

**Essence:** Sweet children, become Godly helpers and, like the Father, do the service of making the devilish *society* into the deity *society*. Be interested in doing *service*.

**Question:** Many children are unable to forget the old world even though they try to forget it. What is the reason for this?

**Answer:** Their karmic bondages are very severe. If you are unable to connect your intellect in yoga to the new world because your intellect is repeatedly running to the old world, then it is said that it is not in your fortune, that is, your actions are wrong.

**Question:** What taste should you develop so that you cannot stay without doing *service*?

**Answer:** A taste for being merciful. Only those who have tasted knowledge know how to be merciful. Merciful children cannot stay without doing *service*.

**Song:** You are the Ocean of Love. We thirst for one drop!

Om shanti. You heard the words, "You are the Ocean of Love". You children know that the Father is the most loved of all. When you remember the Father, you also remember the inheritance. Those who remember the Father and have that faith would definitely be happy. In fact, when people go to a Shiva Temple, they call the Shivalingam there Shiv Baba. So, why don't they have that much happiness? They also offer milk, fruit and flowers to the Shivalingam. You don't need to offer milk etc. Incorporeal God is the Father, is He not? The God of devotees is also the Creator. It is remembered that He created this human world. Although they do so much devotion of Him, their mercury of happiness doesn't rise as much as that of you children. You have goose pimples as soon as you hear God's name. It enters your intellects that you receive from the Father the inheritance of His home and also His property. A son takes birth in his father's home. There cannot be any change in that. Among the *property*, there can be factories and land etc. here and there. Although a house is also part of his property, his other *property* can be exchanged. The house is called a fixed asset and the rest of the *property* can be called movable property. You children know that you become the masters of the Father's home and that this can never change. There cannot be any change in the *sweet home*, but kingdoms change so much! One is fixed and the other is movable. The land of liberation is fixed. There is change here. From the sun dynasty, you change and become the moon dynasty and then the merchant dynasty. There is liberation and liberation-in-life. You children become the masters of the Father's *property*. You know that everyone becomes a master of the Father's fixed *property*. However, children receive the movable property, numberwise. We receive the maximum, best *property* of all. You rule the kingdom in heaven. Out of the four ages, the main clan is the Bharatwasi clan of Brahmins, who belong to the deity religion. Not everyone goes around the whole cycle. Those from this religion who have been *converted* to other religions will emerge. Many who have been *converted* to *Christianity* and *Buddhism* will emerge again. Many have been *converted* in this way. It can be seen that such a time will come when everyone will return to their original religion. Anyone can understand this *knowledge*. It is a *common* thing to understand this world cycle. No matter how much of a *dull head* someone is, at least this much enters the intellect. It isn't that you become full of all virtues by knowing the world cycle. No, this is a study. That is a limited study whereas this is an unlimited study. Only your intellects have the knowledge of how the cycle turns. All other religions come later. This *knowledge* is very easy. Some are hardly able to understand it. However, you have to become yogi to that extent. Everyone remembers Him. You know the world cycle, but you also need to have that stage. It requires very good effort to become full of all virtues; one obstacle or another emerges. You yourselves sometimes say that you don't have the virtue of speaking sweetly. You have to make effort. The *aim* and *objective* is straightforward. Baba told you last night that you can write that you are studying Raja Yoga once again exactly as you did 5000 years ago. Whenever you hold an exhibition or a *projector* show, you must definitely write this *wonderful* thing, that you are once again showing them this method of studying Raja Yoga through the exhibition exactly as you did 5000 years ago. The Father says: You are making this effort according to shrimat exactly as you did 5000 years ago. They say that the duration of the cycle is hundreds of thousands of years and that the iron age is still in its infancy. You say that you are making effort like you did 5000 years ago to claim the status of your deity self-sovereignty. Then, people will be amazed at what you have written. If they say that it is hundreds of thousands of years since the golden age, ask them where that much deity population is. The population of Hindus is less; Hindus have been *converted* to other religions. So many Hindus have become Muslims. They are called Sheikhs. There are many of them. Some don't even believe that they belong to the original eternal deity religion. They speak of the original eternal Hindu religion. However, the Hindu religion is not the original and eternal religion. You can even have these things printed in the newspapers.

It is not a question of putting them in *magazines*. There must be hundreds of thousands of papers being printed. Yes, they do charge a lot of money for that. When you explain to them, they may print it. They may even print the cycle. You can even print in the papers the question that Baba has asked: Is the God of the Gita Krishna or Shiva? Sometimes, they would print it at a cost and sometimes they would even print it *free*, at no cost. Have this printed in the main, important newspapers. However, only when this is printed every day will people's eyes open. If you just print it once, some may read it and others may not. By it being printed every day, people's eyes will open. They will then come to understand knowledge. It requires hard work to make effort. Many storms of Maya come. It does require effort to print something in the papers and hold exhibitions. An exhibition takes place in just one village, whereas the papers are distributed everywhere. Baba thinks about these things throughout the whole day. He has to speak about what can be done and how *service* can be made to progress. You children are the true helpers of God. To help *society* is also to serve them. You children know that all of those *societies* are impure. They now have to be made into divine *societies*. The *society* of the whole world has to be made to reach heaven. The boat of the whole world is sinking. The world was heaven at first and it has now become hell. How does this cycle continue to turn? This is the *drama*. When there is heaven, hell doesn't exist. Where does it go? Down below. The *drama* has to turn again. This is a living *drama*. Every *act* that takes place, *second by second*, is in your intellects. Others cannot understand anything. If they were to understand the *drama*, they wouldn't be able to say that the cycle is hundreds of thousands of years long. The swastika is also absolutely accurate. They even worship the swastika, but they don't know what it is. It doesn't have any meaning. Therefore, you have to explain this cycle to them. This cycle continues to turn around in your intellects. You say that you are changing from human beings into deities, from an ordinary man into Narayan. This is Raja Yoga. You have the picture of the Trimurti in your intellects throughout the whole day. Through Brahma, you receive the kingdom of the land of Vishnu and, through Shankar, this devilish world is destroyed. Simply let your intellects have these thoughts. You have to remain very happy. Baba is having a *locket* made with which you can explain very easily. You can even have these pictures - the Trimurti and the cycle - printed on *bags*. The picture of Lakshmi and Narayan has everything else and it also explains about Krishna. These things are not in the picture of the cycle. How many things could be shown in the one picture? This is why that is explained separately. Baba's intellect works the whole day on how they make very good temples to Lakshmi and Narayan and also to Krishna, but no one knows who Lakshmi and Narayan are or who Radhe and Krishna are. You have now received so much *knowledge*. Therefore, you should remain very happy. You can go anywhere and do *service*. You can even go to Shrinath Dware and explain there. Explain to the *trustees* of the temples there. Take a *casket* (Shiv Baba's light) with you, put it on and explain to an important person and he will be very happy. He would think that God Himself has adopted a form and is explaining to him. Some children have a very keen interest in doing *service*, but they don't go to eminent people. You can go anywhere and meet such people. There is no question of expense etc. At first, they would think that you have perhaps gone there to receive something from them. You should create many methods for *service*. Otherwise, *time is wasted*. Each one of you has to ask your heart. You have to be very merciful and benefit many people. If you haven't tasted knowledge, there won't be the taste for being merciful. Otherwise, you children can do very good *service*. Baba shows you many methods for doing *service*. As soon as you hear them, you should run, that is, if you have time. You should have a keen interest in doing *service* for only then will you be able to claim a high status. You can do very good *service* using the pictures of the Trimurti and the cycle. You can even explain to the *foreigners* who come here. This *knowledge* is so good! This is the *knowledge* of the *history* and *geography* of the *world*. Sannyasis go abroad to give people the *knowledge* of Bharat's ancient Raja Yoga, but they are unable to give it. You have all the *facts* and *figures*, but you need to have courage to explain them. You can show all the pictures with the *projector* and give them *knowledge* and that will be very good. Abroad, too, you can give very good *knowledge* with the *projectors*. People will become very happy when they hear it. Where is Christ now and when will he come again? They will know this. They will at least take the knowledge of the cycle of the *drama*. If you have a *projector* with you, you can do very good *service*. No one can forbid you to do this. You can explain to anyone. Take all the *slides* with you. It would be better if they were in English. You also have to make effort. If the intellect's yoga of everyone is connected to Shiv Baba, establishment will take place very quickly. The Father continues to explain to you according to the *drama plan*. He continues to give you directions. Those who receive these things have to be very sensible, clever and wise. The writing on the *slides* has to be very *clear* so that people can read it. It should be in both Hindi and English.

You also have to make them in the Urdu and Madrasi languages. Then it will be easy to explain anywhere with the *projector*. You have to do *service* to make others similar to yourselves for only then can you hope to claim a good status. If not, what status would you receive? Poor people are very unhappy. When you give them the Father's introduction, there is happiness. Some have never even seen Baba and they write letters to Baba: Baba, I will definitely claim my inheritance from You. There are so many in bondage. Only when your name is known and your impact spreads everywhere can they become free. You have to liberate from jail those who are your equals. If you don't do *service*, what status would you receive? At the end you will have visions of everything. You will then remember all the wrong deeds you have done. The Father will continue to give you visions of what *disservice* you did after belonging to the Father. There will then be repentance. Therefore, the Father continues to explain that you should remain very well occupied in *service*. Baba needs very good daughters who can do *service*. You should think about how you can help in Baba's *service* so that your sovereignty is quickly established. There should be an interest in doing *service*. *Serviceable* children have to beat their heads so much to make those with stone intellects into those with divine intellects. This is not a small thing. Nevertheless, you children should have so much happiness that you are once again claiming your inheritance of heaven from Baba. However, this is incognito. The account of karmic bondage is so severe that you don't even forget the old world. The yoga of your intellects hangs on to worthless things; they don't connect to the new world. That is called wrong actions. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for dharna:**

1. Serve to make others similar to yourself. Don't perform such wrong actions that there would have to be punishment. Make effort to become very, very sweet.
2. The Father is making us into the masters of the fixed and movable *property* (liberation and liberation-in-life). Maintain the happiness and intoxication of this.

**Blessing:** May you be a *master* almighty authority who makes all your physical senses function under *law* and *order*.

A *master* almighty authority Raj yogi is one who, as a king, makes his subjects – his physical senses – function under *law* and *order*. Just as a king holds court, in the same way, you also have to hold court of your kingdoms workers – your physical senses – every day and ask them about their welfare and make sure that none of the workers are causing *opposition* and that they are all under *control*. Those who are *master* almighty authorities cannot be deceived by even one of their physical senses. When you say “*Stop*”, they should *stop*.

**Slogan:** To use all your powers at the right time is to be a *master* almighty authority.
