

Essence: Sweet children, say "Baba, Baba" from your hearts and you will have goosepimples of happiness. Stay in happiness and you will become conquerors of Maya.

Question: What one aspect, which is the basis of happiness and remembrance, do children find to be hard work?

Answer: It takes effort to become soul conscious, but it is by becoming this that your mercury of happiness rises and you remember sweet Baba. Maya continues to make you body conscious. Maya becomes powerful with powerful ones and fights them. However, you mustn't be confused by this. Baba says: Children, don't be afraid of the storms of Maya. Just don't perform any sinful actions with your physical senses.

Om shanti. The spiritual Father explains to you spiritual children, that is, He gives you teachings and educates you. You children know that the Father who is teaching you is always soul conscious. He is incorporeal. He doesn't take a body. He doesn't come into rebirth. The Father explains: You children have to consider yourselves to be souls as I am. I am the Supreme Father. The Supreme Soul doesn't have a body. You cannot say that He is soul conscious; He is incorporeal. The Father says: I do not have a body of My own. You have been continuously receiving bodies. Now, become like Me, detached from the body, and consider yourself to be a soul. If you want to become a master of the world, there is nothing more *difficult* than that. The Father says: Renounce body consciousness and become like Me. Always keep it in your intellects that you are souls and that Baba is teaching us. The Father is incorporeal, so how would He teach us? This is why Baba comes and teaches us through this body. They show Gaumukh (cow's mouth). Now, how could the Ganges emerge from the mouth of a cow? Mothers are also called mother cows. You are all cows. This one (Brahma Baba) isn't a cow. You receive knowledge through the mouth. The Father doesn't have a cow; they show Him riding a bull. They also say: Shiva and Shankar are one. You children now understand that Shiva and Shankar are not the same. Shiva is the Highest on High; then there are Brahma, Vishnu and Shankar. That Brahma is a resident of the subtle region. You children have to churn the ocean of knowledge and extract *points* to explain and you also have to become fearless. Only you children have happiness. You say: We are *students* of God; Baba is teaching us. God speaks: O children, I teach you in order to make you into kings of kings. No matter where you go, to the *centres* or anywhere else, it is in your intellects that Baba is teaching you. Whatever you listen to at a *centre* is the murli spoken by Baba. Continue to say "Baba, Baba". This is also your pilgrimage. The word "yoga" is not very suitable. Human beings go on foot to pilgrimage places like Amarnath and Badrinath. You children now have to go back to your home. You know that this unlimited play is now coming to an end. Baba has come to make us worthy and to take us back. You yourselves say: We are impure. Impure beings cannot attain liberation. The Father says: O souls, you have become impure. They consider their bodies to be impure and go and bathe in the Ganges. They say that the soul is immune to the effect of action. The Father explains: The main thing is the soul. It is said: Charitable soul and sinful soul. Remember these words very well. You have to understand this yourself and then make others understand. It is you who have to give lectures. The Father is not going to go from village to village and street to street. You should have these pictures in every home. How does the cycle of 84 births turn? It is very *clear* in the picture of the ladder. The Father says: Now become satopradhan. You have to go back home and you cannot go back without becoming pure. You should just have this one concern. Many children write to Baba: So many storms of Maya come to us. Very dirty thoughts come into our minds. They did not come before. The Father says: Don't worry about it. Previously, you were not on a battlefield. You now have to stay in remembrance of the Father and gain victory over Maya. Remember this again and again. Tie a knot, just as mothers tie a knot and men write it in their *notebooks*. This *badge* of yours is a good symbol. We are becoming *princes*. This is the *Godly university* to change from a *beggar* to a *prince*. You were a *prince*, were you not? Shri Krishna was the *prince* of the *world*, just as in England there is the *Prince of Wales*. That is a limited aspect. Radhe and Krishna are very famous. Because they were the *prince* and *princess* of heaven, everyone loves them. Shri Krishna is loved a great deal. Both of them should be loved. It should first be Radhe, but it is the male child who is loved more because he becomes the heir. A wife has love for her husband. It is of the husband that they say: He is your guru and your god. This is not said of the wife. In the golden age, the mothers are praised. First it is Lakshmi and then Narayan. There is so much *regard* for the goddess Amba; she is the daughter of Brahma. There is not as much regard for Brahma. There is a temple to Brahma in Ajmer where melas take place. There are also melas in the temples to Amba. In fact, all of those melas are to make you dirty (mehla). This mela of yours is to make you clean. In order to become clean, you have to remember

the clean (pure) Father. You cannot have your sins absolved with water. The word of God, “Manmanabhav”, is mentioned in the Gita. It is mentioned at the beginning as well as at the end. You children know that it was we who started to perform worship. There is satopradhan devotion, then sato, rajo and then tamo devotion. Look, they now even worship mud and stones! All of that is blind faith. At this time, you are sitting at the confluence. This is the inverted tree: the Seed is at the top. The Father says: I am the Creator and Seed of this human world tree. I am now establishing the new world. The *sapling* is being planted. Old leaves of a tree fall off and new leaves start to appear. The Father is now establishing the original, eternal, deity religion. There are many leaves who have become *mixed* (converted). They call themselves Hindus. In reality, Hindus belong to the original, eternal, deity religion. The original name of Hindustan is Bharat where the deities used to live. No other country’s name is changed, but they have changed this country’s name. They call it Hindustan. Buddhists do not say that their religion is Japanese or Chinese. They call their religion Buddhism. Here, too, none of them consider themselves to be part of the original, eternal, deity religion. If someone says that he is part of that religion, ask him: When was that religion established and who established it? He will not be able to tell you anything. The duration of the cycle has been elongated. That is said to be the darkness of ignorance. Firstly, they do not know about their religion. Secondly, the kingdom of Lakshmi and Narayan has been placed far away. That is why it is said to be extreme darkness. There is so much difference between knowledge and ignorance. The Ocean of Knowledge is Shiv Baba alone. It is just like giving an urn of water; just to tell someone to remember Shiv Baba and his sins will be absolved is just like offering a handful of water. Some bathe in it (Ganges), and some take a pot of water. Some take small urns and some take even smaller urns. They pour a drop of water into a pot and consider it to be the water of knowledge and drink it. Vaishnavs also take this water of the Ganges in a container when they go abroad and they keep asking for more to be sent to them. Now, all of that water comes from the mountains. Water also falls from above. These days, buildings are built with 100 floors. It will not be like that in the golden age. There, you will have so much land, don’t even ask! Here, land is scarce and that is why they have to build so many floors. There, there is an abundance of grain as well. In America, when there is an abundance of grain, they have to burn it. This is the land of death. That is the land of immortality. For half the cycle, you remain happy there. Death cannot force itself in there. There is a story about this. These are unlimited aspects. From these unlimited aspects they have made up limited stories. Originally, the Granth was so small. It has now been made so big. Shiv Baba is so tiny and yet they have made such a big symbol of Him. Images of Buddha and the Pandavas have been made very large. There is no one like that. You children should keep a picture of the *aim* and *objective* in every house. We are becoming this by studying. Why then should you cry? Those who cry lose out. You become body conscious. You children have to become soul conscious; it is this that requires effort. Only by becoming soul conscious does the mercury of your happiness rise and sweet Baba is remembered. We are claiming our inheritance of heaven from Baba. Baba comes in this Lucky Chariot to teach us. Remember Baba day and night. You are lovers for half the cycle. Devotees remember God. There are many devotees. Everyone in knowledge remembers the one Father; He is the Father of all. You should have goosepimples that the Father, the Ocean of Knowledge, is teaching us. Storms of Maya will definitely come. Baba says: I have to face the maximum storms as I am in the forefront. Because storms come to me, I can understand how many storms must come to the children; how confused you must be. Many types of storm come, even those which you never had in your days of ignorance. These storms first have to come to me. Otherwise, how would I be able to explain them to you children? This one is in the *front*. He is powerful and hence Maya also fights back in a powerful way. In wrestling, not all are the same. There is the *first, second* and *third grades*. Baba has the maximum number of storms and this is why he says: Do not be afraid of these storms. Just do not perform any sinful actions through your physical senses. Some say: Why do such things happen after we have come into knowledge? It would have been better instead had we not taken knowledge; we then wouldn't have had such thoughts. However, this is a war. Even when you are in front of a woman you should have pure vision. Understand that, as Shiv Baba's children, you are brothers and then, as the children of Prajapita Brahma, you become brothers and sisters. So, where do the vices come from? Brahmins are the topknot who become deities and you are therefore brothers and sisters. Since both are children of one father (Brahma), if they do not stay as a kumar and kumari, there will be fights. Innocent ones are assaulted. Men also write: My wife is like Putna (female devil). There is a lot of effort involved. Young ones have to make a lot of effort. Those who live together in a pure marriage – this is a wonder!

They can attain a very high status. However, that can only happen when they adopt such a stage and become clever in knowledge. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Do not become afraid or confused because of the storms of Maya. Just pay attention to not performing sinful actions with your physical senses. Maintain the happiness that Baba, the Ocean of Knowledge, is teaching us.
2. In order to become satopradhan, make effort to become soul conscious. Churn the ocean of knowledge and remain on the pilgrimage of remembrance.

Blessing: May you be a jewel of contentment who becomes an embodiment of success in service with the speciality of contentment.

The special virtue for service is contentment. While doing service, if you become *disturbed* yourself or you *disturb* others, it would be better not to do such service. Where there isn't contentment with the self or with those in contact with you, that service will neither give you any fruit nor any fruit to others. Therefore, first of all, be one who stays in solitude, attain the blessing of being a jewel of contentment through self-transformation and then come on to the field of service and you will become an embodiment of success.

Slogan: Do not waste your time in breaking stones of obstacles but take a *high jump* and overcome them.
