

**Essence:** Sweet children, see the Father with the third eye of knowledge and only remember the Father. While seeing this body, do not see it.

**Question:** What *direction* have you children received while living in this old world?

**Answer:** Sweet children, this old world in which you are living is to become a graveyard. There is the kingdom of Ravan over it and you must therefore not attach your hearts to it. While living here, your intellects should be attracted to the new world. You may live in your households, but become as pure as a lotus. Fulfil your responsibility to everyone. Let the yoga of your intellect be connected to the one Father. Become firm in knowledge and yoga. Due to no circumstances should the mercury of your happiness fall. Have patience and continue to cut away the karmic bondages.

**Song:** Have patience, o mind! Your days of happiness are about to come.

Om shanti. Human beings ask human beings to have patience when they are ill or unhappy. Here, you do not follow the dictates of human beings; you follow God's directions. However, not all of you follow them. The directions of God, who is called the true Father, the true *Teacher* and the Satguru, are very well known. God gave shrimat to human beings to change them into deities, that is, for them to become the masters of the deity world. No one else can give such elevated directions. Since all human beings are impure and corrupt, they would only give directions according to that. Only you children know that Shiv Baba is giving you directions. The directions of the highest-on-high Father are the highest on high. No one would call Him corrupt or impure. Only impure ones call out to that incorporeal Father. There is no question of a corporeal one and this is why it is said: Do not listen to the dictates of human beings. "*Hear no evil, see no evil!*..." Even though the eyes see human beings, you have received the third eye with which you have to remember that Father while seeing them. No one else has a third eye with which they could see the Father. When you come to see the Father, it is in your intellects that He is a soul. You look at the soul. In fact, you should say you are looking at a 'human being'. When you just say, "sister", you forget the soul. Here, it is explained that you have to forget this body. Consider yourself to be a soul and remember the Father. Look at Him with your divine eye. You souls have now been enlightened as to who your Father is, where He resides and what you are to receive from Him. There is no one in the world who is making effort like you to claim the inheritance from the Father. Unless someone become a child, how could he claim his inheritance from the Father? The inheritance of the Father is limitless. The highest inheritance is to become a sun-dynasty king or queen. Though some *pass* the exam to become a *barrister*, they are numberwise. Some earn a lot whereas others are hardly able to satisfy their stomach. You now understand that you are claiming the kingdom from God. No human being can say of another human being that that one is the true Father, the true *Teacher* and the Satguru. All others are gurus. There is only the one Satguru who speaks the truth. All the rest speak lies; they cannot grant true salvation to anyone. We too did not know the praise of the Satguru. It does not enter anyone's intellect how He is the true Father, the true *Teacher* and the Satguru. They call Him omnipresent and finish everything. They do not consider the Supreme Soul to be separate, that He is the Father and that we are His children. They say that everyone is the Father. They have made God even lower than this by saying that He is in the pebbles and stones. The Father explains: It is not like that. You children now have the faith that the Father truly is the true Father, the true *Teacher* and the Satguru. No one knows Him. If they were to know Him, they would be able to return home. If you know someone, you are able to know his name, form, time and place. Otherwise, what would be the benefit of knowing that person? All human beings are experiencing sorrow and this is why they want peace. They do not know that they were originally residents of the land of peace. My original religion of the soul is peace. I come from there. Baba explains that gurus cannot grant salvation to anyone. They simply put fear into people by saying: Those who defame the guru cannot attain a status. In fact, all of this applies to the unlimited Father. If you defame Me, you will not be able to claim a high status in the golden age. Sannyasis cannot say that by defaming them you will not claim a status. Which status? They do not know anything about a status. They make spiritual endeavour, but they cannot attain salvation by making spiritual endeavour. Only the Father comes and gives you patience. You know that you have truly been around the cycle of 84 births. You were very unhappy. Unless you had a vision of the land of happiness, how could you understand anything about the land of sorrow? You now know that this is the land of sorrow, where there is only temporary happiness. How much happiness is there in this temporary kingdom? They think that Gandhiji established the kingdom of Rama, but that is not so; it has become the kingdom of Ravan to an even greater extent. Everyone says that they have become impure and corrupt. Previously, they were just

impure, but now they are even called corrupt. This is the end of the iron age. There is so much bribery! The Father comes and tells all human beings of the whole world: "Have patience!" but no one listens to Him. At the end, everyone will know this. It is also shown in the exhibitions how the world of sorrow is being removed and how the world of happiness is being created. Everyone will eventually listen to this. On one side, Maya makes everyone's throat choke and on the other side the Father gives you His own introduction. This sound now has to reach many human beings. The more His praise is sung, the more it will also be printed in all the newspapers. Then, many will come here. This takes effort. It is very easy to establish a religion or a sect etc. A Buddhist created 60 to 70 thousand Buddhists simply through one *speech*. Here, there is a lot of effort. Maya opposes with great force. There, there is no question of battling with Maya. Here, effort is involved in battling with Maya. The main thing in this is purity. At no other place is there the question of purity. They (sannyasis) have distaste for their home. Or, if someone has been stealing, he then adopts renunciation. This is why the *Government* has to employ sannyasis in order to catch the thieves. They have to employ *C.I.D.* agents posing as sannyasis. There are even *C.I.D.* agents in the form of businessmen. The *police* carry out a lot of their work in an incognito way. Under the guise of friendship, they become friendly with those who deal in gold and they are then able to know everything. Those who are involved in this carry on with their business and also carry out their spying. The world is trapped in a lot of difficulty. You are very fortunate that you have been removed from all of those difficulties. In the world outside there are difficulties after difficulties. There is a lot of attainment for you, whereas those people die unhappy. You are sitting here to shed your bodies. When our old bodies are finished, we can return home to Baba. Once your heart is attached to the Father and the new world, of what use is the old world? This is old cloth and you have distaste for it. Sannyasis have distaste for their homes and families. They consider women to be snakes. Yours is true distaste. It is said: Knowledge, devotion and distaste. You receive the knowledge that you must have distaste for the old world. It has to become a graveyard. Theirs is limited renunciation. They do not know that this old world is to be destroyed. They say: We cannot live together at home, and so they have distaste for their homes. They go away into the *jungles*. Yours is unlimited distaste, but no one knows about this. You say that you have distaste for the entire old world, the graveyard. This is the kingdom of Ravan. Who would be such a fool as to attach his heart to the old world? Only when all the preparations are made and it is time for the golden age to come will the war begin. Many say: We are sitting at home and are confused about what to do. How can we look after our children if we do not have attachment to them? The Father says: Children, you have to live here, but your intellects should now be attracted to the new world. Your true *love* should be for that. You have distaste for this old world. You have distaste for these bodies, and so what else remains? Many children say: Baba, You tell us to fulfil our responsibility to both sides. We have to do that but if we do not fulfil our responsibilities, we will become like sannyasis. While living in your household, remain pure! Make effort to remain soul conscious and connect the yoga of your intellect to the Father. I am a soul and I have to go to the Father. The Father says: While living in your household, become like a lotus. If you neither have knowledge nor yoga, you will remain dangling. The horoscope of each one is different; each one is given a different method. If you have any difficulty, you can ask Baba. Your mercury of happiness should rise under all circumstances. We are now returning home and we will then go to the new kingdom. Very little time now remains. We have to play our *parts* and finish our attachment. The karmic bondages of each one are separate. Some have very few karmic bondages whereas others have very severe bondages. You must take methods from Baba and cut away your karmic bondages with patience. Incognito effort is required for this. Effort lies in taking the intellect on a pilgrimage. The intellect's yoga breaks again and again. Now, if you were to become firm, you would attain your karmateet stage. However, there are now many types of storm of sinful thoughts in which you totally lose your sleep. Sinful thoughts are called storms. In other spiritual gatherings, these things do not exist. There, they simply have the pleasure of listening through the ears, but they do not experience any benefit. Here, this is a study for earning an income. Study is not called pleasure for the ears. The Father explains: This is the last birth and the old world is to be destroyed. Why should you not follow shrimat and claim a high status? Until you become clever in this, you have to perform actions for the livelihood of your body and then become engaged in this Godly *service*. You have to *salvage* the whole world. You are the *Salvation Army*. You remove everyone from hell and take them to heaven. That *Salvation Army* does not know that the boat of the world is sinking and that all are trapped by the chains of Ravan. The entire world now has to be *salvaged*. You need the Father's help for this. You are the spiritual, Godly *Salvation Army*. You have to liberate all human beings from the claws of Ravan. You

have to have this much intoxication. There are many of those physical *social workers*, whereas you are so few. Here, there are many human beings, whereas in the golden age, there are only a few. Only you few children claim the inheritance from the spiritual Father. This last birth, which is as worthless as shells, has to become as valuable as diamonds. There is establishment of the original eternal deity religion and destruction of the many other religions. The Father alone carries out establishment of the one religion and also inspires it to be carried out. It takes a lot of effort to plant the *sapling* and to carry out establishment. Unless you make someone similar to the Father, your mercury of happiness will not rise. Only when you make a donation will your mercury of happiness rise. Those who have wealth and do not donate are called misers. Here, it is not like that. Those of you who have wealth will continue to give it. Otherwise, it would be understood that you have no wealth. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

**Essence for dharna:**

1. Become the Godly *Salvation Army* and take the sinking boat of the world across. You have to change human beings who are as worthless as shells into valuable diamonds. Do not be miserly in donating the wealth of knowledge.
2. Attach your heart to the Father and the new world. Have unlimited distaste for this old world.

**Blessing:** May you be full of a pure attitude and your mind filled with power and serve everyone with the awareness of being an ancestor.

When you meet or see souls of any other religion, let there be the awareness that all of those souls belong to your *great-great-grandfather's* dynasty. We Brahmin souls are ancestors and ancestors serve everyone. The form of your *alokik* sustenance is to fill souls with all the powers you have received from the Father. Sustain the souls that come to you with whatever power they need. For this, your attitude has to be very pure and your mind has to be full of power.

**Slogan:** Those who have the imperishable wealth of knowledge are the wealthiest in the world.
