

Essence: Sweet children, in order to be loved and remembered by BapDada, become *serviceable*. Your intellects are full of knowledge and you must therefore rain it on others.

Question: Which intoxication takes away the clouds that are full and ready to rain, and doesn't allow them to rain?

Answer: If there is unnecessary intoxication of body consciousness, the clouds that are filled and ready to rain are blown away. Even if they do rain, instead of doing *service*, they do *disservice*. If there is no love for Baba or no yoga with Him, then, although they do have knowledge, it is as though they are empty. How could such empty clouds benefit many?

Om shanti. Only a few clouds now remain. When the rain decreases, the clouds disperse over the ocean; they become empty. In the same way, here, too, you clouds become cold. Clouds are those who *refresh* themselves and then go and rain on others. If someone doesn't rain, he or she can't be called a cloud. These are clouds of knowledge and those are clouds of water. The clouds of knowledge come when it is their *season*. They come and *refresh* themselves and then go and *refresh* others. Clouds too are numberwise. Some rain very heavily. It is the duty of clouds to rain and *refresh* the plants that have wilted. Those who have full knowledge don't hide away. They don't even need Baba's *directions*. They are clouds. They come only to fill themselves and then rain on others. Wherever you see that a land is very hard and barren, you should go and make it green. Maharathi children know all the *centres* very well: they know which *centres* are still slack and which *centres'* children have more storms. Maharathi *serviceable* children know this very well. Baba always says: Give My love and remembrance to the *serviceable* children. The good clouds will go on *service*. Not everyone explains in the same way at exhibitions. The main thing is that the God of the Gita is the incorporeal Supreme Father, the Supreme Soul, and not corporeal Shri Krishna. A very good method of explaining is required. Throughout the day, you should think about how to go and awaken others. All are in extreme darkness. Continue to explain with love to everyone about the two fathers. One is a limited father and the other is the unlimited One. Only the unlimited Father is called the Purifier. You children have now received intellects (wisdom). Although people of the world have a lot of splendour, their intellects are like stone. The Father says: I even have to uplift those who call themselves sages etc. They too don't know the Creator or creation. This knowledge disappears in the golden age. However, no one knows this. This knowledge is not in the scriptures. No one can receive salvation through them. There is so much regard for the Gita! However, that is the path of devotion. The Father is the Purifier; He sits here and teaches you Raja Yoga. Therefore, a new world is definitely required for the kingdom. Only the Father comes and teaches you Raja Yoga. You know this now. He now once again explains to those whom he explained to in the previous cycle. Only then will they understand. It isn't that same war that takes place all the time. That would last for eight to ten years and then stop. According to the *drama*, the *bombs* that have been made are not just for keeping. The golden age will not come without there being the death of impure human beings. You also have to explain how peace is established. It is the task of the Father alone to establish peace and make the world elevated. The Father says: Break your intellects yoga away from everyone else and connect it to the One. Break your connection with everything that is visible, including your own body. We now have to return home. Therefore, remember the home! You now understand that this is the land of death. We are listening to the story of immortality in order to go to the land of immortality. Deities are called human beings with divine virtues. There cannot be a single one like that here. They have written so much defamation about Shri Krishna. Nothing enters their intellects. You children now have to make effort very well and imbibe divine virtues. It has also been explained to you what divine virtues are. You must definitely become completely viceless. This is the main and foremost virtue. You see how impure ones everywhere bow down to those who are pure. In the golden age everyone is pure and so there are no temples there. They build temples when they become worshippers. Those who were pure then become impure. This is the last of many births. The Father says: Forget this old world and this old body. This old world now has to end. It won't take time for it to be destroyed. This old world, wealth, prosperity and treasures etc. are all about to end. Only a few more days remain. No one in the world knows that this old world is to be destroyed. You tell everyone this, but they also have to have that faith. All of this can only sit in their intellects when they consider these to be the versions of God. The Father says to you children: Consider yourselves to be souls and remember Me, your Father. You children know that the unlimited Father is teaching you Raja Yoga. He is the Father of all souls. All are *brothers*. In heaven all *brothers* were happy whereas in the iron age all *brothers* are unhappy. All souls are now residents of hell. There wouldn't be just souls, they also have to have bodies. You children now have to

become soul conscious and it is this that requires effort. This is not like going to your aunty's home. This stage can only become firm when you first have the faith that the Supreme Father, the Supreme Soul, is teaching you. Shiv Baba comes here to teach you through this body. We hear it through these bodies and imbibe it. We shed bodies and take others according to our sanskars. It is just like the example that Baba gives of those in the army. They take the sanskars of battling away with them and so they are pulled there in their next birth. You now know the Father's sanskars; you know what sanskars the incorporeal, unlimited Father has. He is the Seed of the human world tree. He is the Purifier and the Ocean of Knowledge. Only He comes and purifies us. The Father says: Constantly remember Me alone and your sins of many births will be absolved. Otherwise, there will have to be a lot of punishment and no status will be received. You children now know that Baba is showing you a very easy path. He says: Manmanabhav! This expression is also in the Gita, but they don't understand the meaning of it. The Father says: Constantly remember Me alone! Renounce your body and all bodily religions, consider yourself to be a soul and remember Me, the Supreme Father, the Supreme Soul. Remembrance is also called the fire of yoga. Yoga is a *common* word; it is also mentioned in the Gita, but, because they have put Krishna's name, they have created extreme darkness. Now, when you explain to them, they say that it is just your imagination. They don't understand anything. They don't want to claim an inheritance. First of all, they have to understand that that unlimited Father is the Father, *Teacher* and Satguru and that He is teaching us. There has to be this firm faith. It is impossible for a new person to have this faith instantly. Some new ones are *sensible* and so they are able to understand. Some don't even want to come here; they don't understand anything at all! It doesn't enter their intellects at all. There are so many BKs. Therefore, they must definitely have received their inheritance from the Father. This is a *family*. The name that is written is, 'Brahma Kumars and Kumaris', and so this is a *family*. The *family* of Prajapita Brahma is so large and yet this doesn't sit in the intellect of anyone. When someone asks what your *aim* and *objective* is, tell him that it is written on the *board* outside: Prajapita Brahma Kumars and Kumaris. Therefore this is a *family*. We receive an inheritance from our Grandfather. Shiv Baba creates creation through the mouth of Prajapita Brahma. Therefore, He is the *Creator*. He creates heaven and so He would definitely give you children the inheritance of heaven. So this is a *family*. There is the father, sons, daughters and the Grandfather. There is Brahma and also Shiva. He is the Creator. He is incorporeal. So, how does He give you children your inheritance? He gives you your inheritance through Brahma. Explain this very clearly. Tell them: This is your Father's home. This is also called the sacrificial fire of the knowledge of Rudra. We are Brahmins. No one, apart from the Father, can teach Raja Yoga. It says in the Gita: Manmanabhav, that is, constantly remember Me alone. Therefore, we only remember that one Father. On the path of devotion they sing, "Baba, when You come I will surrender myself and belong to You. I, the soul, will shed this body and return with You. When I belong to You, I will definitely return with You." When a girl gets married she goes with her bridegroom. Shiva, the Bridegroom, says: I will liberate you from this sorrow and take you to the land of happiness. Then, each of you will rule the kingdom according to your own efforts. To the extent that you imbibe the wealth of knowledge, you will accordingly claim a high status. The young daughters are doing *service*. They have to explain to the great scholars and pundits. Therefore, there has to be that interest. In wrestling they issue *challenges* to wrestle with one another. *Serviceable* children should not sleep comfortably; it is a sin to rest! Those who consider themselves to be maharathis should not sleep comfortably in happiness. Constantly tour around for *service*. Nowadays, Baba is getting many exhibition sets made. Invite eminent people. If not now, they will come at some time later on. Continue to awaken sages, holy men and great souls. However, the one who speaks to them should be a maharathi. Those who don't have yoga with the Father and don't love Him are like empty clouds. What would they be able to do? You understand that uneducated ones will bow down to those who are educated. Each one of you can understand for yourself to what extent you are educated. That will be shown by the *service* you do. If clouds are full and yet don't rain, what use are those clouds? Each one has his own understanding. If there is useless intoxication of body consciousness, your high status will be lost for all time. Baba has so much interest in doing *service*. Explain to the *Government* and ask them for a *hall* where we can do this spiritual service to change humans into deities. The Father has come to teach you Raja Yoga. However, you must explain with tact. Those who don't know how to give lectures will not be able to explain; they will not be able to claim a high status. Those who do *service* will be able to claim a status. Write to eminent people and say that there cannot be benefit for Bharat and this world without this *knowledge*. *Education* is the main thing. Lakshmi and Narayan also claimed their status through their *education*: they studied Raja Yoga in their previous birth.

We are also now studying this here. *Students* in a *school* understand that they will take a particular exam and then become something. The *knowledge* that you receive is not for this world. You are studying to create a reward for your future 21 births. Those people study to receive happiness in this birth. Therefore, study that worldly knowledge too, but, at the same time, take these teachings. There is no need to be afraid of anything in this. Why should you not take *spiritual knowledge*? You should take the pictures and go and explain to others. Tell them: *Knowledge* is essential for everyone. However, some children are not yet that alert or active. They are trapped in their jobs and responsibilities. If someone is free from bondage, he or she should become busy in *service*. Not everyone will follow *shrimat*. *Maya* causes a lot of confusion in between. Some children have a lot of interest but they don't have the intoxication to go and benefit many others. Baba also wonders: Since you have now become an adult, why do you choke? You can say that you have to uplift *Bharat*. We have to do true service and change human beings into deities. Baba is very amazed that some don't have that intoxication. This is why Baba says: You have *rajo* intellects. You have a very good *chance*. There are even those who have a lot of ego in their *knowledge* and they also continue to do a lot of *disservice*. The jaggery and the bag of jaggery know. There are the omens of the eclipse of Rahu. The omens of Jupiter are removed and there are then the omens of the eclipse of Rahu. One minute they are moving along very well and the next minute there are bad omens and they fall. You children have to be very courageous. You have to take the initiative and fulfil the responsibility. We will definitely make this *Bharat* into heaven. Your religion is to make residents of hell into residents of heaven and to make corrupt beings elevated. Baba makes you very intoxicated, but the intoxication rises in the children, numberwise. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Become free from bondage and do the true service of *Bharat*. Do spiritual service and change human beings into deities. Don't have ego of your knowledge. Maintain spiritual intoxication.
2. Have faith in the intellect and first make your stage strong. Break away from whatever you see, including your body, and connect yourself to the one Father alone.

Blessing: May you attain the kingdom of the world by doing altruistic service and thereby be merciful and a world benefactor.

Those who are altruistic servers never have the thought: I did this much. By doing this, I should receive some respect, honour or praise. This too is also a form of taking. If the children of the Bestower have some thought of taking, then they are not bestowers. This form of taking does not suit those who are bestowers. When this thought finishes, you can then attain the *status* of a world emperor. Only such altruistic servers and those who have unlimited disinterest can be merciful world benefactors.

Slogan: To blame others for your mistake is also "parchintan" (to think about others).
