Baba Himself tells you everything you need to know. Do not become influenced by any other company, but just continue to obey the Father's orders.

**Blessing:** May you be a destroyer of obstacles who remains stable in the point form and who also reminds others of the point (dot) of the *drama*. Children who never have any *question marks* about anything, who always remain stable in the point form and who remind others of the point of the *drama* are said to be destroyers of obstacles. They make others powerful and take them closer to the destination of success. They do not become happy on seeing the attainment of any limited happiness, but are embodiments of unlimited success. They are constantly stable and stabilised in one elevated stage. With their own stage of success, they are able to transform failure.

**Slogan:** Give blessings and receive blessings and you will quickly become a conqueror of Maya.
