

**Essence:** Sweet children, this study is the basis of your going into the future elevated clan. Only through this study can you change from *beggars* to *princes*.

**Question:** In which two ways can you receive a *golden spoon in the mouth*?

**Answer:** One is by giving donations and performing charity on the path of devotion. The other is by studying this knowledge. When you donate something or perform charity on the path of devotion, you take birth to a king or a wealthy person. However, that aspect is limited. By studying this knowledge, you receive a *golden spoon in the mouth*. This aspect is unlimited. You cannot receive a kingdom on the path of devotion by studying. Here, the better someone studies, the higher the status he claims.

Om shanti. The spiritual Father sits here and explains to you sweetest, long-lost and now-found children. This is called spiritual knowledge. The Father comes and tells you children of Bharat to consider yourselves to be souls and to remember the Father. The Father has especially given you this order. Therefore, you should listen to Him, should you not? The shrimat of the highest-on-high Father is very famous. You children know that only Shiv Baba is called Shri Shri. He also makes us shri shri. Shri means elevated. You children now know that it was the Father who made them (Lakshmi and Narayan) become like that. We are now studying for the new world. The new world is called heaven, the land of immortality. Many names are used to praise it. People speak of heaven and hell. They say that so-and-so became a resident of heaven. Therefore, that means he must have been a resident of hell. People have no basic understanding of what heaven is or what hell is, of what the new world is or what the old world is. They understand nothing of that at all. There is so much external splendour. Amongst you children too, only a few understand that it is definitely the Father who is teaching you. You have come here to become Lakshmi or Narayan. We will change from *beggars* to *princes*. First, we will go and become princes. This is a study. When you are studying to become a *barrister*, it remains in your intellect that you will later have a home built, that you will do this and that. Everyone is aware of their duties. You children will go and take birth in elevated families through this study. The more you study, the more elevated the family you take birth in will be. You will take birth to a king and then rule a kingdom. It is remembered: "*Golden spoon in the mouth.*" Firstly, you receive a *golden spoon in the mouth* by studying this knowledge. Secondly, when you donate a great deal and perform a lot of charity, you take birth to a king. However, that aspect is limited. The aspect here is unlimited. Understand everything very clearly. If you can't understand anything, you can ask about it. *Note* down what you have to ask Baba. The main thing is to remember the Father. If you have any doubt, He puts it right. You children know that by donating and performing charity on the path of devotion, you take birth to a wealthy person. When someone does something bad, he takes birth accordingly. Some who come to Baba have such karmic bondages, don't even ask! All of those karmic bondages come from the *past*. Some kings have very severe karmic bondages. Lakshmi and Narayan have no bondage at all. There, creation takes place through the power of yoga. Since we are able to claim the kingdom of the world with the power of yoga, can babies not be born in the same way? They have a vision in advance. That is a *common* thing there. Bands play with a lot of happiness. An elderly person changes into a child. A child is given greater respect than a mahatma (great soul) is because mahatmas grow old whilst *passing* through all the stages of *life*. They know all about vice whereas little children don't know anything about that. This is why they are considered to be greater than mahatmas. There, (in the golden age) all are mahatmas. Even Krishna is said to be a great soul; he is a real mahatma. Only in the golden age are there great souls. There cannot be anyone like them here. You children should experience a lot of happiness inside because you are now going to take birth in the new world. This old world is to be destroyed. When a home becomes old, you become happy knowing that you are moving to a new one. Such beautiful homes of *marble* etc. are built. The Jains have a lot of money. They consider themselves to be of a very high clan. In fact, there are no high clans here. When looking for a marriage partner, they look for a high clan. There, there is no question of clans, etc. There, there is just the deity clan and no other clans. For this, at the confluence age, you practise: We are all souls, children of the one Father. *Firstly*, there is the soul and then there is the body. Everyone in the world is body conscious. You now have to become soul conscious. Whilst living at home with your families, you have to make your stage powerful. Baba has so many children and such a big household. He must have so many concerns. This one too has to make effort. I am not a sannyasi. The Father has entered this one. There are the images of Brahma, Vishnu and Shankar and Brahma is the most elevated of them. So, if you put him aside, who else would the Father enter? Brahma is not newly born. You can see how he is *adopted* and how you become Brahmins. Only you know these things. What would

others know? They say: Once he was a jeweller and now you call him Brahma! Do such people understand how so many Brahmins have been created? You have to explain each aspect very clearly. All of these things are very deep matters. This Brahma is corporeal (vyakt) and that one (in the subtle region) is subtle (avyakt). This Brahma becomes pure and then becomes that avyakt one. This one says: I am not pure at this time. I am becoming as pure as that one. Prajapita (the Father of the People) has to exist here. Where else would he come from? The Father Himself explains: I enter an impure body. Surely, this one would be called Prajapita. The one in the subtle region would not be called that. What would people do there? This one becomes pure *independently*. Just as this one is making effort, so you too have to make your own *independent* efforts and become pure. You are becoming the masters of the world. Heaven and hell are totally separate. Everything is now divided into pieces. It is a matter of 5000 years ago when it used to be your kingdom. However, those people speak of hundreds of thousands of years. Only those who understood these things a cycle ago will understand them now. You see all types of people – Muslims, Parsis, etc. – coming here. They may be Muslims, but they would then give this knowledge to Hindus. It is a *wonder!* For instance, someone who belongs to the Sikh religion teaches Raja Yoga. Those who have been *converted* will then be *transferred* back into the deity clan. The *sapling* is being planted. *Christians* and Parsis come to you. Buddhists will also come. You children know that when the time comes close, your name will be glorified everywhere. Many will come to you through just one lecture. They will all be reminded that this is their true religion. Those who belong to our religion will definitely come here. It is not a matter of hundreds of thousands of years. The Father sits here and explains: Yesterday, you belonged to the deity clan. You are now claiming your inheritance from the Father in order to become deities once again. You are the true Pandavas. Pandavas are guides. Those guides are physical. You Brahmins are spiritual guides. You are now studying with the unlimited Father. You should have such great intoxication about this. We are going to the Father from whom we receive our unlimited inheritance. That Father is also our *Teacher*. There is no need for *tables* and chairs here. All the notes you write are only for your own effort. In fact, all of this is a matter of understanding. Shiv Baba does not write with a pen etc. He picks up a *pencil* to write to you. You then understand that the letter in red writing has come to you from Shiv Baba. The Father writes: Spiritual children! You children also understand that that is your spiritual Father. He is the Highest on High. You have to follow His directions. The Father says: Lust is your greatest enemy. It causes sorrow from the time it starts through the middle to the end. Do not be influenced by that evil spirit. Become pure! People call out: Oh Purifier! You children receive great strength in order to rule so that no one can conquer you. You become so happy! Therefore, you should pay a great deal of *attention* to this study. We are receiving our kingdom. You know into what you are changing from what you were. The versions of God say, “I teach you Raja Yoga and make you into a king of kings.” No one knows who God is. Souls call out: Oh Baba! Therefore, they should know how and when He comes. Only human beings would know the beginning, middle and end of the *drama* and its *duration*. By knowing this, you become deities. Knowledge is for receiving salvation. It is now the end of the iron age. Everyone is in a state of degradation. In the golden age, there is salvation. You now know that Baba has come to grant everyone salvation. He has come to awaken everyone. This is not a graveyard, but everyone is in extreme darkness. Therefore, He comes to awaken them. The children who awaken from their deep slumber experience a great deal of happiness knowing that they are the children of Shiv Baba and that they have no worries of any kind. The Father is making us into the masters of the world where there is no mention of crying. This is the world of crying. That is the world of cheerfulness. Look how beautiful and cheerful their faces are in the pictures! Their *features* cannot be created identically here. Your intellects can understand that their *features* must be something like that. You sweetest children now remember that you are becoming the future *princes* of the land of immortality. This land of death, this haystack, has to be set on fire. In a *civil war*, they continue to kill one another without even realising whom they are killing. After the cries of distress, there will be cries of victory. There will be victory for you and everyone else will be destroyed. You will be threaded in the rosary of Rudra and then in the rosary of Vishnu. You are now making effort to return home. Devotion has spread so much. Devotion has spread like a tree with so many leaves. The seed is knowledge. The seed is so tiny. The Seed is Baba. You now know how this tree grows, how it is sustained and how it is destroyed. This is the inverted tree of the *variety* of religions. Not a single person in the world knows this. You children now have to make a lot of effort to remember the Father so that your sins can be absolved. The people who recite the Gita also say: Manmanabhav! Renounce all bodily religions, consider yourself to be a soul and remember the Father! However, no one understands the real meaning of that. That is the path of

devotion. This is the path of knowledge. A kingdom is being established. There is nothing to worry about. Those who have heard a little knowledge will become part of the subjects. Knowledge can never be destroyed. Those who know this accurately and make effort will claim a high status. Your intellects understand that we are going to become the *princes* of the new world. When *students pass* their examinations, they become so happy. You should experience a thousand-fold greater supersensuous joy. You are becoming the masters of the whole world. You must never sulk in any situation. If you are unable to get on with your Brahmin teacher, you then sulk with the Father. Instead of doing that, connect your intellect's yoga to the Father. Remember Him with a lot of love. Baba, I will continue to remember You and return home. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

**Essence for dharna:**

1. Don't worry about anything. Always remain cheerful. Always remain aware that you are Shiv Baba's children and that the Father has come to make you into the masters of the world.
2. In order to make your stage constant, make effort to become soul conscious. Remove all your attachment from this old home.

**Blessing:** May you be a true server who accomplishes the task of world transformation by doing fast service.

In order to do fast service, there has to be collectively the *balance* of being both "rup" and "basant". By being the form of "basant" you carry out the task of giving the message to many souls at the same time. Similarly, by being the form of "rup", that is, with the power of remembrance and the power of elevated thoughts, do *service* at a fast speed. Create an *invention* for this. Together with this, collectively sacrifice with determination the sesame seeds and grains of old past sanskars, nature and way of behaving for only then will the task of world transformation be completed, that is, only then will the sacrificial fire be completed.

**Slogan:** With the *balance* of being a master and a child, put *plans* into their *practical form*.
