

Essence: Sweet children, you have to return home on *time*. Therefore, increase the speed of your remembrance. Forget this land of sorrow and remember the land of peace and the land of happiness.

Question: What deep secret should you tell people so that there is upheaval created in their intellects?

Answer: Tell them the deep secret of a soul being a tiny point and having a *part* recorded in him *for ever* and how he continues to play his *part*. A soul never gets tired. No one can receive eternal liberation. When people see a lot of sorrow, they say that it would be better if they were to receive eternal liberation. However, imperishable souls cannot remain without playing their *parts*. On hearing this aspect, there will be upheaval in their intellects.

Om shanti. The Father explains to you sweetest, spiritual children. Here, you are spiritual children. Every day the Father explains that poor people in this world truly do have a lot of sorrow. When there are *floods*, it is the poor who experience sorrow. Just look what becomes of their belongings etc.! They feel sorrow about that; there is limitless sorrow. The wealthy have happiness, but that is for a temporary period. Even wealthy ones also fall ill. Many deaths take place too: Today, so-and-so died. Today, this happened. Today, someone is a *President*, and tomorrow, he would have to leave that position; they all surround him and make him get off his position. There is sorrow about that too. Baba has told you to make a *list* of the types of sorrow there are in this land of sorrow. You children know the land of happiness, whereas the world doesn't know anything. They cannot compare the land of sorrow with the land of happiness. The Father says: You know everything. They will believe that you really do tell the truth. Here, some have huge houses, *aeroplanes* etc. and they believe that the iron age will still continue for another 40,000 years and that the golden age will come after that. They are in extreme darkness. You now have to bring them closer. There is little time left. There is a vast difference between them saying that it is hundreds of thousands of years and you proving that it is only 5000 years. The cycle *repeats* after 5000 years. The *drama* would not be hundreds of thousands of years. You understand that everything that happens, happens within 5000 years. So, here, in the land of sorrow, there are illnesses etc. You can just write a few main things. There is no mention of sorrow in heaven. The Father explains: Death is now just ahead. The same *episode* of the Gita is now taking place. The golden age will definitely be established at the confluence age. The Father says: I make you into the kings of kings. Therefore, He would definitely make you into kings of the golden age. Baba explains everything very well. We are now going to the land of happiness. The Father has to take us. Only those who constantly remember Me attain a high status. Baba continues to show you many methods for that. Increase your speed of remembrance. Everyone has to go to the kumbha mela on *time*. You too have to go on *time*. It isn't that you can arrive there sooner. No, it is not in your hands to go there sooner. It is fixed in the *drama*. All the praise is of the *drama*. There are so many types of insects, germs etc. that cause sorrow. They don't exist in the golden age. You should think about the things that will exist there. You remember the golden age, do you not? The Father establishes the golden age. At the end, your intellects will have all the knowledge in a *nutshell*. For instance, a seed is so small whereas the tree is so big. Those are non-living things whereas this is living. No one knows about this tree. They have made the duration of the cycle very long. It is Bharat that has a lot of happiness and Bharat that has a lot of sorrow. There are also more illnesses in Bharat. Here, people die like mosquitoes because their lifespans are short. There is so much difference between cleaners here and cleaners abroad. All the *inventions* come here from abroad. The very name of the golden age is *Paradise*. There, everyone is satopradhan. You will have visions of everything. This is now the confluence age when the Father sits here and explains to you. He will continue to explain to you. He will continue to tell you new things. The Father says: Day by day, I tell you deep things. Previously, you didn't know that Baba was such a tiny point and that He has a whole *part* recorded in Him *for ever*. You have been continually playing your *parts*. If you were to tell someone this, his intellect would be in upheaval: What are you saying? Such a tiny point has such a big *part* recorded in him and he continues to play it and yet never gets tired! No one knows about this. You children now continue to understand that there is happiness for half the cycle and sorrow for half the cycle. When people see a lot of sorrow, they say: It would be better for us to have eternal liberation than this. You would not say this when you are in happiness or in peace. Your intellects now have all of this *knowledge*, just as the Father has all the *knowledge* of the tree in Him because He is the Seed. The *model* of the tree has been shown. You cannot show it in that very large form. All the *knowledge* enters your intellects. So, you children should have broad and unlimited intellects. So much has to be explained to you. So-and-so comes again after such-and-such a period to play his *part*. This is such a great, *huge drama*. No one can watch the whole

drama; it is *impossible*. Good things are seen with divine vision. Ganesh, Hanuman belong to the path of devotion, but some people have that faith in them and so they are unable to renounce them. You children now have to make effort. In order to attain a status as you did in the previous cycle, you have to study. You know that each one has to take rebirth. You children now know how you have come down the ladder. Those who know this will begin to explain to others. You would have done the same in the previous cycle. You would have created *museums* like this and explained to the children in the previous cycle too. You continue to make effort and will continue to do so. It is fixed in the *drama*. Later, there will be many places like this. There will be a *school* in every street and in every home; it is just a matter of having dharna. Tell them: You have two fathers. Which one is greater? People call out to Him: Have mercy! Give blessings! The Father says: You will not receive anything by asking for it. I have shown you the path. I come only to show you the path. You have the whole tree in your intellects. The Father continues to make so much effort. There is very little *time* left. I need *serviceable* children. I need a Gita Pathshala in every home. You don't have to keep any other pictures, but simply write this outside. In terms of the pictures, just this *badge* is enough. It is this *badge* that will be useful to you at the end. It is a matter of just a signal. You know that the unlimited Father will definitely create heaven. So, it is only when you remember the Father that you will go to heaven. You understand that you are impure and that it is only by having remembrance that you will become pure. There is no other way. Heaven is the pure world. If you want to become a master of heaven, you definitely do have to become pure. How can those who are going to go to heaven choke in hell? This is why you are told: Manmanabhav! Remember the unlimited Father and your final thoughts will lead you to your destination. Those who are to go to heaven will not indulge in vice. Devotees do not indulge much in vice. Sannyasis will not ask you to become pure because they themselves also carry out marriage ceremonies. They tell householders: You can indulge in vice once a month. They would not tell those who wish to remain celibate that they must not get married. Some people here have a pure marriage, but the next day the game is over! Maya has a great deal of attraction. It is at this time that you make effort to become pure; then you have the reward. There is no kingdom of Ravan there. There are no *criminal* thoughts there. It is Ravan who makes you *criminal*. Shiv Baba makes you *civil*. You have to remember this too. When a *class* is conducted in every home, everyone will begin to explain. You have to create a Gita Pathshala in every home and reform those in your home. Expansion will continue to take place in this way. Ordinary ones and poor ones are like equals. Eminent people feel embarrassed to come to the spiritual gatherings of ordinary people, because they have heard that there is magic here and that you convert everyone into brothers and sisters. Ah, but that is good! There are so many complications in a household. They become so unhappy. This is the world of sorrow. There is limitless sorrow and then there will be limitless happiness there. You should try to make a *list*. Make a *list* of 25 to 30 main types of sorrow. In order to receive the inheritance from the unlimited Father, you have to make so much effort. The Father is explaining to us through this chariot. This Dada too is a *student*. Bodily beings are all *students* and the *Teacher* who is teaching you is bodiless. He makes you bodiless too. Therefore, the Father says: Continue to renounce any consciousness of the body. None of these buildings etc. will remain. There, you will receive everything new. At the end you will have many visions. You know that there will be a lot of destruction abroad with *atomic bombs*, whereas here, there will be rivers of blood. That takes *time*. Death here is very bad. This is the imperishable land. You can see on a map that Hindustan is just in a tiny corner. According to the *drama*, things there don't have any effect here. Rivers of blood will flow here. They are now making preparations. It is possible that, at the end, they will even give *bombs* here on *loan*. However, they would not *loan bombs* that would destroy the world when you release them! They would give low *quality* bombs. You wouldn't give others something that is useful to you. Destruction will take place as it did in the previous cycle. It is not anything new. Innumerable religions will be destroyed and the one religion established. The land of Bharat is never destroyed. Some will remain. If everyone were to die, annihilation would take place. Day by day, your intellects are becoming broad and unlimited and you will have a lot of *regard*. You don't have that much *regard* at present and this is why so few of you *pass*. It doesn't enter your intellects that there will be so much punishment and that you will also come later on. When you fall, everything you have earned is lost and you become uglier than ugly; you cannot then rise again. So many have gone and so many are still to go. You can understand for yourself what your condition would be if you were to leave your body now. This is something to be understood. The Father says: You children are the ones who establish peace. If you have peacelessness in you, your status would be destroyed. There is no need to cause sorrow for anyone. The Father speaks to everyone with so much love, saying,

"Child, child!" He is the unlimited Father. He has the *knowledge* of the whole world and this is why He explains it to you. There are so many types of sorrow in this world. You can write many things about sorrow. When you prove this, people will understand that this is absolutely accurate. No one except the Father can remove this limitless sorrow. If you have a *list* of the types of sorrow, something will sit in people's intellects. Otherwise, they listen to something and then forget it. For such people, it is remembered: What do sheep know of the celestial sounds of heaven? The Father explains: You children have to become beautiful. There shouldn't be any peacelessness or dirt. Those who spread peacelessness are body conscious. Remain distant from them. You mustn't even touch them. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Just as the *Teacher* who is teaching you is bodiless and doesn't have any consciousness of bodies, become bodiless in the same way. Continue to renounce any consciousness of bodies. Change your *criminal eye* and make it *civil*.
2. Make your intellect broad and unlimited. In order to be liberated from punishment, have *regard* for the Father and the study. Never cause sorrow. Do not spread peacelessness.

Blessing: May you be an angelic form while walking and moving around and enable others to experience rays of the eight powers from you. When you place very expensive, flawless diamonds in front of a *light*, you see various colours. In the same way, when your form becomes angelic, others will experience rays of the eight powers from you as you walk and move along. Some will receive the *feeling* of tolerance from you, some will have the *feeling* of the power of taking decisions, some will receive the *feeling* of one power and others of another power.

Slogan: "Practical proof means someone whose every act inspires others.
