

**Essence:** Sweet children, you become pure by following the shrimat of the Purifier Father and this is how you receive the kingdom of the pure world. Those who become pure by following their own dictates do not attain anything.

**Question:** What should you children especially pay attention to when doing *service*?

**Answer:** When you are on *service*, do not sulk with one another over trivial matters; that is, don't become upset. If you become like salt water with one another and don't speak to one another, you become instruments for *disservice*. Some children even sulk with the Father and start performing wrong actions. The *adoption* of such children is then cancelled.

Om shanti. The Purifier Father sits here and explains to the children who become pure. Only impure children call out to the Purifier Father. The *drama plan* also says: Because this is Ravan's kingdom, all human beings are impure. Impure beings are those who indulge in lust. There are many people who don't indulge in lust; they remain celibate. People such as priests and mullahs and Buddhists think that they are viceless; they remain pure. Who made them pure? They became that by themselves. There are many other religions in which they remain pure and don't indulge in lust, but they are not made pure by the Purifier Father. This is why they cannot become the masters of the pure world; they cannot even go to the pure world. Even sannyasis renounce the five vices, but who taught them renunciation? The Purifier, the Supreme Father, the Supreme Soul, did not make them renounce anything. There cannot be success without the Purifier Father. They cannot go to the pure world, the land of peace. The Father comes here and gives you shrimat to purify you. The golden age is called the *viceless* world. This proves that those who go to the golden age would definitely be pure; there are pure beings in the golden age. Even in the land of peace, souls are pure; it is only in this kingdom of Ravan that everyone is impure. Everyone has to take rebirth. Souls in the golden age also take rebirth, but they don't take rebirth through lust. That is the completely viceless world. Although the silver age is two degrees less, it is not called vicious. They say: God Shri Rama and Goddess Shri Sita. It is first 16 celestial degrees and then 14 degrees. It is the same for the moon. This proves that no one can go into liberation or liberation-in-life until the Purifier Father comes and purifies you. Only the Father is the *Guide*. There are many who are pure in this world. People believe in the sannyasis because of their purity. However, they don't become pure through the Father. You children now know that the incorporeal Supreme Father, the Supreme Soul, purifies you. Those people become pure through their own dictates, whereas you become pure through the Father. You receive the inheritance of the pure world from the Purifier Father. Therefore, the Father says: O children, lust is your greatest enemy. Conquer it! It is because of this that everyone falls. They never write, "I dirtied my face by becoming angry." It is because of lust that they write, "I fell and dirtied my face." Only you children know about these things. The world doesn't know them. According to the *drama*, those who have to become Brahmins will continue to come. There is no *aim* or *objective* in other spiritual gatherings. There are many *followers* of Shivananda etc., but, in those too, there would only be a few who take up renunciation. Householders don't take up renunciation. There are only a few who renounce their homes and families. They become sannyasis, but they do have to take rebirth. You wouldn't say of Shivananda that he merged into the light. You understand that the Bestower of Salvation for All is the Father. He is also the *Guide*. No one can return home without the *Guide*. You children know that your Father is the Father, the *knowledge-full* One and also the Seed of the human world tree. Only the Seed would have the *knowledge* of the beginning, the middle and the end of the human world. Everyone speaks of the *Father*. You children know that only the One is *God*, your *Father*, and so that *Father* would have mercy for everyone. There are so many human beings. There are so many insects etc. There, there are few human beings and so there must also be fewer species of everything. There isn't any rubbish in the golden age. Here, there are so many types of illness that continue to emerge for which they also continue to invent new drugs. According to the *drama plan*, they continue to acquire many types of skill. All of those skills belong to human beings, but what is the skill of the Father from beyond this world? It is said to the Father, "O Purifier, come and purify us souls!" They speak of the pure body. They only call the One the Purifier, the Remover of Sorrow and the Bestower of Happiness. Everyone definitely remembers Him in their own language. When a person is about to die, he remembers God. He believes that no one else will give him support and this is why he is told to remember *God*, the *Father*. *Christians* also say "Remember *God*, the *Father*." They do not say, "Remember Christ." They know that *God* is higher than Christ. The *God* of all would be One. You children now know what the land of death is and what the land of immortality is. No one else in the world knows this. They say that both heaven and hell exist here. Some think that the golden age and the kingdom of the deities did exist.

Even now, so many new temples continue to be built to them. You children know that no one, apart from the one Father, can purify us and take us back to our home. It is in your intellects: We are going to our *sweet home*. The Father is making us worthy of being taken back home. You should be aware of this. The Father explains: You children have taken this many births. Now, from shudras, we have come and become Brahmins and then, from Brahmins, we will become deities. We have to go to heaven. It is now the confluence age. The topknot of the Brahmins is very well known in the variety-form image. Hindus also have the symbol of the topknot. Human beings are human beings. The Khalse (Sikhs) and Muslims etc. have similar features and you therefore can't tell them apart, but you can distinguish between some nationalities, such as the Chinese and the Africans, from their features. *Christians* have a *connection* with Bharat and so they have learnt from them. There are many *varieties* of religion. Their customs and systems and way of dressing are all so different. You children have now received knowledge. We are establishing the golden age. There was no other religion there. Those of all *varieties* of religion are now present. Now, what other religion would be established at the end? Yes, new souls are pure and so there is some praise of such souls. The conscience says that those who come at the end would definitely receive happiness first and praise and then experience sorrow. They just have one birth. Just as you stay in the land of happiness for a long time, so they stay in the land of peace for a long time. There will continue to be a lot of growth until the end. The tree is very big. At this time the population of human beings has grown so much. This is why they are trying to find ways to control the population. However, nothing will be achieved through that. You know that, according to the *drama plan*, the population has to grow. New leaves will continue to come, and then the branches and twigs will continue to emerge. There is so much *variety*. You children now know that you don't have any other *connection*. Only the Father purifies you and tells you the news of the beginning, the middle and the end of the world. You also call out to Him: O Purifier, come and purify us. Therefore, the impure world will definitely be destroyed. There is this account. There are very few human beings in the golden age, whereas there are so many people in the iron age. You children have to explain that the Father is teaching you. This old world is now to be destroyed. Only the Father would carry out establishment. God speaks: I inspire establishment. Destruction takes place according to the *drama*. There are these images in Bharat. Look how many mouth-born Brahmins, the creation of Brahma, there are. Other brahmins are created through the womb; they don't even know the Father. You now have enthusiasm. You know that the iron age is to be destroyed and that the golden age is to come. This is the sacrificial fire of knowledge of Rudra in which the horse is sacrificed (for the kingdom.) The old world has to be sacrificed into it. There is no other sacrifice to be made. The Father says: I have created this sacrificial fire in which the horse is sacrificed for sovereignty. It is created over the whole world. This is a yagya-kund (a sacrificial fire vessel and also the area around it which is considered to be sacred). The whole world is to be sacrificed into it. People create yagya-kunds. This whole world is a yagya-kund. What will happen in this yagya-kund? Everything will be destroyed in this. This vessel will become pure and new. Deities will then come here again. The ocean exists all around and the whole world will become new. There will be a lot of upheaval. There is no place that doesn't belong to someone. Everyone says, "This is mine." All human beings who say "Mine, mine" will be destroyed and only the few I purify will remain in the whole world. At first, there will be the original eternal deity religion. Their kingdom will be by the banks of the River Jamuna. All of these things should sit in your intellects and you should also have happiness. People sit and tell one another stories. This too is the story of the true Narayan; it is an unlimited story. These things are now in your intellects. In this too, the intellects of those who are very good and *serviceable* are able to imbibe this. Their aprons will become full and they will continue to donate. This is why it is said: Wealth doesn't diminish by donating it. It is said that by making a donation it will increase. Your wealth is imperishable. Your wealth will not finish by giving it away. The more you give away, the happier you will feel. At the time of listening to this knowledge, some people nod in agreement. Some just sit there like crazy people. The Father tells you such good *points*, and so, while listening to Him, you *automatically* nod your heads. You children come here in front of the Father to be *refreshed*. The Father sits here and gives you *points* very tactfully. You know that there was the kingdom of deities in Bharat. Bharat is called heaven. It is now hell. Hell will change into heaven and everyone else will be destroyed. For you, heaven is just a matter of tomorrow. Yesterday, you used to rule. No one else can say this. They say that so many years before Christ there was *Paradise*. There was no other religion at that time. All other religions come after the copper age begins. This is a very easy thing to understand. However, the intellects of people are not pulled in this direction for them to be able to understand. They call out: O Purifier, come! Therefore,

He would surely come and purify the impure. No one can be pure here. The golden age is called the *viceless world*. It is now the *vicious world*. The main thing is purity. You have to make so much effort for this. You know that whatever has happened up to now is said to be according to the *drama*. We cannot say that what happened to someone was good or bad. Whatever happens is fixed in the *drama*. The Father explains to you for the future: Don't perform such-and-such actions in *service*. Otherwise, there will be *disservice*. Only the Father would tell you that you have become salt water with each other. You understand that you become like salt water when you don't meet or speak to one another and that when any of you is told something you become upset. You even forget Shiv Baba! This is why you are told: Always remember Shiv Baba. The Father cautions you children. By your performing such actions, you become degraded. However, if it is not in your fortune, you don't understand. Then they even sulk with Shiv Baba from whom they receive their inheritance. They sulk with their teacher and also with Shiv Baba and no longer come to *class*. You should never sulk with Shiv Baba. You have to study His murli and also remember Him. Baba says: Children, consider yourselves to be souls and remember Me and you will attain salvation. By becoming body conscious, you sulk with bodily beings. You receive the inheritance from the Grandfather. Only when you belong to the father can you receive the Grandfather's inheritance. If you divorce the father, how can you receive the inheritance? When you leave the Brahmin clan and belong to the shudra clan, the inheritance is finished for you. The *adoption* is then cancelled. Even then, some of you don't understand. Maya is such that she makes you go completely crazy. You should remember the Father with so much love and yet you don't remember Him. I am a child of Shiv Baba and He is making me into a master of the world! He definitely takes birth in Bharat. People celebrate the birthday of Shiva. The *history* and *geography* of the *world repeat*. Therefore, first of all, Shiv Baba has to come and create heaven. You know that you are receiving the sovereignty of heaven. Only the Father comes and makes you into residents of heaven. He teaches you Raja Yoga for the new world. You go and rule in the new world. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.
