

Essence: Sweet children, you have been shown the *right* path by the Father. Therefore, do not perform any wrong or sinful actions.

Question: At the present time, whatever thoughts human beings have are sinful. Why?

Answer: Because their intellects do not have any understanding of what is *right* and what is *wrong*. Maya has completely locked their intellects. Until the Father comes and gives the true recognition, all their thoughts are sinful. In the kingdom of Maya, even if they do have the thought of remembering God, their thoughts become *wrong* because they don't have accurate recognition of God. These are very subtle matters that have to be understood.

Song: Salutations to Shiva.

Om shanti. You sweet, sweet children heard the song. Your intellects have understood the accurate meaning of the song. Those who sing it don't know the meaning of it. You understand its *practical* meaning and are also inspired to make effort by the Father who is in front of you as your Helper. He becomes the Helper when there is a lot of sorrow. You children know that He is the incognito Helper of all human beings, that is, of all those who are now in this old world. There are many species as well and many varieties of animal. In the golden age, there will be no impure things or impure animals etc. This *drama* is predestined. Wealthy people definitely have the best quality homes and *furniture* etc. You can understand what the poor have. At present, the whole of the old world is Ravan's kingdom and all the insects, snakes, and reptiles etc. cause damage. Just as human beings are tamopradhan, so their materials are also tamopradhan. Even though people construct forty storey buildings, those are nothing compared to the golden age. They have only been built to be destroyed. You children know that Baba has come. The first thing that Baba explains is the difference between souls and the Supreme Soul. Human beings neither know the soul nor the Supreme Soul. You children now know what the form of a soul and the Supreme Soul is. They worship in the temples; they have a huge Shiva lingam in Benares which everyone worships. They even say that the soul, the *star*, resides in the centre of the forehead. If there were a large thing in the centre of the forehead, it would be like a *tumor*. These aspects have to be understood. The Supreme Soul is also a *star* but you forget. When you remember Shiv Baba it should enter your intellects that Baba is a *star* and that He has the whole knowledge within Him. He is the Truth and the Living Being. He also has an intellect. The mind is separate from the intellect. It is the mind that has storms. There are no storms etc. in the golden age. Here, people have ordinary and sinful thoughts. At this time, whatever thoughts human beings create, they are sinful. You have to understand these things very clearly. It is very easy to remember the land of peace and the land of happiness. The subtle aspects are also explained to you. The soul that is so subtle is the living being and the truth. Only when a soul enters the womb does the body start to move. In fact, even the five elements are living, which is why things are able to grow. However, they do not have a mind or intellect; there is no question of their thinking. The body grows in the womb. Just as a tree grows, so does a body, but it doesn't have knowledge. Knowledge and devotion are for human beings. It is the soul that does devotion and it is the soul that hears knowledge. It is the soul that has a mind and intellect and has good or bad thoughts. The intellect then decides whether to carry out those thoughts or not. Until the Father comes, all the thoughts that people have are sinful. Even though they remember God, only you can understand whether their remembrance is *right* or *wrong*. The element of light is not God. People have the thought of remembering God and their intellects also say that that is *right*. However, there are locks on their intellects because it is the kingdom of Maya. The devotion that people do is *wrong*. They worship Krishna but they have no recognition. Whatever they do is *unrighteous*. Your intellects have now received wisdom from the Father. You are forbidden to perform *wrong* actions. To perform a sinful action through the physical organs is forbidden. The intellect says: God is not omnipresent. The intellect has now found the *right* path. You have now received accurate understanding of everything. Whatever you used to do before, you were doing it *wrongly*. The devotion you did was also *unrighteous*. In order to worship Shiva, they make a huge lingam, but Shiv Baba is not that huge. Now that the locks on your intellects have opened, you understand that all of that is *unrighteous*. This world is false, whereas the golden age is the true world. Who established it? Only the one Father is called the *Truth*; everything He tells you is true. He speaks the truth and establishes the land of truth. These are very deep, *detailed* aspects that no one else can understand. You have to go into a lot of depth. The Father says: If you are not able to imbibe these things, just remember the Father and the inheritance and forget the land of sorrow. When people build a new home, their intellects' yoga is removed from the old and linked to the new. They understand that the old home is to be demolished. This is a matter of the unlimited. You have to leave everything including your body. That

body will not go with you. It is only the soul that has to return to the Father. The Father says: Remember Me as I am, what I am, and how every soul has a *part* recorded within him. Such a tiny soul has a *part* of 84 births recorded within him. It is *impossible* to have a *part* of 8.4 million births. Now that the Father has opened the locks on your intellects, you understand that all of that is *wrong*. What the Father tells you about such a tiny soul having a *part* of 84 births recorded within him is *right*. The Father only talks to the children. He is *knowledge-full*. They say: So-and-so has studied for the *ICS*. (Indian Civil Service). It is the soul that studies through his *organs*. Although someone may be important or rich, he can still become ill. It is not that an important person would have a longer lifespan. Poor ones do not commit as much sin as important people. There is nothing but sin in this world. This is the world of sinful souls. They commit sin with everything they do. When they feed brahmin priests, that is also feeding the impure. There is no charity in feeding the impure. You are now becoming pure in *reality*. Even though sannyasis become pure, they are not the ones who go to the pure world. They still have to take rebirth in the impure world, whereas you will not take rebirth in the impure world. They think that the duration of the world is very long. Until destruction takes place, everyone has to continue to take rebirth; no one can be liberated from that. This is your last birth. You know that you are going to go to the pure world. The Father sits here and explains: Children, you belonged to the pure family path; you were deities and you have been continuing to take rebirth. You don't know of your past births. This is not taught to just one person; many study this. The Father only talks to the Brahmin children. Shudras will not understand these things. First of all explain to them for seven days and make them into Brahmins so that they can realize that they belong to the clan of Shiva and that they are Brahma Kumars and Kumaris. You become the masters of the new world through this study. These are the mouth-born creation of Brahma. Everyone is a child of Prajapita Brahma. He is called the *great, great grandfather*. Brahma is always portrayed as a very old man. An image of Christ is shown. Christians also continue to take rebirth. *Great, great grand Christ!* (Ancestor of the Christian branch). Shiv Baba is incorporeal. You simply call Him the *Father*. He is incorporeal and He is called *God the Father*. He does not have a *father* or a guru because He is the Satguru. So, who are those gurus? They go on physical pilgrimages whereas we go on the spiritual pilgrimage. When someone dies here, they say that he has gone to heaven, but that is a lie, because he returns here. Some say that so-and-so has merged into the infinite light. Achcha, if the great sages and holy men merge into the infinite light when they die, why are the anniversaries of their death commemorated? It would be very good if they merged into the infinite light, but to commemorate the anniversary of their death and feed the brahmin priests etc. becomes false. He becomes a resident of heaven and they feed him with the food of hell; that is called *unrighteousness*. Whatever they do is wrong. The intellects of human beings are completely locked. The Father says: I come and unlock the locks, but Maya locks them again. They say that God is omnipresent. They think that this knowledge has continued from time immemorial. The poor people don't know anything. Knowledge and devotion, the day of Brahma and the night of Brahma are both *equal*. So, why have they made the day, the golden age, so long and the night so short? The day of Brahma and the night of Brahma should both be *equal*. This is a matter of the unlimited. The Father comes and explains everything. The Father is called the Ocean of the Jewels of Knowledge. Each jewel is worth hundreds of thousands of rupees. The Father explains to you children. It is a matter of yesterday. I explained to you and left you with your fortune of the kingdom. You ruled the kingdom and then you lost it. Yesterday, you had the kingdom, but you don't have it today. Therefore, you have to claim it back once again. It is a matter of today and tomorrow. Yesterday, Bharat was heaven. The birth of Shiva is celebrated in Bharat. Shiv Baba must definitely have come and He has come once again. He is giving you your fortune of the kingdom. You are now changing from shells into diamonds. You *actors* now know the beginning, the middle and the end of the *drama*, that is, you have become knowers of the three aspects of time. The Father says: Sweet, sweet children, remember Me, your Father! Do not forget Me! I have come to make you into the masters of heaven. You do not forget the one who made you into the masters of hell and yet you forget Me, your Father! Maya will definitely make you forget. However, you have to make effort to stay in remembrance. The Father gives knowledge to souls. It is a soul's duty to claim his inheritance from the Father. You have to renounce body consciousness. There is only the one Father who inspires you children to make effort. This is a school; it is not a question of receiving a vision etc. Do you have to have a vision of the *Principal*? These things have to be understood. This is the school of Raja Yoga. Come and understand. First of all, give them the explanation of the one Father. You must not proceed any further until they have understood this. After giving them the explanation of the Father, you should get them to write it down. Once they have

the faith that they claim their unlimited inheritance from Shiv Baba, they will not be able to stay without meeting such a Father. It is said: Trimurti Shiva. Shiva is the One who creates Brahma, Vishnu and Shankar. You would definitely call Brahma “The Father of People”. You would not call Vishnu or Shankar that. The land of Vishnu is established through Prajapita Brahma. The world mother and the world father then become Lakshmi and Narayan. Their children become their heirs. Therefore, there is no meaning in saying “Trimurti Brahma.” The Father has entered this one. The Father makes this one’s soul pure. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. The Father has opened the lock on your intellect. Therefore, do not perform any *wrong* acts through your physical organs. Pay attention that none of your thoughts are sinful.
2. You now have to return home. Therefore, forget that body of yours. Remove your intellect’s yoga from the land of sorrow and remember the Father and the inheritance.

Blessing: May you be full of good wishes and transform anything bad into something good with the power of *silence*.

With instruments of *science*, bad goods can be transformed and made good. Similarly, with the power of *silence*, transform any bad situations or bad relationships into good. Become so full of good wishes that, with your elevated thoughts, all souls are able to transform something bad and adopt something good. To know what is *right* and what is *wrong* in terms of being *knowledge-full* is a different matter, but it is wrong to keep something bad within yourself in that form. Therefore, when you see something bad, when you know something is bad, transform it into something good.

Slogan: Imbibe the virtue of tolerance and harsh sanskars will become cool.
