

**Essence:** Sweet children, while living at home with your family, remain as pure as a lotus for this last birth. Remember the one Father. This is the incognito effort.

**Question:** What *contrast* do you experience very clearly as soon as you receive the third eye of knowledge?

**Answer:** On the path of devotion you wandered from door to door and stumbled so much searching for God. You have now found Him. You also have mercy for the poor people who are still wandering around searching for the path. Baba has freed you from wandering around. You are making preparations to go back with Baba.

**Song:** People of today are in darkness.

Om shanti. On the one hand, devotees are remembering God and, on the other hand, you souls have received the third eye, that is, you souls have received recognition of the Father. They say that they are still wandering around. You are no longer wandering around. There is so much difference! The Father is preparing you children to take you back home with Him. People wander around so much after their gurus and to pilgrimage places and fairs, etc. Your wandering has now ended. You children know that the Father has come to free you from that wandering. The Father taught you Raja Yoga in the previous cycle and He is now teaching you in exactly the same way. You children know that you are conquering the five vices. It is said: Those who conquer Maya conquer the world. The five vices are called Maya, Ravan. Maya is an enemy. Maya is not wealth or prosperity. You have to write: The five vices are Maya, Ravan, then people will be able to understand the meaning of it. Otherwise, they're unable to understand it. Those who conquer Maya conquer the world. Here, there is no question of Yadavas or Kauravas, deities or devils. This isn't a physical war. It is remembered that you become the conquerors of the world by conquering Maya, Ravan, with the power of yoga. You children know that the world is called Jagad (world). The Master of the World comes to help you conquer the world. He alone is the Almighty Authority, the One with all powers. It has been explained to you children that only by remembering the Father will your sins will be burnt away. The main thing is remembrance. By staying in remembrance you won't perform any sinful actions and you will also remain happy. The Purifier Father has come to purify you. So, why should we commit any sin? You have to look after yourself. Human beings do have intellects, do they not? There is no question of battling etc. in this; it is very easy to remember the Father in order to conquer the five vices. Yes, this does require effort and *time*. Maya brings storms again and again to try and extinguish your flame, but there is no question of any battling in this. That is the kingdom of the deities; no devils exist there. We are Brahmins, the mouth-born creation of Brahma. Only those who belong to the Brahmin clan consider themselves to be Brahmins. The spiritual Father sits here and gives us spirits knowledge. There is only the One who is the Ocean of Knowledge, the Purifier and the Bestower of Salvation for All. He is the One who establishes heaven. You children should have a lot of happiness. Those abroad will also come to know that these are the same Brahma Kumars and Kumaris from Sindh who say that they will definitely create *Paradise* by following shrimat. The soul says this through the body. The soul hears this and follows *directions*. The Father comes every cycle and shows you this method. The Father is incognito. No one is aware of this. This is explained to so many human beings, but, in spite of that, only a handful out of multimillions understand it. You children now understand that you have *all-round parts*. The Father has explained that only you claim the kingdom; no one, apart from you people of Bharat, who now call yourselves Hindus, can claim it. No matter what name we give ourselves, they still put us down as Hindus in the census. In fact, we originally belonged to the original eternal deity religion. When they come down from their divine religion and action and become corrupt, they begin to call themselves Hindus. Why was the name 'Hindus' given? No one knows this either. You should ask them: Tell us who established your Hindu religion? Hindusthan is the name of the country. No one will be able to tell you anything. You children know that the Brahmin, deity and warrior religions are now being established. They say: Salutations to the Brahmins who are to become deities. Brahmins are the most elevated *number one*. In fact, the golden age is called heaven. Even the kingdom of Ramachandra cannot be called heaven. For half the cycle it is the kingdom of Rama and for half the cycle it is the devilish kingdom. All of these things have to be imbibed by your hearts. What should you now do in order to go to heaven? You definitely have to remain pure. The Father says: Children, lust is the greatest enemy. Conquer it and remain pure. This is why the symbol of the lotus is shown. While living at home, become as pure as a lotus. This example is for you. Hatha yogis cannot remain as pure as a lotus while living at home. They play their *parts* on the path of isolation; they cannot live in a household. Therefore, they renounce their homes and families and go away. You can compare the two types of

renunciation. There is the memorial of those who live in households. The Father says: Whilst living in your household, simply have courage and live as pure as a lotus for this last birth. You may live in your household, even though those sannyasis renounce their homes and families. There are many sannyasis; food has to be provided for them. At first, they too were satopradhan but they have now become tamopradhan. That is their *part* in the *drama*. The same thing will happen again. The Father explains: This impure world is definitely going to be destroyed. They continue to threaten one another over trivial matters: "If this is not done, then a great war will start!" You children understand that the same thing happened in the previous cycle too. It is written in the scriptures that missiles emerged from their stomachs and this happened and that happened. They still make fancy masks at the time of Holi. In fact, it is those missiles that bring about destruction. You children also know that whatever happened in the *past* has to repeat. Whatever is predestined is happening again. You have the full significance in your intellects. It is not a matter of just saying anything. You cannot blame anyone. Such is this *part* of the *drama*. You just have to give the Father's message. This *drama* is eternal and imperishable. You also understand what the destiny is. The confluence of the end of the iron age and the beginning of the golden age is very well known. It is this that is called the most auspicious age. Nowadays, Baba explains to you children about the most auspicious confluence age very clearly. This is the age for becoming the most elevated beings. You will all become satopradhan and elevated. They are now tamopradhan and degraded. You understand these terms. The iron age will come to an end and the golden age will come and then there will be cries of victory. There is a story told about that. This is the easiest of all. There are many false stories. The Father Himself sits here and explains that you had been singing His praise on the path of devotion. I am now showing you the path to the land of happiness and the land of peace in a *practical* way. Salvation is a state of happiness and degradation is a state of sorrow. In the iron age there is sorrow and in the golden age there is happiness. When you explain this, they will understand it all. As you progress further, they will continue to understand this. Very little time is left and the destination is very high. When you go to the *colleges* and explain this *knowledge*, they will understand it very well. Truly, this cycle of the *drama* continues to turn; it isn't that there is another world. They think that there is another world up above and this is why they go up to the stars etc. In fact there is nothing up there. *God is One* and *creation is one*. This is the only human world. Human beings are human beings, but it is just that there are innumerable religions of the body. There are so many *varieties*. In the golden age, there was just the one religion and that was called the land of happiness. The iron age is the land of sorrow. This is a play of happiness and sorrow. Could the Father ever cause sorrow for His children? He comes and *liberates* you from sorrow. How could the One who is the Remover of Sorrow cause sorrow for anyone? It is now the kingdom of Ravan. Human beings have the five vices in them and that is why this is called the kingdom of Ravan. You children now have the secrets of the *world history* and *geography* in your intellects. You hear this every day. This is a very important study. So the Father explains: There is now very little time left. You have to claim your full inheritance from the Father in that time. People will gradually understand that you are the ones who show the path to God. No one else in the world can show you the path to attain God. Only God can show you the path to God. You are His children who give the message. Those who became instruments in the previous cycle will become the same again and also continue to make others the same. You children should churn the ocean of knowledge and give advice: Baba, I think that there should be these pictures. People will be able to understand very clearly from them. Baba tells you to make fewer pictures because some *centres* are very small; they can hardly keep five to seven pictures. Baba says: There should be a Gita Pathshala in every home. There are many who conduct everything in just one room. When you put the main pictures there, people can receive the understanding of who God ultimately is and what you can receive from Him. God is called Baba. You would not say "Babulnath Baba!" You wouldn't even say "Rudra Baba". The term "Shiv Baba" is very well known. Baba says: This is the same sacrificial fire of knowledge of the previous cycle. The unlimited Father Shiva has created the sacrificial fire. He has created the creation of Brahmins through Brahma. He entered Brahma and carried out establishment. This is the knowledge of Raja Yoga. Then it is also a sacrificial fire in which the whole of the old world is to be sacrificed. That same One is the Father, the *Teacher*, the Guru and the Ocean of Knowledge. There cannot be anyone else like Him. Nowadays, when they create sacrificial fires, they place scriptures on four sides. They even have a vessel into which the sacrificial offerings are put. In fact, it is this sacrificial fire of knowledge which they have *copied*. Here, you don't have anything physical. You children have now found the unlimited Father and received unlimited knowledge. No one else knows this. Only you know that the unlimited sacrifice is to be made in

this fire. The old world will be destroyed. You continue to experience the happiness that the kingdom of Rama is being established and that is very good. However, the one who establishes something would do it for himself. He would make all the effort for himself. You know that this Mahabharat War also started from this sacrificial fire. There is a big difference between those limited matters and these unlimited matters here. You are making effort for your own selves. Until you know the Father, you cannot receive the inheritance. Only the Father comes and teaches you souls. Everything of yours is incognito. Souls that have become violent have to become non-violent. You mustn't become angry with anyone. Only when the five vices are donated can the eclipse be removed. It was through those that you became ugly. How can you now become full of all virtues, 16 celestial degrees full? The Father explains this to you. Who made Lakshmi and Narayan become that? Did they find any gurus? They were the masters of the world. They must definitely have performed good actions in their previous birth, and that was why they received a good birth. A good birth is received by performing good actions. There is definitely a *connection* between Brahma and Vishnu. Brahma becomes Vishnu in a *second*. Human beings change into deities and this is known as liberation-in-life in a *second*. As soon as you belong to the Father, you claim the inheritance to liberation-in-life. All the kings and subjects are liberated-in-life. Anyone who is to go there has to become liberated-in-life. The Father explains to everyone and it is then a matter of making effort to attain a high status. Everything depends on your efforts. Why should we not continue to make effort and claim a high status? By remembering the Father a great deal you will be able sit in His heart, that is, on the throne. The Father doesn't give you a lot of hard work. What other effort would He have the innocent mothers make? Remembrance of the Father is incognito. Knowledge is revealed. It is said: "This one's lecture is very good." However, to what extent does he stay in yoga? Does he remember the Father? For how long does he remember the Father? It is only through remembrance that your sins of many births will be absolved. This is the *spiritual knowledge* which only the spiritual Father, Shiva, comes and gives you every cycle. No one else can give you this knowledge. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for dharna:**

1. Keep the secrets of the imperishable *drama* in your intellect and don't blame anyone. Make effort to become the most elevated beings. Claim your full inheritance from the Father in this short time.
2. In order to become *doubly* non-violent, never become angry with anyone. Donate the vices and make effort to become full of all virtues.

**Blessing:** May you be an image of perfection who experiences closeness by imbibing honesty and cleanliness.

Out of all the things you imbibe, the main ones are honesty and cleanliness. Let there be total cleanliness for one another in your hearts. Just as you are able to see everything clearly through anything clean, similarly, let each one's feelings, intentions and nature be clearly visible. Where there is honesty and cleanliness, there is closeness. Just as you are close to BapDada, similarly, let there be closeness to one another in your hearts. Let any differences in your natures finish. For this, harmonise the feelings of your mind and your nature. When there is no difference visible in your nature you would then be said to be an image of perfection.

**Slogan:** To reform that which has been spoilt is the biggest service.
