Morning Murli Om Shanti BapDada

Madhuban

Essence: Sweet children, continue to remove rubbish from the soul with remembrance. Only when souls become completely pure can they return home.

Question: By following which of the Father's *directions* do you children experience benefit in this last birth?

Answer: Baba says: Sweet children, claim your full inheritance from the Father in this last birth. Don't allow your intellects to wander outside. Renounce poison and drink nectar. It is only in this last birth that you have to finish the habits of 63 births. Therefore, make effort day and night and become soul conscious.

Om shanti. The land of peace is the land of rest. All are tired of this world. They want to go to their land of happiness; they don't like this world. When they can see heaven, how can their hearts be attached to hell? Therefore, they say: Baba, hurry up! Take us away from this land of sorrow. The Father explains: This is a dirty world. It is called the *devil world*, hell. Is this a good name? There is so much difference between the *deity world* and the *devil world*. Everyone is fed up with this *devil world* but no one can go back home. There is tamopradhan alloy mixed inside you souls. You souls are making effort to remove that alloy. Those who are good effort-makers will have a good stage at the end. This old world will be destroyed; only a few more days now remain. No one can return home until the Father comes and takes you back. There is sorrow in the world. At home, too, they have sorrow about something or other. It is in the hearts of you children that Baba has come to liberate you from sorrow. Those whose intellects have very good faith never forget to remember the Father. He is called the Remover of Sorrow for everyone. Only you children recognise Him. If everyone were to recognise Him, where would all of them sit? Therefore, that is impossible. So, such a method has been created in the *drama*. Only those who follow shrimat can claim a high status. This is correct. Souls will experience punishment and then go to the land of peace and the pure world, but effort has to be made to claim a high status. Secondly, no one can go to the pure world without becoming pure. When they say that so-and-so merged into the light or that they went back home, that's impossible. If those who came onto the earth first (Lakshmi and Narayan) are unable to return home, how could anyone else return home? Their 84 births are now coming to an end. You are now doing tapasya to return home. All call out to the one Father: O God, the Father! O Liberator! God, the Father, is the Remover of Sorrow and the Bestower of Happiness. They do not call out to Krishna etc. Whether they are Christians or Muslims, they all call out: O God, the Father. Souls call out to their Father. You say "Father" when you understand that you are a soul. A soul also has to be something. Souls are not big things, but they are just *stars* and are extremely subtle. As is Baba's form, so the form of a soul. All of you praise the Father. He is the Truth, the Sentient Being, the Ocean of Knowledge and the Ocean of Bliss. You souls are becoming equal to Him. You have the knowledge of the beginning, the middle and the end of the whole world in your intellects. No other human being has this knowledge. Go and search the whole of Bharat and everywhere abroad and you would not find anyone who knows this. A soul plays a *part* of 84 births. It is *impossible* to take 8.4 million births. No one could even speak about 8.4 million births. The Father says: You don't know your own births. I tell you about them. While listening to all of this, those with stone intellects don't understand how it is impossible for anyone to speak of 8.4 million births. You know that you are now Brahmins. You have taken 84 births. Brahma took 84 births. Vishnu also took 84 births. Brahma becomes Vishnu and Vishnu becomes Brahma. It is Lakshmi and Narayan who take 84 births and become Saraswati and Brahma. This too is something to be understood. The Father says: I come and explain to you every 5000 years. The cycle is 5000 years. You now understand the secret of the clans. You have also understood the meaning of "hum so". We souls become deities and then we become warriors, merchants and shudras. We take this many births and then we become Brahmins. There is this one birth of Brahmins. This is the birth that is as valuable as a diamond. The Father says: That is your elevated body. You can claim your inheritance of heaven through that body. This is why you should no longer wander in any other direction. Drink the nectar of knowledge. You can understand that you truly do take 84 births. At first, in the golden age, you were satopradhan. Then, you became sato as silver alloy was mixed into you. The full calculation is shown. Even the *Government* tells everyone to mix *alloy* with gold. "Wear 14 carat gold!" The people of Bharat consider it to be inauspicious to mix alloy with gold. When a wedding takes place, they wear real gold. The people of Bharat love gold very much. Why? Don't even ask about Bharat! In the golden age there are palaces of gold; there are bricks of gold. Just as you have

piles of bricks here, so there will be piles of gold and silver. They show a play about Maya. That person saw bricks of gold and thought he would bring them back with him (from the subtle region). When he came down, he saw that there was nothing here. There must be some significance in that. Daughters understand that they are going to heaven once again. If their husbands trouble them, they cry internally, wondering when they will be able to go to the land of happiness. “Baba, hurry up!” The Father says: Children, how can I hurry up? First of all, remove your rubbish with the power of yoga. Stay on the pilgrimage of remembrance. The Father gives you patience. You even call out: O Purifier come! You even sing: The Bestower of Salvation for all is One. That refers to this time. The names of devils such as Akasur and Bakasur refer to the present time of the confluence age. This is the devilish world. The Father explains: I come at the confluence age of every cycle when the whole tree has reached a state of total decay. You know that everything in the golden age is satopradhan. Here, there are so many birds and animals. There won’t be that many species there. Grand people have a lot of cleanliness around them. Their residences, their *furniture* etc., are very good. You also become such elevated deities. There cannot be anything dirty there. Here, there are mosquitoes and many types of illness etc. There is so much dirt everywhere! There isn’t as much dirt in the villages. There is a lot of dirt in the big cities because there are many people there and there isn’t enough space for them to live. You are becoming the masters of the whole world. People sing: Brahma exists in the universe, Vishnu exists in the universe and the 900,000 stars exist in the universe. Brahma becomes Vishnu. Together with Vishnu there are also the stars; they become deities in the golden age, and so there wouldn’t be that many. The tree is small at first and then it grows. There will be very few in the golden age. They will live by the sweet rivers. Here, so many *canals* are created from rivers. There won’t be any *canals* there. There are only a handful of people there. The River Ganges and the River Jamuna are enough for that number of people. They all live close by those rivers. Even the five elements become the slaves of the deities there. There is never untimely rainfall. The rivers never overflow. The very name is heaven, and so what more could there be? People say that the duration of heaven is so many hundreds of thousands of years. OK, tell us who used to rule there? They continue to tell so many lies. You know that you are playing your *parts* exactly as you did in the previous cycle. There will be many types of obstacle from the devils in this sacrificial fire of the knowledge of Rudra. People think that devils threw rubbish and cow dung etc. from up above, but no. You can see how many obstacles there are. Innocent ones are assaulted. Only then does the urn of sin become full. The Father says: A little has to be tolerated. Continue to remember your Father and your inheritance. Even at the time of being beaten, you must keep Shiv Baba in your intellect. You have knowledge in your intellect. When someone is about to be hung on the gallows, the priest asks him to remember *God*, the *Father*. He doesn’t say: Remember Christ. He gives a signal to that person to remember *God*. He is so *lovely*! Everyone calls out to Him. It is the soul that calls out. It takes effort to become soul conscious. You have been body conscious for 63 births. Now, finish that habit of half the cycle in one birth. You know that by becoming soul conscious you will become the masters of heaven. This is such an elevated attainment! Therefore, you have to make effort for this, day and night. People make so much effort in their business etc., they don’t nod off or yawn when they are earning an income; they have the happiness of earning money. There is no question of becoming tired. Baba is also experienced. When *steamers* come in at night, people get off to buy goods. The shopkeepers won’t leave the customers alone until they have emptied their pockets! Baba has taken a very experienced chariot. This one has experienced everything. He was also a village urchin. He used to sell approximately 40lbs of grain for 10 annas (62 paisas). Now look, he is becoming a master of the world! He was a complete village urchin. Then, when he rose high, he became completely engrossed in the jewellery business. There was nothing but jewellery. This now is the business of real jewellery. This is a *royal* business. Baba is very experienced. Baba used to go to the home of the *Viceroy* etc. as though that was his own home. These are called the imperishable jewels of knowledge. The more your intellect imbibes, the more of a multimillionaire you will become. Shiv Baba is called the Businessman and the Jewel Merchant. People sing His praise and then say that He is omnipresent! Together with His praise, there is also His defamation. Look at what the condition of the path of devotion has become! The Father says: When devotion comes to an end, the Father, the Protector of the Devotees, comes. It is also proven who does the most devotion. You do the most devotion. Only such ones will come here and first become Brahmins and once again claim their inheritance from the Father of becoming worthy of worship. Ravan made you into worshippers and the Father makes you worthy of worship. These are the versions of God. God is One; there cannot be two or three Gods. The Gita of God has been remembered. Instead of writing “God Shiva

speaks”, they have put Krishna’s name, and that has thereby made such a difference! According to the *drama*, the name of the Gita had to be changed in that way. Then, they call out: O Purifier, come! The Father makes you pure and Ravan makes you impure. A clever intellect is needed to understand all of this. Shrimat, the most elevated directions, are of the one Father. Lakshmi and Narayan became the masters of heaven by following the Father’s directions. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Make effort in this one birth to remove the old habit of the body consciousness of 63 births. Become soul conscious and become a master of heaven.
2. In this elevated birth as valuable as diamonds don’t allow your intellect to wander. Become satopradhan. Tolerate any assaults and claim your full inheritance from the Father.

Blessing: May you be a fortunate soul who experiences the true “suhaag” (state of being wed) with the awareness of the one Father.

Those who do not listen to anyone else, whose minds do not remember any other soul in their thoughts or dreams, that is, who are not subservient to any bodily beings and who maintain the awareness of belonging to the one Father have the imperishable tilak of “suhaag” applied. Those who have such a true “suhaag” are fortunate.

Slogan: In order to make your stage elevated, first become introverted and then come into extroversion.

*** OM SHANTI ***
