

Essence: Sweet children, the Father, Himself, the One you have been worshipping for half the cycle, is now teaching you. It is through this study that you become deities.

Question: What is the wonder of the *lift* of the power of yoga?

Answer: You children ascend with the *lift* of the power of yoga in a *second*, that is, you receive the inheritance of liberation-in-life in a *second*. You know that it takes 5000 years to come down the ladder and that you climb up in a *second*. This is the wonder of the power of yoga. All the soul's sins are cut away by having remembrance of the Father and you become satopradhan.

Om shanti. The spiritual Father sits here and explains to the spiritual children. The praise of the spiritual Father has been told to the children. He is the Ocean of Knowledge, the Truth, the Living Being and the Blissful One; He is the Ocean of Peace. He is given all the unlimited praise. The Father is the Ocean of Knowledge. You know that, at this time, all humans are oceans of devotion. Those who are the greatest devotees receive respect. At this time, in the iron age, there is devotion and sorrow, whereas in the golden age, there is the happiness of knowledge. It isn't that they have knowledge there. This praise is of just the one Father. It is also the praise of the children because the Father teaches the children, that is, He teaches them this pilgrimage. The Father has explained that there are two pilgrimages. Devotees go on pilgrimages and go to all the four main pilgrimage places. For the duration of their pilgrimage, they don't indulge in vice; they don't drink alcohol or eat anything impure. Sometimes, they go to Badrinath and sometimes, to Kashi. They worship God. God is only One. They should not go around everywhere (looking for Him). They still go on a pilgrimage to Shiv Baba. The greatest pilgrimage remembered is to Benares, which is also called the place of Shiva. They go in all directions, but no one knows the *biography* or *occupation* of the One they go to have a vision of or the One they worship. This is why that is called blind faith. To worship someone and bow down to that one and not know his biography is called *blind faith*. They celebrate all of that at home and worship the goddesses so much! They make goddesses of clay and decorate them a great deal. For instance, they make a non-living image of Lakshmi. When you ask them, "What is her *biography*?" they reply that she was an empress of the golden age or Sita of the silver age. But for how long did they rule? From when till when did the kingdom of Lakshmi and Narayan last? No one knows this. On the path of devotion, people go on pilgrimages. All of those paths are to meet God. To study the scriptures is also a way to meet God. However, where is God? They say that He is omnipresent. You understand that you are now becoming deities through this study. The Father Himself comes and teaches you. The path of devotion to meet that Father continues for half the cycle. You say: Baba, purify us and also give us Your introduction - who You are. Baba has explained that you souls are points. It is the soul that receives a body here. Therefore, the souls perform actions here. Of deities, it is said that they ruled in the golden age in the past. *Christians* believe that *God, the Father*, really did establish *Paradise*, but that they were not there then. *Paradise* existed in Bharat. Their intellects are still good. The people of Bharat become satopradhan and they also become tamopradhan. The *Christians* don't see as much happiness or as much sorrow. Those that have come now, at the end, are so happy! Previously, they were poor. One can earn a great deal by working hard. *Christ* first came alone and established his religion which continued to grow. One grew into two, then into four and it gradually expanded in that way. Look how big the tree of *Christians* has become. The *foundation* is the deity clan. That is being established here at this time. First of all, there is just the one Brahma, then the number of *adopted* children, the Brahmins, increases. When the Father teaches, many Brahmins are created. At first, there was just this one. So much growth has taken place through just one, and there will be so much more expansion. However many sun and moon dynasty deities there are, there have to be that many (Brahmins). At first, there is just the one Father. His soul exists all the time. How many children, souls, does the Father have? The Father of all of us souls is the one eternal Father and the world cycle continues to turn. Not all human beings exist all the time. Souls have to play their various *parts*. The trunk of this tree that comes first is that of the deities. Then the *tubes* emerge from that. Therefore, the Father sits here and explains to you children what He does when He comes. It is the soul that imbibes everything. The Father sits here and explains how He comes. All of you children remember Me when you have become impure. In the golden and silver ages you were happy; you didn't remember Me. When sorrow started to increase in the copper age, you called out to Me: O Baba! Supreme Father, Supreme Soul! Yes, children, I heard you. What do you want? Baba, come and purify the impure! Baba, we are very unhappy and impure! Come and purify us! Have mercy on us! Bless me! You called out to Me: Baba, come and purify the impure! The golden age is called pure. The Father Himself sits

here and explains this. According to the *drama plan*, when it is the confluence age, when the world has become old, it is then that I come. You understand that there are two types of sannyasi. They are hatha yogis. They cannot be called Raja Yogis. Their renunciation is limited. They leave their homes and families and go and live in the *jungles*. They become *followers* of gurus. They relate the story of King Gopichand. He asked: Why are you leaving your home? Where are you going? There are many stories in the scriptures. You *BKs* also go to the kings and teach them knowledge and yoga. There is the Ashthavakra Gita in which a king is portrayed having disinterest in the world. He said: I want someone to help me attain God. He announced this to the whole kingdom. This is that same time. You go and give this knowledge to the kings to enable them to meet the Father. Just as you have met the Father, so you also try to make others meet Him. You tell them: We will make you into the masters of heaven and grant you liberation and liberation-in-life. Then tell them: Remember Shiv Baba alone and no one else! In the beginning, you used to look at one another and go into trance. It was a great *wonder*! The Father was in this one and so He showed that miracle. He used to pull everyone's string. Bap and Dada became one. We used to create a graveyard where everyone would go to sleep in remembrance of the Father and they would all go into trance. All of that was the cleverness of Shiv Baba. Some began to consider it to be magic. This was Shiv Baba's game. The Father is the Magician, the Businessman, the Jewel Merchant. He is also the Laundryman, the Goldsmith and the Lawyer: He has everyone released from Ravan's *jail*. Everyone calls out to Him: O Purifier, O Resident of the faraway land, come and purify us! Come into the impure world, in an impure body and purify us! You now understand the meaning of this. The Father comes and tells you: You called out to Me to come into the land of Ravan. I was sitting in the supreme abode. You called Me into hell, the land of Ravan, to establish heaven. You said: Now take us to the land of happiness! I am now taking you children. Therefore, this is the *drama*. The kingdom that I gave you ended and the kingdom of Ravan continued from the copper age. You fell into the five vices and there are the images of that at Jaganathpuri. The one who was *number one* took 84 births and is now in the last number. He is the one who has to go into the first *number* again. This Brahma is sitting here. Vishnu is also sitting here. What is the *connection* between them? No one in the world knows this. Saraswati and Brahma are in fact Lakshmi and Narayan, the masters of heaven. They are now the masters of hell. They are now doing tapasya in order to become Lakshmi and Narayan. There is the accurate memorial of this in the Dilwala Temple. The Father came here, and this is why it is written: Abu is the greatest pilgrimage place of all the pilgrimage places of all the religions because the Father comes here and grants salvation to those of all religions. You first go to the land of peace and then to heaven. Everyone else will go and stay in the land of peace. That memorial is non-living whereas this one is the living form. When you become the living form of that, all of those temples etc. will be destroyed. Then those memorials will be created on the path of devotion once again. You are now establishing heaven. People believe that heaven is up above. You now understand that this Bharat was heaven and that it is now hell. When you look at the cycle, the entire knowledge enters your intellects. Other religions start to come in the copper age. Look how many religions there are now! This is the *iron age*. You are now at the confluence age. You are making effort to go to the golden age. In the iron age, everyone has a stone intellect. In the golden age, everyone has a divine intellect. You were those with divine intellects and have become those with stone intellects. You now have to become those with divine intellects again. The Father says: You called out for Me and so I have now come. I tell you: Conquer lust and become the conquerors of the world! This is the main vice. Everyone in the golden age is viceless. In the iron age, they are vicious. The Father says: Children, now become viceless! You have been indulging in vice for 63 births. Now, in this last birth, become pure! Everyone now has to die. I have come to establish heaven. Therefore, now follow My shrimat! Listen to what I tell you! You are now making effort to change your intellects from stone to divine. You come all the way down the ladder and then you climb up. You are like *genies*. There is the story of a *genie* who asked a king to give him some work to do. So the king told him to go up and down a ladder. Many people say: What is it to God that He makes us go up and down the ladder? What happened to God that He created such a ladder? The Father explains: This is an eternal play. You have taken 84 births in 5000 years. It took you 5000 years to come down and then you go up in a *second*. This is the *lift* of your power of yoga. The Father says: Remember Me and your sins will be cut away! When the Father comes, you go up in a *second* and then you come down over 5000 years; your degrees continue to decrease. You have a *lift* with which to ascend. "Liberation-in-life in a *second*". You have to become satopradhan. You will then gradually become tamopradhan; it takes 5000 years. Achcha,

you then have to become satopradhan from tamopradhan in one birth. Now that I am giving you the sovereignty of heaven, will you not remain pure? However, when they don't receive poison, those who are angry and lustful beat their wives. They throw them out or set fire to them. Poor innocent mothers are assaulted so much! This too is fixed in the *drama*. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. In order to become a master and claim the sovereignty of the world, conquer the main vice of lust. You must definitely become completely viceless.
2. Just as you have found the Father, so you must also try to make everyone else find the Father. Give the true introduction of the Father. Teach them the true pilgrimage.

Blessing: May you be a spiritual server who achieves success in service with the powers to accommodate and to face.

Spiritual servers cannot think of anything other than service. They do not take *rest* from serving through their thoughts, words and deeds for even a *second* and thereby become the *best*. In order to achieve success in service, they always remember the *slogan*: Their goal is to accommodate and to face. They accommodate (merge) their old sanskars and face (oppose) Maya and not the divine family. Such children who are *powerful* as well as *knowledge-full* are called spiritual servers.

Slogan: Do not make small things big; instead, make the atmosphere powerful.

Experience the double-light stage:

- 5) Become light from the burden of wastefulness and negativity by having pure thoughts and by churning knowledge and thereby tour around the world of light. Liberate yourself from wasting your time, having wasteful company and being in a wasteful atmosphere and become a double-light angel.
