

**Essence:** Sweet children, each actor, each soul, plays a part of happiness for half the time and sorrow for the other half. This is God's *law*.

**Question:** When will the explanation that the Father gives sit in the intellects of you children accurately?

**Answer:** When your intellects become clean and pure. The more effort you make and the more the alloy is removed, the more the explanation given by the Father will sit in your intellects. As yet, you children have scarcely reached the sato stage. Each one's effort is individual. Some are sato and others are still tamo. However, you have to become satopradhan.

**Song:** The Resident of the faraway land has come to the foreign land.

Om shanti. When you children explain at the fairs and exhibitions, you definitely have to explain the things that are worth explaining. In that, you must definitely explain that all are *brothers* and that the unlimited Father of all *brothers* (souls) is just the One. You also have to ask them what the original eternal deity religion of Bharat is. They believe the Hindu religion to be the original eternal religion. The Islamists, the Buddhists and the Christians know who established their religions and when they were established. Is Hinduism or is the deity religion the religion of the people of Bharat? Who established it and when was it established? The people of Bharat do not know this at all. It is very essential to explain these matters. No one pays any attention to these things at all. Bharat is remembered as an ancient land. However, they don't know that their religion is the original eternal deity religion. Hinduism is not a religion. You children now understand that the deity religion existed 5000 years ago. At that time, Lakshmi and Narayan truly ruled the kingdom. They did not call themselves Hindus. OK, there has to be a period of the Hindu religion. When they speak of the period of King Vikram, it is possible that that is from the time that the deities go onto the path of sin and that it is from that time that they call themselves Hindus. So, it is half and half. They cannot be called the original eternal deities at that time. The period of a religion begins from when it is established. Who established it? Ravan established the period of Vikram (sin). At this time, everyone's actions are sinful. There are the terms: actions, neutral actions and sinful actions. So there is also the period of King Vikram, and that lasts for half the cycle. However, this period of Vikram is not the period of Hindus. You should ask: When was the original eternal deity religion of Bharat established? They should know about this. These are very delicate matters. Only when they know these things can they account for a new world. There is definitely day and night; it would definitely be half and half. This is one of God's *laws* and it definitely has to be explained. No one has given Baba such news yet. Christians too will have a *part* of half happiness and half sorrow. The entire *history* and *geography* is included in everything we explain to you. All the human beings that come here have received a *part* of happiness and sorrow. Even if they come here for one or two births, it would still be half and half. This is God's *law*. When people hear this at the exhibitions they say that it is very good, but, as soon as they go outside, they forget. Hardly anyone pays attention. Some come for a month and then vanish. Some come and understand for 10 minutes, others come for an hour and some come for longer but then, while moving along, they become tired. Such things continue to happen at the *centres*. Look how they are becoming part of the deity community! It is a *wonder* how the religion of the new world is being established in the old world. These things are in the intellects of you children. You now learn about your 84 births from the Father. The Father says: I come to tell you the story of 84 births. So, He would definitely have to come at the end to tell you this. He could not tell it in the middle of the copper age because those who come at the end would not yet have taken birth. You cannot receive the knowledge of Raja Yoga in the copper age. The Mahabharat War cannot take place in the copper age. Only after the Mahabharat War is the golden age, that is, the deity religion, established. Before that, the Brahmin religion is established and so that must surely be established through Brahma; that is when Brahmins take birth. The variety-form image neither shows the image of Shiva nor the topknot of Brahmins. In the exhibitions it is essential to have a picture of the variety-form image. Brahmins would definitely be created first through Brahma. Where and when are those brahmins created? The confluence age is that of Brahmins and the iron age is that of shudras. You now call yourselves Prajapita Brahma Kumars and Kumaris. Praja means the human world and so there must definitely be Brahmins. Christ is said to be the Father of Christianity. This one is the Father of Humanity. God creates the human world through Brahma. It isn't that He creates it through Christ or Buddha. The human world begins with Brahma. First of all, He would definitely create Brahmins. Brahmins are then made into deities. The variety-form image is only shown in Bharat. Those of other religions cannot create the variety-form image. Only the Father explains these new things. New *points* as well as old ones continue to emerge, because new children still have to receive old *points* as well as new points so that they can understand. What else would

they be able to understand until they have Alpha and beta in their intellects? You know that it is very easy to explain Alpha and beta to anyone. The Father of all is One and He definitely comes. The birthday of Shiva is only celebrated in Bharat. However, the people of Bharat don't know what the birthday of Shiva is. They do not know about Brahma, Vishnu or Shankar nor do they know about Shri Krishna. They don't even know when it was the kingdom of Shri Lakshmi and Narayan. Christ existed in the past and has now gone, but there must be a *list* of all the Popes. However, the people of Bharat don't know that Lakshmi and Narayan ruled the kingdom in Bharat. Those people don't know at all the *occupation* of the images that are created and worshipped. How did the warriors claim the kingdom from the deities? Did they battle? When a kingdom changes hands, someone must definitely have gained victory. It isn't like that there. They pass on the kingdom in a very good manner. People are in such darkness, whereas you have received so much enlightenment. It isn't that everyone remembers everything. You should explain at the exhibitions everything that Baba has explained to you. People come to the exhibitions one day and then don't turn up the next day. You can't tell whether they understand anything or not. You should get them to write down their *opinions* about how they previously didn't know anything at all about where the deity religion went. Tell us the year when the Hindu religion began! No one knows what anyone says; someone should record their *opinions*. Prove to them that this cycle is 5000 years and tell them to write that down. No one knows about the different periods. Have you heard these things in the scriptures? Then, where did we learn them from? So, it must definitely be God who teaches us these things. No one, apart from God, can explain to us. He definitely enters someone's body. God is the Ocean of Knowledge. The Supreme Father, the Supreme Soul, carries out establishment through Brahma. He gives you the *knowledge* of the beginning, the middle and the end. His name is Shiva. On the path of devotion, they have given Him many names. There must be a minimum of one hundred and fifty thousand names in all the different languages. Baba explains so much to you children every day, but your intellects have not yet become sufficiently clean and pure. If you continue to make effort, the alloy will be removed. Up to now, you children have scarcely reached the sato stage. There are some who are still tamo. Satopradhan, sato, rajo and tamo; those too are numberwise. Each one of you continues to make your own individual effort. At this time of destruction, human beings have non-loving intellects. Only the Pandavas had loving intellects and they were victorious. There are devils and deities, but both are human beings. It isn't that devils are those with fearsome features. They simply wear that kind of *dress* in order to protect themselves from *gas* and explosions in battle. They are the devilish community and you are the community of Rama because you have renounced the five vices. You will become pure and rule over the whole world. You don't battle with anyone. Baba explains so many things to you. Some come for a month or two and then become tired. It is then explained that it is not in their fortune; they will become ordinary subjects. There will be many subjects created. Look how many people there are now! In some places, because of a shortage of food, people starve to death. In other places, because of no rain, there is drought. What can the *Government* do about that? These are all *natural calamities*. There will now also be torrential rainfall. Destruction has to take place. The visions you have had will take a *practical* form. In a vision you would see Krishna's palace; you would not be able to see all of them. OK, you will see that, and then destruction will take place; you will shed your bodies and forget everything. The whole world is going to be destroyed. The world will then change; you will forget everything. You now have all the *knowledge* from the beginning to the end. The Father has given you all the *knowledge* of how the cycle turns and of the incorporeal world and the subtle region. The more knowledge someone has, the higher his intoxication. We have now become *master knowledge-full*. Then, when destruction takes place, our bodies will be destroyed. The *knowledge* only lasts for this birth. Therefore, your intellects should have so much intoxication that you are to shed your bodies and become *princes* and *princesses*. Human beings study and then go and earn an income. The Father says: I do not earn an income. I teach you and then take you back home. You earn an income and then lose it. You have all the knowledge of the beginning, the middle and the end. Baba also has this knowledge and He sits here and explains according to His *part*. Then Baba goes away to the land of nirvana. All souls will also go back home. Then, whoever has that *part* will go into the kingdom, and for the remaining *time* those souls will stay in the land of peace. You children are receiving so much knowledge in order to claim a high status. This cannot sit in the intellect of anyone new. They just say that this knowledge is very good but they then become engaged in their business again. As soon as they go out, Maya makes them forget it and puts locks on them. This becomes the state of many children; they are unable to imbibe fully. When someone comes in, tell him: These are all Brahma Kumars and Kumaris. Shiv Baba is establishing the land of Vishnu

through Brahma. It is now the end of the iron age and it will then be the golden age. All the children of Brahma are Brahma Kumars who will then become deities. If Baba receives *service* news, Baba will then also give advice. However, no one gives Baba full news. Many have bad omens over them. One minute, they are *first-class* and then, the next day, they become *third-class*. If they didn't have bad omens, how could there be those who were amazed by the knowledge and who then ran away? The children who go and do very good *service* at the exhibitions use their time in a worthwhile way. You should never leave BapDada. Baba may say something to you children and would then instantly give you a lot of love. Baba doesn't hold anything in His heart against you children. He only teaches you in order to give you guidance. Toli is given here to you children because He is the unlimited Father. When a physical father is going home from the market, he would definitely remember his children and take one or another toli for them. Out there, in the centres, you don't receive toli. Here, the Father is sitting personally in front of you children. Baba explains everything to you children. The rishis and munis were satopradhan in the copper age. They didn't have locks on their intellects. They also used to say that they neither knew the Creator nor creation. Today, in the iron age, everyone's intellect has a lock on it, and so how can they know anything? Even the rishis and munis used to study the scriptures. You receive many *points* for explaining to others. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for dharna:**

1. Maintain the happiness and intoxication that God is teaching you and making you into gods and goddesses. Keep the knowledge of the Creator and creation in your intellects and relate it to others.
2. Just as the Father doesn't hold anything against any child in His heart, so too, you too mustn't hold anything against anyone else.

**Blessing:** May you be constantly victorious and successful in every task by keeping the three aspects of time in front of you.

In a worldly way, those who are sensible take every step carefully and consider the past and the future of everything. In the same way, before you children perform any task here, first keep the three aspects of time in front of you. Have unlimited understanding and perform every task and speak every word on the basis of you having the faith of being victorious and of being trikaladarshi; you will then be said to be alokik and extraordinary.

**Slogan:** Leave the limited shores and make the one Father your Support and you will be able to go across.

\*\*\* OM SHANTI \*\*\*
