

Essence: Sweet children, you have come to this school to receive a *passport* to heaven. Become soul conscious and have your name *noted* in the *register* and you will go to heaven.

Question: By not having which awareness do some children not have *regard* for the Father?

Answer: Some children don't have the awareness that the One to whom the whole world is calling out, the One whom everyone is remembering, the highest-on-high Father, is the One who is present in serving us. This faith is numberwise. To the extent that you have this faith, accordingly you have that *regard*.

Song: The rain of knowledge is on those who are with the Beloved.

Om shanti. All of you children are with the Ocean of Knowledge. Not all the many children can stay in one place. Those who are with Him can listen to the knowledge *directly* whereas those who live far away receive it a little later. However, it isn't that those who stay with the Father experience greater progress than those who live far away. No, it has been seen in a *practical* way that those who live far away study more and make more progress. It is definite that the unlimited Father is here. You Brahmin children are numberwise. You children have to imbibe divine virtues. Some children make big mistakes. They also understand that the unlimited Father, whom the whole world is remembering, is engaged in serving us and showing us the path to become the most elevated and that He is explaining to us with so much love, and yet they don't give Him that much *regard*. Those in bondage experience so many beatings. They are desperate and yet they still stay in remembrance and take knowledge well. Their status becomes elevated. Baba is not saying this about everyone. It is numberwise according to the effort you make. The Father is cautioning the children. Not everyone can be the same. Those living outside and in bondage are still earning a good income. This song has been composed by those on the path of devotion. However, it is worth extracting the meaning of it for you. What do they know of who the Beloved is and whose Beloved He is? Souls don't even know themselves, so how could they know the Father? He too is a soul, is He not? They don't even know who I am or where I come from. Everyone is body conscious. No one is soul conscious. If they were to become soul conscious, then souls would know their Father. Because of being body conscious, they neither know the soul nor the Supreme Father, the Supreme Soul. The Father sits here and explains to you children personally. This is an unlimited *school*. There is just the one *aim* and *objective*: to attain the sovereignty of heaven. There are different levels of status in heaven. There are the king and queen and there are subjects. The Father says: I have come once again to make you *double* crowned. Not everyone can become *double* crowned. Those who study well understand internally that they can become this. They are *surrendered* and also have faith. You all understand that you must not perform dirty actions. Some have many weaknesses. They do not consider themselves to be the ones who will receive such a high status. This is why they don't make effort. If you ask the Father whether you can become that, He can soon tell you. If you look at yourself, you can understand that you will not be able to attain that high a status. Qualifications are also needed for that. Such things do not exist in the golden and silver ages. There, it is the reward. The kings that come at that time have a lot of love for their subjects. They are like a mother and father. You children know that this is the unlimited Father. He is the One who *registers* the whole world. You also *register* yourselves, do you not? He is giving you a *passport*. You receive a *passport* here to become the masters of heaven. Baba has said that everyone who is worthy of going to heaven should have a *photograph* taken, because you are changing from ordinary humans into deities. You should keep next to it a *photo* of yourself sitting on a throne, wearing a crown. That is what you are becoming. You should keep this *sample* at the exhibition. This is Raja Yoga. For instance, when someone is training to become a *barrister*, they have a photograph of him in *ordinary dress* on one side and a photo of him in the *dress* of a *barrister* on the other side. In the same way, there should be a photo of you in ordinary dress, and a *double-crowned* photo on the other side. You have a picture in which you ask: What do you want to become? Do you want to become a *barrister*, *etc.* or a king of kings? You should have such pictures. *Barristers* and *judges* *etc.* exist here. You are to become kings of kings in the new world. Your *aim* and *objective* is in front of you. This is what you are becoming. The explanation is so good! The pictures should be very good, *full sized*. When pupils are studying to become *barristers* they have yoga with a *barrister* and they become *barristers*. This one's yoga is with the Supreme Father, the Supreme Soul. Therefore, he becomes *double* crowned. The Father explains: You children now have to *act* on this. It is very easy to explain the picture of Lakshmi and Narayan. This is what you are becoming. Therefore, a new world is definitely needed for you. After hell, there will be heaven. This is now the most elevated confluence age. This study makes you so elevated.

There is no need for money etc. in this. You should be interested in studying. There was once someone so poor that he didn't have enough money to study. In spite of that, he made effort and became wealthy and became the *minister* of *Queen Victoria*. You too are so poor at this time. The Father is teaching you such elevated things. Here, you simply have to remember the Father with your intellect. There is no need to switch on lights etc. You can sit anywhere and remember Him. However, Maya is such that she makes you forget the Father. It is only in remembrance that there are obstacles. This is a battle. Souls become pure by remembering the Father. Maya doesn't do anything while you are studying. The intoxication of remembrance is greater than that of the study. This is why ancient yoga has been remembered. It is said: Yoga and knowledge. You receive knowledge to have yoga. You are told the ways to stay in remembrance. There is also the knowledge of the world cycle. No one else knows the Creator or the beginning, the middle or the end of creation. They teach the ancient yoga of Bharat. That which is called "ancient" was the new world. They say that it is hundreds of thousands of years old. They also show many different durations of the cycle. Some say one thing and others say something else. Here, only the one Father is teaching you. Even when you go outside, you will receive pictures. That one is the Businessman. Baba says: You can even print the pictures on cloth. If someone doesn't have a big *screen press*, you can have the pictures printed in two pieces, and then put them together in such a way that the *join* is not visible. The unlimited Father, the Highest Authority, says: If someone has something like this printed, I will glorify his name. If someone were to print these on cloth and take them abroad, he could be given 5,000 to 10,000 rupees for each picture. They have plenty of money there. These can be made. There are such big printing *presses* there that they have such beautiful *scenes* and *scenery* of cities printed. These too can be printed. This is a *first-class* thing. They would say: There is true knowledge in this. No one else could have this knowledge. No one knows this. Anyone who explains has to be clever at speaking *English*. Everyone there understands *English*. They too have to be given the message. According to the *drama*, they are the ones who become instruments for destruction. Baba has told you that both sides have such *bombs* that if they were to come together, they could become the masters of the whole world. However, this *drama* is created in such a way that you claim sovereignty over the world with the power of yoga. No one can become the master of the world with weapons. They have *science* and you have *silence*. Simply remember the Father and the cycle and make others similar to yourself. You children are claiming sovereignty over the world with the power of yoga. They will definitely fight among themselves. You are the ones in between who will receive the butter. They have shown a ball of butter in the mouth of Krishna. There is also the saying: Two were fighting and the third one took the butter and ate it. It truly is like that. You receive the butter of the kingdom of the whole world. Therefore, you should have so much happiness. Oho! Baba, it is Your wonder! This is Your *knowledge*. The explanation is very good. How did those of the original eternal deity religion attain sovereignty over the world? No one has thought about this. At that time, there are no other countries. The Father says: I do not become the master of the world. I make you that. You become the masters of the world by studying. I, the Supreme Soul, am bodiless. Each of you has a body. You are bodily beings. Brahma, Vishnu and Shankar have subtle bodies. Just as each of you is a soul, so I am the Supreme Soul. My birth is divine and unique. No one else can take birth in this way. This is fixed. All of this is fixed in the *drama*. If someone dies, that too is fixed in the *drama*. You receive so much understanding of the *drama*. You understand, numberwise. Some have *dull* intellects. There are three *grades*. Those who receive the last *grade* are said to be *dull*. They themselves understand which ones are in the *first grade* and which ones are in the *second grade*. It is the same among the subjects. The study is the same one. You children know that, after studying, you will become *double* crowned. We were *double* crowned. Then, we became *single* crowned and we now have *no* crown. It is said: You receive the fruit according to the actions you perform. You wouldn't say this in the golden age. Here, if you perform good actions you receive good fruit for one birth. Some perform such actions that they are ill from birth. That too is the suffering of karma. The philosophy of karma, neutral karma and sinful karma has been explained to you children. You receive the good or bad fruit of whatever you do here. When someone becomes wealthy, he must definitely have performed good actions previously. You are now creating your reward for birth after birth. The difference between the wealthy and the poor there depends on the effort everyone makes at this time. That reward is imperishable for 21 births. Here, you only receive something temporarily. You have to continue to perform actions. This is the field of action. The golden age is the field of action of heaven. There are no sinful actions performed there. All of these things have to be imbibed by the intellect. Hardly any of you continue to write these *points* down. Some even become tired of writing their *chart*. You

children should write these *points* down. These *points* are so deep that you won't even be able to remember them; they will slip away. You will then regret that you forgot a particular *point*. Everyone's condition is the same. Many forget and then remember the next day. You children should be concerned about your own progress. Baba knows that hardly any of you write accurately. Baba is also the Businessman. This one was a businessman of perishable jewels. That Businessman is of the jewels of knowledge. Many children *fail* in the subject of yoga. Hardly any of you are able to stay in *accurate* remembrance for an hour or an hour and a half. You have to make effort for eight hours. You children also have to earn an income for your livelihood. Baba has given you the example of that lover and beloved. While each of them is sitting anywhere alone they just remember one another and they appear in front of each other. That too is like a vision. This one remembers that One and that One remembers this one. Here, that One is the Beloved and all of you are lovers. That beautiful Beloved is very beautiful and *ever pure*. The Father says: I am the Traveller, the ever-beautiful One. I also make you beautiful. Deities have *natural beauty*. Here, people have do all sorts of *fashion*. They wear many different types of *dress*. There, they have constant and *natural beauty*. You are going to that world now. The Father says: I enter an old, impure land and an impure body. No one here has a pure body. The Father says: I enter this one's body in the last of his many births and establish the family path. As you make progress, you will continue to become more *serviceable*. You will make effort and then understand. You made such effort previously and are doing so again. You cannot receive anything without making effort. You know that you are making effort to become Narayan from an ordinary human. There was the kingdom of the new world. It doesn't exist now; it will exist later. The *golden age* will definitely come after the *iron age*. The kingdom is being established, exactly as it was in the previous cycle. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Together with *surrendering* yourselves, you also have to have intellects filled with faith. Never perform any dirty actions. Only when no defects remain in you can you receive a good status.
2. In order to do business with the jewels of knowledge, *note* down the good *points* that Baba tells you. Then, remember them and relate them to others. Always be concerned about your own progress.

Blessing: May you be constantly powerful and *pass* the *final paper* by practising spiritual *drill*. At present time, the cure for all illnesses of the body is said to be *exercise*. Similarly, in order to make the soul constantly powerful, you need to practise spiritual *exercise*. No matter how much upheaval there may be in the atmosphere around you, while being amongst that sound, practise being in the stage beyond sound. Stabilise your mind wherever you want, for as long as you want, for only then will you be able to become powerful and *pass* the *final paper*.

Slogan: To surrender your nature, sanskars and actions that are influenced by vices is to surrender yourself.
