

**Essence:** Sweet children, you have the faith that you are studying at the confluence age in order to earn an income for the future. The Father teaches us and gives us an inheritance for 21 births.

**Question:** What is the way to have mercy and blessings for yourself?

**Answer:** In order to have mercy and blessings for yourself, continue to study the Father's knowledge every day. Never become careless in studying by being influenced by bad company. Those who constantly follow shrimat have mercy for themselves. They also continue to receive blessings from the Father.

**Song:** I am a small child; You are Almighty God.

Om shanti. God Shiva speaks. When people relate the Gita, they always say, "Corporeal God Krishna speaks." The Father comes and explains that He is now enabling us to claim the kingdom through this Raja Yoga and knowledge. Krishna was a *prince* of the golden age. This is the main mistake in the Gita. You children know that God Shiva is teaching us through this body. The birth of Shiva is also remembered. A birthday is always celebrated. Only the one name 'soul' has continued from the beginning. The Father says: I do not take birth through a womb; I incarnate in an ordinary body. When a soul enters a body it moves inside and makes a sound. You can then know that a soul has entered the womb, for the *organs* of the baby begin to move. This has to be understood very clearly. All other human beings who relate something never say, "I, the soul, am explaining to you." They are known by their bodies, whereas Shiv Baba is without a body. He doesn't have a body of His own. No bodily being can ever be called God, no matter whether he is a physical or a subtle bodily being. The soul remembers the Supreme Father, the Supreme Soul, through these *organs*. Those people sit and relate the scriptures written by human beings. Here, this is a new aspect. God speaks. Who is God? The One whom all the devotees remember by saying, "Oh God!" They know the names of Brahma, Vishnu and Shankar. They call out, "Hey Brahma!" "Hey Vishnu!" They are deities. When you speak of God, you remember the incorporeal Being. They sing praise of the incorporeal Supreme Soul. He says: I too am a soul, but I am the *Supreme*. People create an image of Me and they also create images of you souls. They place a large oval image in the temples as well as small saligrams (oval images) to represent souls, children of the one Supreme Father, the Supreme Soul. A father is always senior to the children and this is why they create a large oval image. In fact, I am not a big saligram. Souls are no bigger or smaller in *size*, but human beings are big or small. My soul is just the same as you souls. However, My soul is the Supreme. I reside in the supreme abode, the land beyond. The highest-on-high supreme Father is the Seed of the human world tree. The Creator is called the Seed. Just as a non-living seed is sown and a plant emerges from it, in the same way, look what the form of a soul is! The body is so large. The first new aspect is that, the Father, the Supreme Soul, is here teaching you. The versions of God, the Highest on High, are the highest on high, and so the exams would also be the highest on high. God says: I teach you Raja Yoga through which I make you into deities for your future 21 births. Then you can become part of the sun dynasty or the moon dynasty. There is a variety of status. The whole kingdom is being established. This is the confluence age. The Father explains that you are not studying for this birth. This income is for the future. Whatever everyone else does is for this birth. People think: Why should we think about the future now? We will see what is to happen. You children have the faith that you are studying for your many future births. The Father is giving you your inheritance for the future 21 births. You are studying with this faith. No one without faith can sit here. Here, it is not a pundit etc. who is teaching you, but it is incorporeal God who is teaching you. The soul experiences happiness that the unlimited Father is teaching him. He does not have His own human body. I, the incorporeal One, have to enter this body of Brahma. This *drama* is eternally predestined. You remember everything with your intellect. We souls reside in the incorporeal world. It does not enter the intellects of any human beings that souls reside with the Father in the supreme abode, the place that is also called Brahmand. We souls are very tiny *stars*, but they have created large images in order to worship them. Such a big soul would not be able to sit in the forehead. However, there is a wonderful star sparkling in the centre of the forehead. A *star* is so tiny! This *drama* is predestined - the eternal *drama*. Each soul has his own imperishable *part* recorded within him and each one *repeats* his own *part*; there cannot be the slightest difference. Once a *part* is recorded in a *film*, it *repeats*. There cannot be any mistakes in that. These aspects are completely new. A handful out of multimillions understand them. Even those who have been studying for eight or ten years stop studying; they become influenced by bad company. This study is such that you have to continue to drink the nectar of knowledge for as long as you live. This study will continue until the end. I am teaching you this study now for your future 21 births. You children have the intoxication that God is teaching you. If

a child of a king is being taught by the king himself, the child would say, "My father, the king, is teaching me." Here, it is the Purifier Father who is teaching us. He is teaching us Raja Yoga. You should constantly have internal happiness. We *Godly students* are claiming the sovereignty of heaven from *God, the Father*, the Supreme Father, the Supreme Soul. This is such an easy aspect! However, there are many obstacles created by Maya in this study. While moving along, some leave the study. You should study this spiritual knowledge every day. These *tapes* have been provided for this. People even go to *America* or *London* in order to study. Here, those who live at home do not study fully. They do not understand that the Supreme Soul is teaching them Raja Yoga. Look how much praise there is of God, who is the Master of the Three Worlds, the *World Almighty*, the *Liberator* and the *Guide*! However, even among you, only some rare children understand the Father. At this time you are incognito. You know that you are residents of the incorporeal world. Then there is also the subtle region. Children go to that subtle region. People have visions, whereas you actually go there. You Brahmins meet the deities in the subtle region. That is the confluence of Brahmins and deities and this is the confluence of Brahmins and shudras. You take bhog there. At the end, you will have many visions. Just as when a kumari goes from her parents' home to her in-laws' home and they beat drums with a lot of pomp, in the same way, you will have many such visions at the end. You saw a lot in the beginning and you will also see a lot at the end. Only if you continue to study will you see these visions. If someone doesn't have any karmic bondages, he should pay full attention to the study. When someone's relative dies, it is understood that he will be able to study very well because he has been liberated from his bondage. You must now make a lot of effort and claim a good status. This *knowledge* is very *wonderful*! The Father sits here and explains to the children. He says: Children, don't be careless! Maya will very quickly extinguish your light. This is why you have to remember the Father very well and also study. While you are sitting here, you become intoxicated by listening to Baba *directly*. As soon as you go outside, the intoxication disappears. As is the company, so you are coloured. If you have no bondage, you can study and also teach others. Many good pictures have been created. Baba is creating methods so that the villagers can learn all of this. They can even learn through the *slides*. Day by day, there continues to be *improvement*. The discus of self-realization should turn around in your intellects throughout the whole day. Only if it is in your intellects will you be able to explain to someone. Otherwise, the *Teacher* can understand that you do not pay any attention to studying and that you have a lot of body consciousness. You have the consciousness of friends, relatives and your own body etc. This is why you're unable to imbibe knowledge. Then it would be said that it is not in your fortune. No matter how much you beat your head, they do not follow shrimat. Some children ask: Baba, what happens? Baba would say: You are not studying well. There is no question of giving blessings in this. I am teaching you and so you should have mercy for yourself and study. To follow shrimat is to have mercy for yourself. If children do not follow shrimat, it means that they do not have mercy for themselves and that they curse themselves. Instead of claiming their inheritance from the Father, they follow the dictates of Ravan and curse themselves. The Father has come to give you your inheritance. He gives you the blessing: May you have a long life! May you live for ever! That is, may you become a resident of heaven! Only heaven is called the land of immortality. Only the Lord of Immortality can give you such blessings. The deities of the land of immortality were pure. Definitely renounce your attachment to limited relations. You now have to go to Baba. Baba says: You remember all of them because of attachment to their bodies. This is why you now have to become soul conscious so that, at the end, you will remember the land of liberation and the land of happiness. There is the land of peace, the land of happiness and this land of sorrow; the beginning, the middle and the end; the new world, the world in the middle and the old world. When half the time has passed, the name 'old world' begins. This old world is now being made new. Come and see how it is being made new once again. Come and understand. However, only a handful out of multimillions pay attention and understand this. Hundreds of thousands come here, but only two or four emerge from them and, even then, they become slack! If even two or four emerge from an exhibition and stay, it is great fortune. Day by day, this exhibition will expand. As you progress further, even 10,000 will come every day. There will be big *halls* and big pictures, and those who explain will be very clever. You will be praised at the end. They will say: O Prabhu! Your ways of making the impure world pure are unique! Their habit of devotion is very deep. If they become bankrupt or if someone dies, their guru would tell them, "Look, this happened because you stopped performing devotion." There are obstacles created by Maya. You must not stop following shrimat. Maya is very attractive. People have become so *fashionable*! They think that this is heaven for them. This is the *pomp* of Maya, the *fall* of the kingdom of Ravan. Because of *science*, there is a

lot of pomp of Maya at this time. They think that Gandhiji created heaven. You have now received the knowledge of heaven, and so you understand that this is hell. This kingdom is like a mirage. (The example of Duryodhan.) This kingdom is about to end; it is a question of the cycle. The world becomes new every cycle and then the old world ends. There is also Trimurti Shiva. Establishment is being carried out through Brahma and destruction has to take place through Shankar. Then, those who study Raja Yoga will rule the world. They will establish the deity kingdom and sustain it for birth after birth. You have to imbibe this with your intellects and then do *service*. You are students of the true Gita. You have to listen to this knowledge and relate it to others. You are changing from thorns into flowers. You are being liberated from sorrow for half a cycle. Just as everyone has a holiday on Sunday, so, too, you become free from sorrow, weeping and wailing for half the cycle. Achcha

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

**Essence for dharna:**

1. Become free from your karmic bondages and study this spiritual knowledge every day. Definitely study for as long as you live.
2. Renounce attachment to your limited relations and your own body and remember your land of peace and land of happiness. Guard yourself from the influence of bad company.

**Blessing:** May you be one who embodies the determined thought to hoist the flag of the Father's revelation in your heart at every moment.

Out of love, everyone has the feeling in their heart to definitely reveal the Father. So, hoist the flag of revelation in your heart through your thoughts, words and deeds. Constantly perform the *dance* of remaining happy, not that you are sometimes happy and sometimes sad. Adopt such a determined thought that is, make a firm vow that you have to remain happy for as long as you live. "Sweet Baba, Lovely Baba, My Baba". Let this song *automatically* playing and the flag of revelation will begin to fly.

**Slogan:** In order to become a destroyer of obstacles, become full of all powers.
