

**Essence:** Sweet children, you now have to become *lighthouses*. In one eye, you have the land of liberation and in the other, the land of liberation-in-life. Continue to show everyone the path.

**Question:** What is the way to accumulate an account of an imperishable status?

**Answer:** Constantly spin the discus of self-realization in your intellect. While moving around, remember your land of peace and your land of happiness. Then, on the one hand, your sins will be absolved and, on the other hand, your account of an imperishable status will accumulate. The Father says: If you want to become a *lighthouse*, have the land of peace in one eye and the land of happiness in the other eye.

**Song:** Awaken, o brides, awaken! The new age is about to come.

Om shanti. You sweetest children heard the sweet song, but the singers must be from the *film* world. Whatever they sing about, whether it is knowledge, deities or God, it is all wrong. This is called the upside-down world. Allah (God) sits and explains that you were dangling on the gallows of Maya. Maya has made all the children like bats (*ullu*); she had made everyone dangle upside down. The Father comes and makes the children sit the right way up. The song is very beautiful. Who is saying “Awaken, o brides awaken”? No one can say to the brides of the whole world: “Awaken, o brides! The new age is about to come.” There cannot be a single human being in the world who knows this. Maya is such that, no matter how much you explain to them, they do not understand. You children know that the new age and the new kingdom of deities are now being established. You also understand that the golden age definitely has to come after the iron age. This proves that God has to come for the devotees. Devotees desire to meet God, so it has to be understood that God will definitely come. For half the cycle devotees have been desperate to meet God and so God must give something in return. The devotees know that God grants liberation-in-life. Only that Purifier will purify everyone. You children have come to know when it is that all souls become pure. You remain pure in the golden age when all other souls are living in the land beyond sound. You come into the pure age. There is no age in the land of nirvana; that is beyond these ages. Such things are in the intellects of you children. We definitely live in the supreme abode. The ages are here. The terms ‘golden age’ and ‘silver age’ are used here. Destruction too is remembered. They also show the Trimurti (symbol of the Indian Government). Underneath the Trimurti, they write: Victory in Truth. This is the spiritual *government*. The *non-violent* Shakti Army is also remembered, but only in name. You should also have a *coat of arms*. You can write underneath the picture of Brahma, Vishnu and Shankar: Victory in Truth. It should enter the intellects of you children that we are the children of the Pandava *Government*. Others consider themselves to be children. So, it should enter your intellects how to create the *coat of arms*. This is the world of *blind faith*. Whatever they see, they say it is God. So, that is *blind faith*, is it not? People say that God is in every particle. In fact, all human beings have their individual *parts* to play. A soul adopts a body and plays his *part*. It cannot be said that everyone is God. Does that mean that God is someone who fights and quarrels? That is 100% blind faith. When a new building is built, it is said that it is 100% new. An old one would be said to be 100% old. Bharat was new, but the world has now become old. There are innumerable religions. The contrast is like that of day and night. Surely, there was nothing but happiness in the golden age, where the deities ruled the kingdom. Now, in this world, there is nothing but sorrow. You will see as you go further how much sorrow there will be. It is said that there is death for the prey and joy for the hunter. They have simply written this, but they don’t understand anything. No one has mercy when killing another human being. The *police* can file a *case* against anyone who does something like that. Look how they kill one another by inventing *bombs* etc! Every day they write that so many have died in such and such a place. It doesn’t enter anyone’s intellect to file a *case* against them. You now understand that this is the old, sinful world. The golden age is the new world. No one causes sorrow for anyone in the golden and silver ages. The very name is the golden age, *heaven*, Paradise. People also study this in *history*. There was limitless wealth there which was *looted* from the temples. How wealthy those who built the temples would have been! They show golden Dwaraka; they say that it sank beneath the sea. You understand how this cycle of the *drama* rotates. The golden age goes below and the iron age comes up. This cycle continues to rotate. You also have the knowledge of the cycle. Many people come up with the idea of a cycle, but they don’t know its duration. No one can tell you about the *real* cycle. The whole cycle is in your intellects. This is why it is said: Continue to spin the discus of self-realization and your sins will be absolved. These are matters of knowledge. You understand that when you spin the discus of self-realization, on the one hand, your sins are absolved, and, on the other hand, the account of your imperishable status accumulates. Even then, some say: We forget to spin the discus of self-realization. The Father says: You have to become

*lighthouses*. A *lighthouse* shows the way for others. In one eye there is the land of peace and in the other eye there is the land of happiness. You are now sitting in the land of sorrow. You are *lighthouses*. Your mantra is Manmanabhav and Madhyajibhav, the land of peace and the land of happiness. You show the path to others. You continue to spin this cycle. Even while moving around, let the land of peace and the land of happiness remain in your intellects. When you are in such a stage, it is then possible for others to have a vision. In fact, as soon as they come in front of you, they can have a vision. Our work is here; there is nothing to do there. Therefore, you children should now *practice* this. We are the *lighthouses* who show the path. We are now in the land of sorrow. This is easy to understand. To be a *lighthouse* and to spin the discus of self-realization are the same thing. However, there are *details* in this (in spinning this discus of self-realization). There are two aspects: the land of happiness and the land of peace. Alpha is the land of liberation and beta is the land of liberation-in-life. It is very easy. The place from where we souls come is the land of peace. *Scientists* and those who believe in *nature* will not understand these things, but those who believe in the deities will. It is very good to go to the Lakshmi and Narayan Temples. They were the masters of the golden age, the land of happiness. Now it is the iron age. They too were human beings. It was the kingdom of Lakshmi and Narayan. Ask people: Have you ever listened to the Gita? Those who go to a Lakshmi and Narayan Temple or a Radhe and Krishna Temple must also listen to the Gita. Those who have love for Krishna must also have love for the Gita. Those who go to a Lakshmi and Narayan Temple would not think about the Gita as much. They understand that Lakshmi and Narayan were in Paradise. Now it is hell. The Father comes into hell; He comes and establishes heaven. The Father says: Remember Me. Remember the land of peace, remember the land of happiness and your boat will go across. First, you definitely have to go home. OK, if someone believes in Shri Krishna, tell him: Krishna was in the golden age. Remember that new world. Break all your connections with this old world. You definitely have to become pure. There is no one impure there. You should create some type of method. Children write: There is very little *service* here, it is very slack. The Father says: There is slackness in the children! A great deal of service can be done. There are many temples. The Father says: Give knowledge to my devotees. You also used to be devotees. Now you are becoming the masters of the land of Shri Krishna. Remember the land of Krishna, Paradise. The kingdom of Rama is not called Paradise. Only the kingdom of Lakshmi and Narayan can be called Paradise. When you explain, they will say: It is right. There is a great deal of knowledge in these pictures. Those who look at these pictures with attention will instantly bow to them. They will not bow to you but, in fact, they should bow to you because you are going to become those. This is why the Brahmin clan is the most elevated. You make effort and become such deities. First, you are God's children. This period of time is praised. If people were sensible, they would celebrate the *birthday* of Lakshmi and Narayan. However, they don't know anything about it. They simply go to Lakshmi to ask her for wealth, but they should at least understand their horoscopes! They don't even know when they came. They show Vishnu with four arms; that is the *combined* form of Lakshmi and Narayan. They worship Lakshmi and Narayan, yet they don't know their life stories. What were they the masters of? They are not the masters of the subtle region; that is not called the land of Vishnu. There is no world (as on earth) in the subtle region. The kingdom of Lakshmi and Narayan is called a world, then there is also the world of Rama and Sita. However, nothing else is shown about Radhe and Krishna. Those of Islam and the Buddhists come in the copper age. Therefore, you children have to explain in *detail*. People also remember heaven. When someone important dies, they say that he has gone to Paradise. So, surely, he was in hell because this is why they say he has gone to heaven. At this time all are impure residents of hell. They have so much intoxication! They show that they are millionaires, but all are residents of hell. The residents of hell bow their heads in front of the residents of heaven. Only you children can explain this accurately. You are the children of Janijananhaar (the Knower of all Secrets). The *details* of the whole cycle keep spinning in your intellects. However, when you return home and see the faces of your relatives, you forget everything. This is why they have *hostels* in *colleges*. You also have a *hostel* here. Here, you remain busy studying. Your intellects are not pulled by mundane business. You talk to other *students* about things of knowledge; to stay in a *hostel* makes a lot of difference. You should come to the Father quite often to be *refreshed*. Don't think you will have to give a donation in return. Such ones are considered to be foolish. Baba is the Bestower; never have the thought that you are giving to Baba. Only *serviceable* children should come here to be *refreshed*. You children come to Baba. It is not that you come to a sage or a mahatma and that you have to give a donation. Never have the thought that you have to give a donation. When daughters come, do they have money? They receive everything from their place of *service*. Those who want to make their fortune

make effort. All others just make excuses: I have a job etc. You can get leave. You can make some excuse to get leave. That is not telling lies. There is no one as honest as Baba. However, children don't value the Father that much. You receive such a huge treasure. Baba is not far away. Wherever you live, you can come to be *refreshed* for your own progress. By being *refreshed* you can also bring benefit to many. You have to do *service*. Here, there is the strength of the power of yoga, whereas that is physical power. Here, there are no weapons etc. Do not cause sorrow for anyone. Show everyone the path to happiness. The contrast between the iron age and the golden age is like that of day and night. Ravan's kingdom continues for half the cycle. You children are going to establish the land of happiness. Never speak harsh words. If you hear anything like that, you must not pay attention to it. If you listen to something like that, you too would then start to speak in that way. Even a trace of anger causes great damage. To get angry with someone means to cause him sorrow. The Father says: If you cause anyone sorrow, you will die experiencing sorrow and you will have to endure a great deal of punishment. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for dharna:**

1. Have regard for the Father and the study. Create methods to *refresh* yourself from time to time and become an instrument to bring benefit to many.
2. Talk only about things of knowledge among yourselves. Remove any trace of anger. If you hear anyone speaking harsh words, just ignore it.

**Blessing:** May you be completely pure and give the experience of spiritual *royalty* through your face and your activity.

The *foundation* of spiritual *royalty* is complete purity. Complete purity is *royalty*. The sparkle of this spiritual *royalty* is visible in the form of a pure soul. This sparkle can never remain hidden. No matter how much someone keeps himself incognito, the influence of his words, relationships and connections and spiritual interaction will reveal him. Each one should look in the mirror of knowledge and see: Is that *royalty* visible on my face and in my activity or is my face and activity ordinary?

**Slogan:** To remain constantly having God's sustenance is to be fortunate.
