

**Essence:** Sweet children, you have now received the third eye of knowledge. Therefore, your vision should no longer be drawn to anything.

**Question:** What are the signs of those who have unlimited disinterest in the old world?

**Answer:** They offer everything they have to the Father. They consider nothing to belong to them. They say: Baba even this body doesn't belong to me. This is an old body and I have to discard it. Their attachment to everything continues to break and they destroy all attachment. It remains in their intellects that everything of this world is limited and of no use.

Om shanti. The Father gives you children the knowledge of Brahmand (element of light) and the beginning, middle and end of the world, which no one else can give. Only the Gita mentions Raja Yoga and that God comes and changes ordinary humans into Narayan. This is not mentioned in any scripture other than the Gita. The Father had told you this. He says: I taught you Raja Yoga. I also explained that this knowledge does not continue from time immemorial. The Father comes and establishes the one religion and then all the other religions are destroyed. None of the scriptures etc. continue from time immemorial. Destruction does not take place when the founders of religions come to establish their religions, otherwise everything would then come to an end. Those on the path of devotion continue to study the scriptures. Although the scripture of the Brahmin religion is the Gita, that too is created on the path of devotion because no scriptures remain in the golden age. Destruction does not take place when other religions come into existence. The old world is not destroyed at that time so that the new one can be created; the same world continues. You children understand that this old world is now to be destroyed. The Father is teaching us. It is only the Gita that is praised. The birth of the Gita is also celebrated. There is no celebration for the birth of the Vedas. There is only one God. Therefore, they should only celebrate the birth of the One. The rest is creation and nothing can be attained from that. It is only from the Father that you receive the inheritance. An inheritance is not received from a maternal or paternal uncle etc. That One is your unlimited Father, the One who gives you unlimited knowledge. He does not relate any scriptures to you. He says: All of that belongs to the path of devotion. I tell you the essence of all the scriptures. The scriptures are not a study. One receives a status through a study. The Father is teaching you children this study. God speaks to you children now, and this will then repeat again in the same way after 5000 years. You children have come to know the Creator and the beginning, middle and end of creation from the Father. No one but the Father can explain all of this to you. He speaks to you through this lotus mouth. This is the mouth that God has taken on *loan*. It is also called "Gaumukh" (cow's mouth). This one is also the senior mother. *Versions* of knowledge, not water etc., emerge from his mouth. On the path of devotion, water is shown emerging from a Gaumukh. You children now understand what they do on the path of devotion. They travel so far to a Gaumukh to drink that water. You are now changing from ordinary humans into deities. You know that the Father comes every cycle to teach you in order to change you from ordinary humans into deities. You can see how He is teaching you. You tell everyone that God is teaching you. He says: Constantly remember Me alone and your sins will be absolved. You know that there are very few human beings in the golden age. There are so many human beings in the iron age. The Father comes and establishes the original eternal deity religion. We are becoming deities from ordinary humans. Divine virtues will be visible in the children who are becoming deities from human beings. They will not have the slightest trace of anger in them. If, by chance, they become angry, they would immediately write to the Father: Baba, I made this mistake today. I became angry and committed a sin. How much *connection* do you have with the Father? "Baba, forgive me." The Father would say: There can't be forgiveness, but do not make the same mistake again. A *teacher* doesn't forgive you. He would show you the *register* and explain that your *manners* are not good. The unlimited Father also says: You can see your own *manners*. Look at your chart every day and ask yourself: Did I cause anyone sorrow today? Did I upset anyone today? It takes *time* to imbibe divine virtues. It is with great difficulty that body consciousness breaks. Only when you consider yourself to be bodiless can there be *love* for the Father. Otherwise, the intellect is caught up with the karmic accounts of the body. The Father says: You do have to perform actions for the livelihood of your body, but you can make *time* for this. People make *time* to do devotion. Meera would only stay in remembrance of Krishna, but she had to continue to take rebirth here. You children now have disinterest in this old world. You know that you are not going to take rebirth in this old world. This world is to be destroyed. All of these aspects are in your intellects. Just as Baba has this knowledge, so you children too have this knowledge. The knowledge of the world cycle is not in the intellect of anyone else. The children who are able to keep this knowledge in their intellects are also numberwise. The highest-on-high Father is the Purifier and He is teaching us. Only you

know this. The cycle of 84 births is in your intellect. You are now aware that this is your final birth in hell. This is called the extreme depths of hell. There is a great deal of dirt everywhere. This is why sannyasis leave their homes and families. That is a physical aspect. You discard everything from your intellects because you know that you now have to return home. You have to forget everyone. This dirty old world is already dead for you. When your house has become old and a new one is being built, it enters your heart that that house will be demolished. Your children are now studying. You know that the new world is being established. Just a short time remains. Many children will come and study here. Your new house is being built and the old one will continue to be demolished. Very few days remain. These unlimited aspects are in your intellects. Your hearts are no longer attached to this old world. None of this is going to be useful at the end. We now want to go away from here. The Father says: Do not attach your hearts to this old world. Remember Me, your Father, and remember your home and your sins will be absolved. Otherwise, you will experience a great deal of punishment and your status will also be destroyed. You souls know that you have gone through 84 births and so you are now concerned with having to remember the Father so that your sins can be absolved. Follow the Father's directions; only then can you make your life elevated. The Father is the Highest on High. Only you know this. The Father reminds you of this very well. That unlimited Father is the Ocean of Knowledge. He comes here to teach us. The Father says: Do everything you have to do for your livelihoods but also study this study and remain *trustees*. The children who have unlimited disinterest in the old world will offer everything they have to the Father. Nothing belongs to us. Baba, even this body doesn't belong to me. This is an old body; it has to be renounced. Attachment to everything is breaking. You have to become conquerors of attachment. This is unlimited disinterest, whereas the other disinterest is limited. It is in your intellects that you will go to heaven and create your own palaces. Nothing of this world will be useful there because everything here is limited. You are now coming out of the limited and going into the unlimited. Only this unlimited knowledge should remain in your intellects. Your vision is no longer drawn to anything here. We now have to return home. The Father comes every cycle to teach us and then takes us back home with Him. This is not a new study for you. You know that you study this every cycle. You are all numberwise. There are so many human beings in the whole world. However, only a few of you know this. This tree of Brahmins continues to grow gradually. According to the *drama plan*, establishment has to take place. You children know that this is your spiritual *government*. We are able to see the new world through divine vision. We have to go there. God is only One. He is the One who teaches us. The Father taught us Raja Yoga. Then, the war took place and there was establishment of the one religion and destruction of many religions. You are the same ones. You have been studying for cycle after cycle and claiming your inheritance. All of you have to make your own efforts. This study of yours is unlimited. No human being can give you these teachings. The Father has also explained the secrets of Shyam and Sundar. You understand that you are now becoming beautiful and that, previously, you were ugly. It was not only Krishna who was this; there was the whole kingdom. You now understand that you are becoming residents of heaven from residents of hell. You now dislike this hell. You have come to the most auspicious confluence age. So many come here, but only those who emerged in the previous cycle will emerge again. Remember the confluence age very well. We are becoming the most elevated; we are becoming deities from ordinary humans. People don't even understand what hell is or what heaven is. They say that everything exists together here, that those who are happy are in heaven and that those who are unhappy are in hell. There are many opinions. There are many opinions in the one home. The strings of attachment of some to their children don't break. Due to their attachment, they don't understand how they are living. They ask: Should I allow my son to get married? However, this discipline has been explained to you children. On the one hand, you are taking *knowledge* to become a resident of heaven. On the other hand, you ask if you should send him to hell! Since you ask, Baba says: Go ahead and let him do it. Because you ask Baba this, Baba understands that you have attachment to the child. Even if Baba were to say "No", there would be disobedience. Daughters have to be married. Otherwise, they may be ruined by keeping bad company. Sons don't have to get married. However, you do need courage for this. Baba demonstrated that through this one. When others saw this one, they started to do the same. There was a great deal of quarrelling in their homes. This is the world of fighting and quarrelling; it is a *jungle* of thorns. People continue to hurt one another. Heaven is called a *garden*. This is a *jungle*. The Father comes and changes you from thorns into flowers. Scarcely a few emerge. Although they say "Yes" to everything you say at the exhibitions, they understand nothing at all; it goes in one ear and out of the other. It takes *time* to establish a kingdom. Human beings don't consider themselves to be thorns. Although they have the

features of human beings, their characters are worse than those of monkeys. However, they don't consider themselves to be like that. Therefore, the Father says: Explain to your creation. If they don't understand anything, make them leave. However, you need strength to do that. The insects of attachment have attached themselves so much that they cannot be removed. Here, you have to become destroyers of attachment. Mine is One and none other. The Father has now come to take us back home. You have to become pure. Otherwise, there will be a great deal of punishment and your status will be destroyed. Your only concern should now be to make yourselves satopradhan. Go and explain at the temples to Shiva: God made the people of Bharat into the masters of heaven, and He is doing that once again. He says: Simply remember Me alone. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

**Essence for dharna:**

1. Have unlimited disinterest in this old world and offer everything you have to the Father. Nothing belongs to me. Even this body doesn't belong to me. Break your attachment to it and become a destroyer of attachment.
2. Never make a mistake through which your *register* would become marked. Imbibe all the divine virtues. There should not be the slightest trace of anger in you.

**Blessing:** May you become a perfect angel by *following* sakar Baba and claiming *number one*. The easy way to claim *number one* is to look at the *one* Father Brahma who is *number one*. Instead of looking at many others, look at one and *follow* the one. Make the mantra of "I am an angel" (hum so farishta) firm and any difference will finish. The instruments of *science* will then begin their work and you perfect angels will become deities and incarnate in the new world. So, to become a perfect angel means to *follow* sakar Baba.

**Slogan:** The butter that you extract in the form of happiness when you churn knowledge makes your life powerful.
