

Essence: Sweet children, have an interest in doing *service*. Become those with broad intellects and invent different ways of doing *service*. *Correct* the things that are meaningless.

Question: In what way can souls who have become as dirty as Ajamil be cleansed?

Answer: Soak them in the Mansarovar of knowledge. All the dirt on the souls will be removed if they continue to soak in the ocean of knowledge.

Question: What is the biggest sin for Brahmins?

Answer: For a Brahmin it is a very big sin not to obey the Father's orders. The Father's first order is: Remember Me constantly. However, it is in this that some children *fail* and Maya then makes them commit one sin or another.

Song: Leave Your throne in the sky and come down to earth.

Om shanti. What is it that enters the children's intellects? Who has come? (The Father, the *Teacher* and the Satguru). The words 'Mother and Father' are definitely needed. The words 'Mother and Father' are famous in Bharat. First say 'Mother and Father' and after that you can say 'BapDada'. In fact, Mother and Father are included in BapDada. Nevertheless, this is just by way of explanation, because, although He is the Father, a mother is also definitely needed. First of all, who is the mother? This is the deepest aspect of all, which no one can understand. Would a mother still be required together with Prajapita Brahma, the Father of Humanity? Together with Prajapita Brahma, the Father of Humanity, would Prajapatni (wife of the Father of Humanity) also be required? No, a mother of humanity is not required because these children are mouth-born. This is why there cannot be Brahma's wife. These aspects are very deep and subtle and you need a good intellect to understand and imbibe them. There is the one and only Father who comes personally in front of you children. You understand that the Mother and Father, BapDada, has now come personally in front of you. Children who live at the *centres* and who do *service* outside would not feel that the Mother and Father, BapDada, has come to them personally. They would think that such-and-such a Brahma Kumari has come. This Mama has been *adopted*. The *luckiest* star of all is Jagadamba. She has been appointed the main one to look after the children. This is why the urn of knowledge has been placed on her head. This Brahma is the Brahmaputra River. He has a *male* form, and so Saraswati is definitely needed. It is Saraswati who is called the World Mother. This *male* cannot be the World Mother. This is a very deep secret, which is not found in any Gita or Bhagawad (scriptures). They have written many stories in the scriptures. They have written about what happened 5000 years ago and what happened 2500 years ago, but they have given no information whatsoever about name, form, land or time. They have also written all sorts of plays. The Father personally sits here and explains everything clearly so that you children can fully understand every aspect. Even those songs have some meaningless words in them. The element of sky is here and we are sitting below it. The Father from beyond, whom everyone remembers, does not come from the element of sky. If this refers to the Krishna soul, he is already here. All the main souls and founders of the different religions are here. The Krishna soul, now in his 84th birth, is also here. His soul cannot be invoked. It is the Supreme Father, the Supreme Soul, who is invoked: Come! Leave Your great element of light, the land of nirvana, and come down here! The throne of you souls is the great element of light. It is you human souls who live under the element of sky. This is the stage on which the play is performed. While listening to any song, let your hearts continue to *correct* the words as you hear them. Those who produced plays have had those songs written. You should also explain to those who *shoot films*. You need a very broad intellect for this. Baba advises you how to do *service*. You should explain to those who write those *dramas*. You should go and meet them. You need to have at least this much understanding. The Father gives *directions*. He does not go and speak to them. The Father gives you children *directions*: Do this and that and follow shrimat. (Song: Leave Your throne in the sky and come down to earth). In fact 'earth' is the land of Bharat, because it is the land of Bharat where He comes. Bharat is his *birthplace*. Everyone calls out to that incorporeal *Father*. Krishna is not the *Father* of everyone. The flute (murli) portrayed is not that wooden flute that is put in Krishna's hands. The flute is in fact the flute of knowledge. Saraswati is called the *goddess of knowledge*. They do not call Radhe that or say it of Krishna. This couple is the father and child. Saraswati is called the *goddess of knowledge*. So, there would surely also be Prajapita Brahma, the Brahmaputra, the *god of knowledge*. However, Brahma is not praised in this way. It is said, "*God is knowledge-full*." Brahma is not *knowledge-full*. No; *God is knowledge-full*. The Supreme Father, the

Supreme Soul, is the Ocean of Knowledge. Therefore, He would definitely give knowledge to His children. Firstly, He enters this one and then gives knowledge to others through him. All of you *lucky* stars are included in this. He is the Sun of Knowledge and it is this one (Brahma) who is the Moon of Knowledge. Then, a star is needed close to the Moon of Knowledge, one that stands alongside the moon. That star is very bright. That star is called the *lucky* star of knowledge and has been named Saraswati. So, Saraswati is the daughter. This one is the father as well as the largest river. He is a very big river. All the rivers merge into the ocean. There is a mela (confluence) of the rivers and the ocean. The Saraswati River also merges into the ocean, but there is no mela of that. The mela of the Brahmaputra River takes place. This *male* river that has now emerged is *wonderful* because rivers are normally *female*. These deep secrets are worth understanding very clearly, but you should not explain this aspect to anyone at first. First of all, you should explain the secret of the physical mother and father and the Mother and Father from beyond. You have continued to receive temporary, short-lived inheritances of happiness from your physical mothers and fathers. You should remember this very firmly. No one else can explain the secrets of the two fathers, because they don't know them. They sing: "You are the Mother and Father." Now, if the Father is omnipresent, where is the Mother? This is something that has to be understood. A mother and father are needed. The incorporeal One is called the Mother and Father, but people don't understand why He is called the Mother and Father. He is *God*, the *Father*. Although they say "Adam and Eve" they do not understand that Adam himself is Eve, that Prajapita Brahma himself becomes a mother. Adam and Eve are also called Adam and Bibi, but people do not understand the meaning of that. You children can understand that Adam and Bibi are in fact this one. Bibi is Adam. This one is called both Adam and Bibi. That One is the Father. These are very complicated matters. People of Bharat sing "You are the Mother and Father". They just sing whatever they hear; they do not understand the meaning of it at all. They have moved the golden age very far back into the past. They say that it existed thousands of years ago. It is said, "*Long, long ago*", but how *long ago*? Stories are usually told of the recent past. You can explain that "*Long, long ago*" means 5000 years ago when there was the undivided, unshakeable kingdom of happiness and peace of the deities in Bharat. There were no other kingdoms at that time. No scholars or pundits would say these words. People should know how the kingdom of deities was established, how Lakshmi and Narayan were created and how their kingdom was established. Before that, there was the iron age. It is now truly the end of the iron age and, after this, the golden age will come. The golden age is now in front of us. That which was "*long, long ago*" is now in front of us. Having taken 84 births, you have reached the end of the iron age. Now you are told: Five thousand years ago, there was the golden-aged kingdom of Lakshmi and Narayan; it does not exist now. That *time*-period has now ended and the kingdom of Lakshmi and Narayan is now being established once again. This is now in your intellects. You are making effort for this. These things have to be explained. This true Gita is being written down so that whoever reads it can be *refreshed* by it. You know that whatever is written now will disappear. The true Gita will not remain either. All the things you write about this true knowledge will disappear and, along with that, all the scriptures will also disappear. There are no scriptures in the golden and silver ages. They will be written again as they were a cycle ago, in the copper age onwards. All of that is the paraphernalia of the path of devotion. The paraphernalia of creation is vast, and yet you take this knowledge within a *second*. You know about the whole of creation from its beginning, through its middle to its end. There is the full account with dates and times etc. Not everyone takes 84 births; some take 70 and some 60; some even take only two births. There is the full account of the *minimum and maximum* numbers of births. Those who come later will take fewer births, numberwise. To go into the details of this would be useless. You children understand in a *nutshell*. There cannot be 8.4 million births and not everyone can take 84 births. It is simply said that the cycle is 84 births. The cycle is not said to be 8.4 million births. (A song was played). The shadow of sin and deception has been cast. It is now the kingdom of Ravan. The shadow of dirt gradually settled on souls and souls have now become as totally sinful as Ajamil. So much dirt has settled on souls that they cannot be cleansed. In order to remove that dirt, it is sung, "Soak in the Mansarovar of knowledge". Just as something rusty is put into paraffin for all the rust to be removed from it, so souls, too, have become rusty. Therefore, continue to remain soaking in the ocean of knowledge. This is not a question of a river or ocean of water. Remain engaged in the *knowledge* that the Ocean of Knowledge gives you. You also have to take care of your household and family. If you need to ask advice concerning that, then continue to take it. Each one of

you has your own individual bondage of karma. The *Surgeon* doesn't prescribe the same medicine for everyone. Everyone has their own karmic bondages and everyone has their own illness. This illness of five vices is extremely serious. No one recognises this illness. When does it begin? Once the soul is affected by this illness, the body also becomes affected. When the soul is affected by sorrow, the body also becomes affected. These things are not mentioned in the scriptures. All of that is the activity of the path of devotion. In reference to devotion, Baba has also explained that it is at first unadulterated. Then devotion becomes rajoguni, semi-adulterated, and that later becomes tamoguni, fully adulterated devotion. As is the stage of devotees, so accordingly is the worship they do. In knowledge too, you descend in the same way. First, you are 16 celestial degrees, then 14 and then 12. In this way the reward that you had accumulated continues to fall away. You children understand that this is an income. Obstacles arise and omens change in earning an income. They ask: "What omens are prevailing over us?" and those people would tell them. So, while earning this true income, there are also omens over you children. Some experience bad omens of Rahu and they dirty their faces. They had the omens of Brahashpati (Omens of Jupiter) over them. Then, when Maya slapped them, there were the bad omens of Rahu over them. As soon as souls indulge in vice, they experience bad omens; their intellects become locked. This is an incognito, severe punishment. Then, such souls would never be able to say, "God says that lust is the greatest enemy". Sannyasis too leave their wives because of lust being the greatest enemy. That purity of the path of isolation is also beneficial for the people of Bharat. It is the people of Bharat who become impure from pure, so those sannyasis play the roles of giving them support. Their purity is for supporting Bharat. It is because of their power of purity that the world lasts this long. Even they have now become impure. Therefore, you have to serve them as well. You children should have a great interest in doing *service*. You must not behave in any way against the law. All of you are effort-makers; none of you has become perfect yet. One sin or another continues to be committed. To disobey the Father's orders is also a very big sin. The Father's order is: Remember Me constantly. I know that you are not able to do this, but that is because you don't make full effort. Those who do this will achieve a good status. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. In order to become free from the illness of the five vices, you must continue to take advice from the *Surgeon*. You souls must be careful that you do not catch any illness.
2. Earn this true income and also inspire others to do so. Do not behave in any way against the law. Always follow the Father's orders so that you never become eclipsed by the bad omens of Rahu.

Blessing: May you become a conqueror of Maya and an embodiment of success by spinning the discus of self-realisation and performing every act in the form of a divine activity. Just as every act of the Father is remembered as a divine act, in the same way, let your every act be a divine activity. Those who have become spinners of the discus of self-realisation, the same as the Father, can never perform ordinary actions. The sign of a spinner of the discus of self-realisation is that he is an embodiment of success. Whatever tasks they carry out, success would be merged in those. Because those who are spinners of the discus of self-realisation are conquerors of Maya, they are embodiments of success and those who are embodiments of success are multimillionaires in their every step.

Slogan: Create powerful thoughts of happiness and you will remain constantly happy in your body and mind.
