

Essence: Sweet children, the confluence age is the most elevated age of all. Through the study here you can become the most elevated beings of all for 21 births.

Question: What faith should you firmly have in order to have inner happiness?

Answer: The first faith you should have is that you were the masters of the world and were very wealthy and that only you have taken the full 84 births. Baba has now come once again to give us the sovereignty of the world. We have now become knowers of the three aspects of time. We have now come to know the beginning, the middle and the end of creation from the Father, the Creator. Only when you have such faith can you have inner happiness.

Song: Show the path to the blind, dear God!

Om shanti. Did you children hear the *line* of the song? Baba now comes and shows you such a good path to make you into the most elevated beings. There are many types of *college* and *university* in the world where they study to attain a *position*. Some become *clerks*, some *magistrates* and others become a *Chief Justice*. Human beings attain a high status. However, all of that is a high status of the iron age. The Father comes and enables you to attain a high status in the golden age. This is the confluence age. You have to become the most elevated in this age. Whatever *knowledge* people study, it is to become elevated. This is spiritual *knowledge* for the future. This confluence age is the most elevated age. Wherever you mention the confluence age in the pictures, you also have to write, "The most elevated". Everything is made elevated. You know how elevated Lakshmi and Narayan are. Their jewellery and costumes are definitely very beautiful and so such pictures should be made. Baba would only give *directions*. Children continue to tour the cities. They should think about what type of attractive pictures to make that would create a great impact with their splendour. You should keep it in your intellects throughout the day that you are becoming the most elevated beings of all. Who is making you this? The highest Father of all. The highest shrimat of all is from the one Father. That Father tells you that Shri means elevated. The *title* "Shri" is only given to the deities. Souls and their bodies are both pure; their births take place through purity. Here, no one takes birth through purity. Sikhs speak of dirty, impure clothes. Baba comes and washes the dirty, impure clothes and changes them from human beings into deities. Deities are not born through vice. However, people question how the world can continue without vice. The Father explains: There is no creation born through vice in heaven. You *students* now know that you have come here to become Narayan from an ordinary human. We will attain the kingdom through this Raja Yoga. If someone *fails*, he will become part of the moon dynasty. Your battle is with Ravan, but no one in the world knows that Ravan is their old enemy. People don't know the meaning of Ravan or what his ten heads represent. You children know that you become corrupt when the vices come into existence. In the golden age everyone is elevated. The Father says: At this time all have tamopradhan intellects. They are all in total darkness. It is also remembered that everyone is sleeping in the sleep of Kumbhakarna and that they will awaken when the fire starts. You awaken everyone so much and yet they go back to sleep. You make so much effort at the fairs and gatherings, but look how many emerge from there: a handful out of multimillions. As you make further progress there will be a lot of growth and people's intellects will open. All other religions have been old for a long time and this is why they have expanded. This is your small, old tree. Those people eat meat and drink alcohol etc. They even indulge in vice. It is said: Good company takes you across, whereas bad company drowns you. The company of the Truth is the company of only the one Father. People don't know which company will take them across. They sing: O Boatman, take my boat across! O Master of the Garden, change us from thorns into flowers! Take us beyond this forest of thorns! You are to become flowers here. Imbibe divine virtues. Become the most elevated beings. Your food and drink should be very pure. Whatever is impure is not offered to deities. You too should not eat those things. Vegetables are also sato, rajo and tamo. Nowadays, people are poor. It is the poor ones who will take knowledge. Wealthy people waste their money. It is very bad to watch films. It was written in a newspaper too that to go to watch *films* means to go to hell. The greater a person is, the worse his activities are. At this time, this is an absolute brothel. The Father comes and makes it into the Temple of Shiva. Everything depends on purity. If there is *purity*, there is also *peace* and *prosperity*. No one in the kingdom of Ravan can be pure. The matter of war applies here. You gain victory over Ravan with the power of yoga. There are so many temples here, but no one knows anyone's *biography*. Go to a Shiva Temple and ask them to tell you Shiva's *biography* and they won't be able to tell you anything. Among you too, you have knowledge, numberwise, according to your efforts. There are the highest, middling and the lowest. Everything depends on how you the study. The soul says: I will become Narayan from an ordinary man. I teach everyone Raja Yoga and yet, according to the effort each of you makes, you

become the highest, the middling and the lowest. This is why you children have to pay a lot of attention to the study. God Shiva speaks: All your sins will be absolved through the fire of yoga and you will become satopradhan. Children, this is why you must not forget the pilgrimage of remembrance. Ask your heart: I explain knowledge very well at the exhibitions, but do I stay on the pilgrimage of remembrance? Because you *fail* in remembrance, you don't have that stage or that happiness all the time. You children should increase practising in this *subject*. Make such beautiful pictures that anyone who comes and reads the writing on them will be able to understand the *knowledge*. Many people come to see something good. Those who make those pictures receive so many prizes. They especially make the images of deities look like antiques and then sell them. People like them very much. They buy them even if they cost a lot. The deities were satopradhan and so there is so much respect for even their images. However, they don't know that Bharat is the most ancient of all. The oldest of all is Shiv Baba. Shiva comes first of all. People are so confused. You also understand that previously you had degraded intellects. Look what you have now become from what you were! We were the masters of the world and were very wealthy. However, there are very few among you whose intellects have faith. Otherwise, you children would have inner happiness: Wah! We have taken the full 84 births! Those who study less will receive fewer births. Those who become part of the sun dynasty must definitely have studied well. This study is so good! Baba, the Creator, comes and gives you the *knowledge* of the beginning, the middle and the end of creation. You are becoming knowers of the three aspects of time. Ask anyone: Do you know the three aspects of time? Do you have the knowledge of all three aspects of time? They would then say: All of that is your imagination. When one person says this, others would also begin to say the same. Your intellects now have all the knowledge. You also know that God is the Father. It is written in the Gita that God's form is brighter than a thousand suns. However, it is not like that. Baba is very cool. He comes and makes you children cool too. Just as Baba is a point of light, souls too are points of light, like *fireflies*. Fireflies are visible. However, without divine vision, Baba cannot be seen. You know that God is the Ocean of Knowledge. You children are also becoming *master* suns of knowledge. The soul is so tiny and all the *knowledge* is recorded within him. It is the soul that listens and the soul that imbibes. The soul explains through the body. No one else would know how to explain all of these things. You too understand everything from the Father and you then explain to others. Only the Supreme Father, the Supreme Soul is the Purifier and the Ocean of Knowledge. Krishna cannot be called the Purifier or the Ocean of Knowledge. People call out to the One: O Purifier, come! They don't call out to Krishna or Rama. Was the Rama who belonged to Sita the Purifier? All of you are devotees, whereas God is just the One. All of you are *brides* and I am your *Bridegroom*. I come to decorate you. I come and give all souls the fruit of their devotion. This study is so important; it makes you into Narayan from an ordinary human. You should have so much intoxication. The Father has come to donate the imperishable jewels of knowledge to you. This is the best donation of all. People go in front of Shiva and ask for their aprons to be filled. You now have all the knowledge in your intellects. You are now at the confluence age. Shiv Baba is making us into the masters of the land of Vishnu. We are now Brahmins and will then become deities. Then we will become warriors, then merchants and then shudras. This is the secret of "hum so, so hum". People say: The soul is the Supreme Soul. The Father explains how those who are worthy of worship then become worshippers and how you become satopradhan and go through the stages of sato, rajo and tamo. Only you know this secret. These matters have to be imbibed. Such a huge unlimited kingdom is being established through this study. You are studying for your future 21 births, numberwise, according to the effort you make. Some will become kings and queens, and others will become subjects. There, everyone has happiness. Here, they all receive sorrow according to their karma. This is the land of sorrow, whereas that is the land of happiness. Baba now says: Children, don't perform any such bad action for which there would have to be punishment. If you still perform such actions, you will receive a status accordingly. If you study well, you will create your reward for cycle after cycle. You have this knowledge at this time and it will then vanish. If you don't make effort now, there will be a lot of repentance later. The Father says: Imbibe divine virtues because, otherwise, your actions will become sinful. Here, the actions of all people are sinful. No one, apart from you, knows this. No one can tell you when the God of the Gita came. People say that He came in the copper age. The Vedas and scriptures are created in the copper age and the devilish community is created in the copper age. Children say: Baba, take us away from this world of sin. This means that they are asking for death. This is why He is called the Death of all Deaths. Those people have just given the name 'Immortal Throne' but they don't understand the meaning of that. Those who become the most elevated then also fall to the lowest. You children have now understood

all of this knowledge. This is very *wonderful* knowledge. No one else can give the knowledge of the beginning, the middle and the end of creation. Otherwise, what would be the benefit of calling the incorporeal One *knowledge-full* before He comes and gives knowledge? All souls come down here from the incorporeal world to play their *parts*. They call out to God but He doesn't have a body of His own. All other souls have their own bodies. Therefore, only God is the one incorporeal One. The Father says: My name is Shiva. I enter this one's body and sit in the centre of his forehead. Just as souls speak through their *organs*, so, Baba too explains through this one's *organs*. It is remembered that a wonderful star sparkles in the centre of the forehead. Only you understand the significance of these deep secrets. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. In order to make your reward elevated, study very well. Don't perform any bad actions.
2. Let your food and drink be very pure. Only eat that which is offered to the deities. Make effort to become the most elevated beings.

Blessing: May you be a charitable soul and give the great donation of happiness by keeping a good *record* of giving *regard*.

At present, there is a need to keep a good *record* of giving everyone *regard*. This *record* will then be played everywhere. Give *regard* and receive *regard*. Give *regard* to the young ones and also give *regard* to the old ones. Now, you must not stop the *record* of giving *regard* for only then will you become great donors and charitable souls who give the donation of happiness. To make others happy by giving them *regard* is a great act of charity and service.

Slogan: Move along while considering every moment to be the final moment and you will remain *ever ready*.
