

The easy way to attain success in every task is to have love.

Today, Baba has come to give the *return* of love to the especially beloved children. Baba has simply come to celebrate a meeting with the Madhuban residents as the special fruit of their tireless service. This is a practical example of love. The special *foundation* of the Brahmin family is this special love. At the present time, love is the easy way to attain success in every task of service. The *foundation* of a yogi life is faith, but the *foundation* of the family is love and it is this love that brings you close to someone's heart. At the present time, together with the *balance* of remembrance and service, the *balance* of love and service is the method to use for success in service. Whether it is service in this land or service abroad, the method to use for success in both is spiritual love. You have heard the words "knowledge" and "yoga" from many, but for souls to experience love through drishti and elevated thoughts is something special and new. Today's world needs love. No matter how arrogant a soul may be, love can bring him closer. People are beggars for love and beggars for peace, but it is only by having drishti filled with love that you can give the experience of peace. So, love automatically gives the experience of peace because you then become lost in love. This is why you automatically become bodiless for a short time. So, because of becoming bodiless, you easily experience peace. The Father too only gives a *response* to your love. Whether the chariot works or not, the Father has to give the proof of love. This is the instant visible fruit of love that BapDada wants to see in you children. Some have come back having been abroad on service (Gulzar Dadi, Jagdishbhai and Nirwairbhai) and others are now going (Dadiji and Mohiniben). Those souls are also receiving the fruit of love. According to the *drama*, you think one thing and something else happens. Nevertheless, you definitely receive the fruit. Therefore, the *programme* is automatically made. All of you came back having played your own *parts* very well. The predestined *drama* is fixed and so you easily receive the *return*. The foreign lands are also moving forward in service with deep love. They have very good courage and enthusiasm everywhere. Everyone's thoughts of gratitude continue to reach BapDada because they too understand that there is such a need in Bharat, and it is this love for Bharat that gives them that co-operation. They say thanks from their hearts to the co-operative families for service in Bharat. To the extent that the land is far away, they are accordingly close in being worthy of receiving sustenance from the heart and this is why BapDada is giving love, remembrance and thanks to the children in *return* for their thanks. The Father sings your songs (of praise) too.

In Bharat too, they are playing very good *parts* on the peace march with a lot of zeal and enthusiasm. Everywhere, there is great splendour and beauty in the service being done. Zeal and enthusiasm makes you forget your tiredness and enables you to achieve success. The success of service everywhere is very good. BapDada is also very pleased to see the children's zeal and enthusiasm for service.

Jagdishbhai has just returned from Nairobi having met the Pope:

You gave drishti to the Pope, did you not? This is also a means for you to achieve success easily in serving the *VIPs*. In Bharat, the Prime Minister especially came. So, you can now say that they (*VIPs*) came in Bharat too. If, in lands abroad, influential leaders of the main religions in particular come into close contact with you, then anyone here can easily have the courage to say that they have also come into contact with you. So, a very good means was created for this land and that was also a special means for service abroad. So, according to the time, any obstruction that stops them from coming close in service will also easily end. At least you were able to meet the *Prime Minister*. So, this *example* also helps for serving the people of the world. Everyone's *question* as to whether others have come is now finished. So, this year, according to the *drama*, this has become a means for easy revelation in service. They are now coming closer. Their names alone will do the work. So, the land has now been prepared for just their names to do the work. They will not spread the sound. The *mikes* who are to spread the sound are different. These people are the ones who will give *light* to the *mikes*. Even so, the ground has been well prepared. What you previously used to think about serving *VIPs* – that it's difficult in lands abroad - you now experience that to be easy everywhere. This *result* is now good. Because of their names, the ones to do the work will become ready. Now, just see who becomes an instrument. You all went everywhere to prepare the ground. You placed your feet in different directions and prepared them. Now, preparations are being made to see from where the instant, practical fruit will emerge. The *results* of all of you are good.

Those on the pad-yatra (peace march) are also moving forward with one strength and one support. At first, it seemed difficult, but when it becomes *practical*, it becomes easy. So, Baba is giving special love and remembrance to all those who have come from this land and abroad, and to those who have been instruments for service and have come, having made many others loving and co-operative to BapDada. Each child's blessing is his own. To all the children in Bharat who are going on foot on this peace march, to all the children everywhere abroad who are instruments for service, to the children who are residents of Madhuban and are instruments for elevated service, to all the children of Bharat who are instruments to give zeal and enthusiasm to those who are on the peace march, to all those children everywhere, Baba is giving special love and remembrance and congratulations for the success of service. Everyone has made effort at each place. However, these are the instruments for a special task and this is why they have especially accumulated in their account. *Examples* are being prepared in each country – Mauritius, Nairobi, America – and these *examples* will be co-operative in the future for revelation to take place. Those from America have not done anything less. Each of the little places, whatever they have done according to their power, they have done a great deal. Abroad, the *majority* is still of *Christian* states. Even if they have lost that power, they haven't let go of their religion. They may have stopped going to church, but they haven't let go of their religion. This is why the Pope is like a king there. When you reach the king, the subjects automatically have that *regard* for you. So, this is a good *example* for even those who are staunch *Christians*. This *example* will be an instrument for the *Christians*. There is a *connection* between Krishna and the *Christians*. The atmosphere in Bharat is a different thing; there is a lot of concern for *security*. However, he met you with love and that is good. To give that *time* with *royalty*, to meet officially has its own impact. This shows that time is now coming close.

Abroad, in London too, the numbers are very good and they especially have love for the murli and love for the study. That is the *foundation*. London is *number one* in that. No matter what happens, they never *miss class*. London gives the most importance to 4.00 am yoga and morning *class*. The reason for this is love. Because of love, all are pulled to come. You pay very good *attention* to making the atmosphere powerful. In any case, the faraway lands consider the atmosphere to be the support, whether it is of the centre or their own homes. If the slightest thing happens, you instantly *check* yourself and really make effort to make the atmosphere powerful. There, you have a very good aim of making the atmosphere *powerful*. You don't spoil the atmosphere over trivial matters. You understand that, if the atmosphere is not powerful, there won't be success in service. This is why you pay very good *attention* to this – in your own efforts and also in terms of the atmosphere of the *centre*. None of you are any less in maintaining courage and enthusiasm.

Wherever you set foot, there is definitely special benefit for Brahmins and also for that country. They receive a message and the Brahmins experience extra power and also receive sustenance. Everyone is happy to receive special sustenance in the corporeal form and you move forward in service with this happiness and achieve success. Sustenance is essential for those who live in faraway lands: they receive sustenance and fly. Those who are unable to come to Madhuban experience Madhuban whilst sitting there, just as both the bliss of heaven and the confluence age are experienced here. This is why, according to the *drama*, the *part* created of your going abroad is essential and there is success in that too. Let each and every child abroad accept special congratulations for service personally by name and a special *return* for the success of service in the form of love and remembrance. Each and every child is in front of the Father. Every child from every country is appearing in front of Baba's eyes. BapDada is giving love and remembrance to each child. Seeing the wonders of the children who are desperate to come, BapDada constantly showers those children with flowers of love. The power of their intellects is so sharp. They don't have the other vimans (means of travel) and so the viman of their intellects is sharp. BapDada is pleased with the power of their intellects. Each place has its own speciality. Sindhis too are now coming closer. Whatever happened in the beginning has to happen at the end.

The illusions they had of us not doing *social work* has now also been removed by them seeing the peace march. Now, preparations for a revolution are taking place with great force. Those of Delhi are also invoking those who are on the peace march. So many Brahmins will come to their home. Only fortunate ones have so many Brahmin guests. Everyone has a right to Delhi. Those who have a right have to be given respect. Your name will spread in the world from Delhi. Of course you are doing everything in your own *areas*, but in this land and abroad, it is the *TV* and *Radio* of Delhi that will become instrumental.

Speaking to Dadi Nirmalashanta:

This is a sign of the original jewels. Whilst always remembering the lesson of “Ha ji”, you gave power to the body and reached here. The original jewels have this *natural* sanskar. You never say “No”. You always say, “Ha ji”, and it is this “Ha ji” that has made you into a great lord. This is why BapDada is also happy. The Father gave help to the child who maintained courage and gave the fruit in this meeting of love.

To Dadiji:

Give everyone congratulations for their zeal and enthusiasm for service. Whilst constantly swinging in the swing of happiness, you constantly continue to move forward in happiness and with love for the revelation. Therefore, congratulations to everyone for your pure and elevated thoughts. The group of the first fruit that emerged through Charlie and Ken etc. is giving a very good *return*. Humility easily enables you to carry out the task of renewal. Until one becomes humble, one cannot carry out the task of renewal. This transformation is very good. To listen to everyone, to merge it and then to give everyone love is the basis of success. You have *progressed* very well. The new Pandavas have made very good effort. You have brought about good transformation in yourselves. There is very good growth everywhere. Now, make *plans* for further newness. This much fruit has emerged as a result of everyone’s effort. Those who weren’t interested in listening to anything have come closer and are becoming Brahmin souls. Now, a new method of service will become the means for revelation to take place. The gathering of Brahmins is also good. Growth of service is now increasing. Once this growth begins, that wave will continue. Achcha.

Blessing: May you be a contented soul loved by everyone and make the fortress of the gathering strong. The power of the gathering is a special power. No one can shake the fortress of a gathering that is united in one direction. However, the basis for this is to be loving with one another and to give *regard* to everyone, to remain content yourself and to make others content. Let no one be *disturbed* and let no one *disturb* you. Let all of you continue to give one another the co-operation of good wishes and pure feelings and the fortress of this gathering will then become strong. The power of the gathering is the special basis for victory.

Slogan: When every act of yours is accurate and yuktियुक्त, you would then be called a pure soul

* * * O M S H A N T I * * *

Special homework to experience the avyakt stage in this avyakt month.

On the basis of faith and spiritual intoxication, Father Brahma came to know the guaranteed destiny and used everything in a worthwhile way in a *second*. He didn’t keep anything for himself. So, the sign of love is to use everything in a worthwhile way. To use something in a worthwhile way means to use it for an elevated purpose.
