Morning Murli

Om Shanti

BapDada

Madhuban

Essence: Sweet children, sin is committed by becoming body conscious. Therefore, be soul conscious. Your *manners* have to be very good. Don't cause anyone sorrow.

Question: What easy method does the Father show you in order for you to create your reward for 21 births?

Answer: Children, this is God's *bank*. You will attain a reward for 21 births to the extent that you accumulate in this. Only by using everything in a worthwhile way for God's establishment will you accumulate. However, everyone else is to become bankrupt. This is the land of sorrow. There will be *earthquakes*, fires etc. Everyone is to experience a loss and this is why it is said: Some people's wealth will remain buried underground, other people's wealth will be consumed by the Government...

Om shanti. You children have the *knowledge* of the Creator and the beginning, the middle and the end of creation in your intellects. You also understand that you people of Bharat were satopradhan at first in the golden age. Remembrance is very essential for you children. To constantly stay on the pilgrimage of remembrance requires a lot of effort. However, there has to be the knowledge of the Creator and creation in your intellects. In the golden age we were deities and that was called heaven. The deities were the masters of the world. There was just the one religion. The words have to be understood fully. You children know that, at the beginning of the golden age, you belonged to the sun-dynasty clan. The knowledge of the beginning, the middle and the end that Baba, the Creator, has told you has to be in the intellect of each one of you. This must never be forgotten. You also know that while taking rebirth you came into the silver age and that two degrees were lost. The world also continues to grow older. Keep this in your intellects very well. The more you stay in remembrance, the more your mercury of happiness will remain high. Then, after the end of the silver age, the copper age comes. As soon as the copper age begins, other religions begin to be established and, while coming down, we go on to the path of devotion. You wouldn't say that all the other religions are also on the path of devotion at that time. This whole story refers to you people of Bharat. Although this is the kingdom of Ravan, you wouldn't say that it is the kingdom of Ravan for them. They go through the stages of satopradhan, sato, rajo and tamo in their own time. Religions have to be established. Then they continue to expand and also continue to come down; the cycle has to turn. At this time, you know that the path of devotion began after the beginning of the copper age and that other religions were also established. It is now the iron-aged tamopradhan world. Because the world is old, everyone has become tamopradhan. Only you children have this knowledge. These are the easiest things of all which even little children can remember. However, they would remember them like parrots. You children feel this and you explain according to that. You know that the whole tree has reached the state of total decay. The deity religion that existed in the beginning no longer has any *foundation*. Although it exists, they call themselves Hindus. This is why it is said that the deity religion doesn't exist, that it has disappeared. All have become impure. This is why none of them calls themselves deities. Neither that religion (dharma) nor that action (karma) exists now. In the golden age, everyone's action becomes neutral. Whatever actions people here perform, they are sinful. No one can call himself a deity because everyone is tamopradhan. This is also fixed according to the *drama plan*. Only when religion disappears does Baba come and establish the religion of truth and inspire the destruction of innumerable religions. In the new world there was just the one original eternal deity religion. Shiv Baba has now come and is once again establishing the deity religion through Brahma. You are mouth-born Brahmins. Those who have become *Christians* through Christ are said to be a mouth-born creation; they aren't his (physical) children. In the same way, you have become Brahmins through Brahma. Originally, you are the children of Shiv Baba. You have now become Brahmins through Brahma. Shiv Baba Himself

establishes the deity religion through Brahma because He also has to inspire the destruction of the entire old world. No one else carries out the task of destruction. Those people come and establish their own religions which then continue to grow. It is now the tamopradhan world, the end of the iron age. In the scriptures they have written that the duration of the cycle is hundreds of thousands of years. You know that all the scriptures etc. are the paraphernalia of the path of devotion and that they will not exist in the golden age. None of those innumerable religions will exist there. Islam, Christianity etc. are all established later, in the copper age. Then, each religion has its own scripture written. Now, the whole world is impure and this is why everyone calls out to the Purifier Father, "Come and remove our sorrow and grant us happiness." They even say, "Become our *Guide* and take us back home." He is the *Guide* of everyone. You have now understood the *contrast*. Those guides make you stumble around the pilgrimage places. You are spiritual guides. You children of Shiv Baba, the Pandava community, are guides. The Father teaches you the spiritual pilgrimage: O souls, remember your Father and also remember your home. By remembering Baba you will reach the home. If you don't remember Him your sins won't be absolved. Although He will take everyone back with Him, He will make everyone settle their accounts either through punishment or with the power of yoga; either way, they definitely have to be settled. You know that you are now accumulating. The purer you become and the more income you earn, the more you will accumulate. If you don't make effort you won't accumulate anything and there will be a loss. You know that you have been experiencing a loss for half the cycle. You have now become totally bankrupt. There is bankruptcy in everything. You children now have to accumulate for 21 births. The pilgrimage of remembrance is the main thing for that. Constantly keep this in your awareness. Whenever you have time, maintain this awareness. Baba is the Ocean of Knowledge and you therefore also have the *knowledge* of the beginning, the middle and the end of creation. He makes you the same as Himself. Just as a *barrister* and an *engineer* teach you and make you the same as themselves, in the same way, the Father also makes you soul conscious, the same as Himself. The Father doesn't have any body consciousness. This is a study. The Father gives you the knowledge that He has. The Father is the Ocean of Purity and so He also makes you pure, the same as Himself. Those who don't become this will experience punishment and then their status will also be reduced. It isn't that you have to be wealthy with money at this time. No; Baba has explained that both one paisa (1/100th of a rupee) of the poor and one rupee of the wealthy are equal; both receive the same inheritance. The Father is the Lord of the Poor. This is why it is remembered: There are sinners as sinful as Ajamil and also the stone intellects. The names of wealthy ones are not remembered. These matters have to be understood. You would say that in the beginning you were the wealthiest. You take this knowledge here, numberwise, and so you would also claim a status there, numberwise. *Follow* the mother and father completely. Just as Baba makes effort and claims a high status, so you must do the same. Mama and Baba also do *service*. This is your spiritual service. Make sure that the message reaches every home so that no one can say that they didn't receive the message of the Father's coming and so how could they have remembered Him. There are such stories in the scriptures of God receiving complaints. This is why everyone should know this. There is little *time* left. Day by day, the exhibitions and fairs will become more and more popular. They now print things in the newspapers abroad. In the beginning, when the bhatthi was created, the name went as far as the newspapers abroad. Now, they will even print that *God, the Father, Himself*, has come and is *liberating* everyone. He says: Remove the intellect's yoga from everywhere else. Remember Me, the one Father, and you will become pure and go to the land of liberation. Some understand this very well and begin to remember Baba. Those who are the leaders of their religion will come, numberwise. The trees of all the religions grow after they come from the incorporeal world. They will now go from this impure world to the incorporeal, pure world. Then, each one of them will come to establish his religion at his own time. This has to remain in your intellects. There was just one religion in the golden age. Because they have been growing, there are now innumerable religions and innumerable opinions. You know that this Bharat is the imperishable land and that annihilation never takes place here. Continue to think about these things. This is your Godly *mission*. *Centres* continue to open.

Now, destruction is also just ahead. Nothing that you see with your physical eyes will remain in the golden age; it will all become a forest. Abu will not exist in the golden age; there will be no need for it. These temples etc. will all be built later on the path of devotion. They build temples so high up on the mountains. Then, when the days grow cold, they close the temples and come down the mountains. You are sitting on the mountains. At the end, all visions will be granted on the mountains. Baba tells of how, when he had visions, it was also on the mountains. Even now, you have come here by chance and settled on the mountains. While sitting here, you will hear and see everything. While sitting here, you can have visions of how a fire erupts. You can hear about everything that happens through the *radio* and the newspapers. You can also see things on *TV*. As you progress further, such things will emerge that you will be able to see everything while sitting at home. On the *radio*, you can hear about things happening so far away. All of that is the *pomp* of Maya. That is why people think that this is heaven. Only after destruction takes place can there be heaven. There will be palaces by the rivers of sweet water there. There won't be any need to go to the mountains. There will be constant Spring there. Now, it is sometimes hot and sometimes cold; there is sorrow in everything. In heaven, there won't be any name or trace of sorrow. You are now going to such a place. It is in your intellects that you are going to shed your bodies and go to Baba. We are now studying Raja Yoga with Baba. We also studied it 5000 years ago. You say, "Baba, You are the same One." Baba knows that those who attained their fortune of the kingdom in the previous cycle will claim it again. This cycle should remain in your intellects. Truly, 5000 years ago, there was the kingdom of deities in Bharat. Then, after half the cycle, Maya entered and other religions also came and the path of devotion began, that is, the kingdom of Ravan began. This can be explained very clearly using the pictures. It is the story of how Bharat becomes tamopradhan from satopradhan. Now, when it is time for destruction, everyone has a non-loving intellect. All the pictures etc. should be kept with you very diplomatically at the fairs and exhibitions. This knowledge of yours is incognito. There is no question of any weapons etc. here. You are very ordinary. You stay in remembrance of the Father while walking and moving around. When someone asks you if you believe in the Vedas and scriptures, tell him: Yes, we know them very well and we also know that you cannot attain God through them. All of that is the paraphernalia of the path of devotion. In the golden age all souls were pure. There is the song: Awaken o brides, awaken! In the new world everything will be new. Baba comes and tells you new stories for the new world. All the *scenes* and *scenery* will be new. Many come to the exhibitions and also write their *opinions*. They say that these things are very good and that they should be explained to everyone. However, they themselves don't understand anything! Scarcely a handful out of multimillions emerge, but *service* does have to take place. Many subjects will be created. When you children continue to churn this knowledge, there will be great happiness. This is the world of sorrow. Sometimes, there is a loss and someone goes bankrupt. When the *earthquakes* take place, everyone's money will be destroyed. This is why it is said: Some people's wealth remained buried underground. Whose wealth will be used in a worthwhile way? Those who use it for the task of God's establishment. This is God's *bank*. The more you put in this bank, the more it accumulates. Whatever you put into Shiv Baba's treasure-store in the previous cycle, you will only put in that much now. You will then receive the *return* of that in the new world for 21 births. For half the cycle, on the path of devotion, when they put something into Shiv Baba's treasure-store, they received temporary happiness. Here, Shiv Baba is establishing heaven *directly* and so you will receive everything for 21 births. On the path of devotion you receive temporary happiness in hell. Good *manners* are also needed. Don't cause anyone sorrow. Otherwise, you will defame the name. Never become angry. Sin is committed by becoming body conscious. Since you belong to Baba, you say, "Baba, all of this is Yours." The Lord is pleased with an honest heart. There shouldn't be anything false in your heart. Otherwise, you will continue to fall even further. You are children of the Messenger and you must therefore continue to give everyone the message: The Father has come and is establishing heaven. Give everyone His message. The new world is being established. Whoever wants to study Raja Yoga for this should come and do so. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. If there is any defect within, remove it. Have an honest heart. Don't become angry because of body consciousness.
2. Whenever you have time, stay on the pilgrimage of remembrance and accumulate an income.

Blessing: May you make the speciality of *checking* your deep sanskar and become a great soul. Whatever thoughts you create, words you speak, deeds you perform and relationships and connections you form, simply *check* whether it is equal to what the Father would do. First compare and then put it into the *practical* form. Physically too, some souls have the sanskar of first *checking* everything before accepting it. Similarly, you are great, pure souls and so intensify the *machinery* of *checking*. Make it your deep sanskar; this is the most eminent greatness

Slogan: To become completely pure and yogi is the *return* of love.
