

The Perfect Stage of the Pilgrimage of Remembrance

BapDada is sitting here and you are also sitting here, but what is the difference between BapDada and you? Previously, Baba used to sit here in the sakar form, but what do you now feel when you sit here? Just as Baba used to feel that He had taken a corporeal body on loan to come here, do you have the same experience? Now Baba comes as a guest. In fact, all of you also consider yourselves to be guests, but there is a difference between Baba considering Himself to be this and you considering yourself this. A guest is someone who comes and goes. He comes now in order to go back. That was the experience of the intellect's yoga and this is now the practical experience. You have to experience in the same way as Baba how to enter another body and perform actions. Day by day, the stage of you children will become more and more like the Father's stage. You will also feel as though you have truly taken that body on loan, that you are guests just in order to perform actions. Unless you consider yourselves to be guests, you cannot have the stage of detachment. What is the specialty of those who stay in the stage of detachment for a long time? Through their words and behaviour others can experience the stage of being beyond. The higher the stage becomes, the more you will experience being beyond. Whilst in a body, you have to reach the stage of being beyond. You should experience the bodiless one (the soul) being separate from the body. This is called the complete stage of the pilgrimage of remembrance, or the practical result of yoga. Whilst speaking, the stage of detachment should pull you. Whilst listening to anything, it should be as though you are not hearing it. Others too should have this feeling. Such a stage is called the karmateet stage. Karmateet means to be free from any bondage of the body. You would also be performing actions, but not be creating any karmic accounts through those actions; it is as though you are detached, that there is no attachment. The one who is performing actions is separate from the action itself. Day by day, you will continue to have such an experience. There is no need to use your intellect a lot when you have reached this stage. As soon as you have a thought, only that which has to happen takes place. Everyone has to reach this stage. Before arriving in the incorporeal world, you first have to go to the subtle region. Everyone has to meet there; then you will go to your home and then to your own kingdom. Just as there is the gathering in the corporeal world, so in the same way, the gathering will take place in the subtle region. That gathering of angels is very close. You used to relate stories of how angels would meet together, how the spirits would converse with the spirits. You will have the same experience. You will have the practical experience of the stories that you related. You are now waiting in anticipation for the days of that gathering. At present, you are instruments for service. You experience sitting in the avyakt stage whilst the mind and body have forgotten everything of the corporeal world. Achcha.

Which place do you consider yourselves to be residents of? Do you consider yourselves to be residents of the supreme abode? For how long do you remember it? You should just remember this one thing: that you, the soul, a resident of the supreme abode, have come into this corporeal world to perform a Godly task. Having come to Madhuban what special virtue have you taken? The special virtue of Madhuban is sweetness. Madhu (honey) means sweetness, loving. The more love you have, the greater the unlimited disinterest you will have. This is the meaning of Madhuban: to be extremely loving and to have just as much an attitude of unlimited disinterest. If you return, having imbibed the special virtue of Madhuban in your life, you will easily become perfect. Then you will be able to become a number one spiritual teacher, because as your imbibing, so you will give others the experience of that. You have to imbibe both these virtues in your life. Before stepping outside the boundary of Madhuban, completely fill yourselves with these. If you firstly fill yourself with love and secondly with the attitude of unlimited disinterest you will easily be able to face any situation. In order to become a star of success, take these two main virtues with you as a gift from Madhuban. Whenever you go anywhere, as soon as you reach that place you ask: What is the specialty of this place? Then you take back with you that specialty when you return. Therefore, take back with you the two special virtues of Madhuban. Just as people take back honey, in the same way, take back the honey of subtle sweetness. Then there will be nothing but success. Failure will be removed from your life. The star of success will be seen sparkling on your forehead. Are you stars of success or stars of effort? What do you consider yourselves to be? Are you stars of success? As the aim, so the qualifications

for that aim. If you still consider yourselves to be effort-makers, then, by considering yourselves to be that, you allow yourselves to make little mistakes. You think you are still effort-makers anyway. However, you are not effort-makers now, for you have to become embodiments of success. Till when will you continue to make effort? Only when you have become an embodiment of success will you be able to show other souls the path to success. If you yourself continue to move along as an effort-maker till the end, when will you experience the reward of the confluence age? Will you remain an effort-maker all your life? Will you not attain the reward of the confluence age in a practical form? What is the fruit of effort of the confluence age? (Success.) So, in order to become an embodiment of success, you have to have faith that there will be success. Since you consider yourself to be a star of success, how can you not be successful? A child of the Almighty Authority can never be unsuccessful in anything. Are you able to see the star of victory on your forehead, or are you yet to see it? Victory is guaranteed, is it not? Victory means success. The time has now changed. Since the time has changed, you will also change your effort, will you not? The father showed you the form of success, so will the children, whilst in a corporeal body, show the form of success? You must constantly consider yourselves to be an image of success. Faith is called victory. As your faith, so your actions. If faith is lacking, there will also be something lacking in your actions. If your consciousness is powerful, your stage and actions will also be powerful. Therefore, you must never allow your consciousness to become weak. Can the Shakti and Pandava Army be unsuccessful in anything? Do you remember your story about what the Pandavas did in the previous cycle? They were victorious. Therefore now make your consciousness elevated. Now, at the confluence age, you have the tilak of victory. Then, later, through this tilak of victory, you will receive the tilak of the kingdom. No one can erase this tilak of victory. Do you have such faith? Those who are jewels of victory have victory in every respect; they can never be defeated. You have been experiencing defeat for many births. So why, having become victorious, should you again be defeated? There should be the one strength and the one faith that victory is yours.

(What can we do if our daughter is not following the path of knowledge?) If someone is not able to continue to move on this path, he or she has to get married. Their weakness has to be removed from around you. You have to become detached observers and do it out of compulsion. That is just your duty. That is not your desire, but you are just fulfilling your duty. One is to do something because of a desire and the other is to fulfil your duty as an instrument. Not all souls have a part of claiming their birthright at the same time. They will definitely receive the introduction, and they will even recognise Baba, but the part of some is now and that of others is later. Some seeds bear fruit quickly and some a little later. In the same way, here too, each one has a part at his own time. If you play your part whilst considering it to be your duty, you will not find yourself infected by Maya. Otherwise, you can be affected by the atmosphere. This is why you have to play your part considering it to be a duty. There is a difference of just the one stroke (in Sindhi) between having the duty and becoming dirty. Because of your not being stable in the seed stage, duty becomes an illness. Those who are helpers constantly receive help. You experience how you receive help from the Father in every task. You must see the special virtue of one another and keep others in front of you. To keep someone in front of you is to make yourself move forward.

It is easy to spread the sound on Shiv Jayanti. Do as much as your courage allows, because such a time will come later that you will have very few opportunities for service. Therefore, do as much as you can. Why do you make mistakes? Go into the depths of that. Become introverted and think about why that mistake happened. "That is a form of Maya. I am a child of Baba, the Creator." Talk to yourself in this way in solitude. Whenever you go somewhere, you have to leave your memorial behind and also take something back with you. So what special memorial did you leave in Madhuban? You have to leave with each soul the memorial of Godly love and co-operation. The more loving and co-operative you are with one another, the more co-operation you receive to remove Maya. To give co-operation means to receive co-operation. You have to give spiritual love to the family and receive co-operation to conquer Maya. The account of this give and take is accurate. You have to forge relationships for many births at this confluence age. Love is the instrument to forge a relationship. Just as thread is the instrument to sew clothes together, in the same way, the instrument to forge relationships for the future is the thread of love. You will have relationships forged

there according to how you forge them together here. This is the time and place for forging them. Godly love can only be forged when love for everyone else has been broken. Therefore now, finish love for all others and have love for One. The love for all is that which causes you distress, whereas this love for One is that which makes you strong for all time. You have to break love away from all and link it to One. You cannot join it anywhere else without first breaking it. At this time, you can remove any weakness, but later the time for removing weaknesses will have ended. Take a step forward whilst understanding in this way.

Are all of you intense effort-makers or just effort-makers? There cannot be defeat even in the thoughts of an intense effort-maker. Create such a stage that you are not defeated by Maya even in thoughts. This is called being an intense effort-maker. If you keep your mind busy in pure thoughts from the beginning, you will not have any other thoughts. If something is full, you cannot add even a drop, because it would then overflow. So, simply keep these thoughts in your mind so that there is no place for you to have waste thoughts. Keep yourself busy to this extent. You do not fully use the methods you receive for keeping the mind busy, and this is why you have waste thoughts. By only keeping one side busy, you automatically become slack on the other side.

You have received many treasures for churning, so keep your mind busy in that. Is the speed of time fast or is the speed of the efforts of all of you fast? Is the speed of time fast, or is the speed of your efforts fast? If time is moving fast and your efforts are slack, what would the result be? Time will move ahead and the effort-maker will be left behind. The train of time will leave and those who are yet to get on board will be left behind. What is the intensity of the speed of time that you are seeing? Time has the speed to let the past be the past. Does time repeat the same thing again and again? So whatever weaknesses there have been in your efforts, continue to let the past be the past in that and bring about progress at every second, and you will then be able to move as fast as time. Time is the creation. If the creation has this virtue, the creator should also have it. The drama is the creation, but all of you are children of the Creator. So, why should the children of the Creator be more slack than the creation? This is why you should pay attention to just one aspect: as every second in the drama, or anything that happens in whatever form does not repeat, it only repeats after five thousand years, why do you repeat your weaknesses again and again? If these weaknesses were not repeated again and again, your efforts would become fast. When weaknesses are removed, they are replaced with power. If weaknesses continue to be repeated, you cannot be filled with power. This is why, whatever has happened is the past, the weaknesses of the past should not emerge again, even in thoughts. If you have thoughts about them, they will come into words and deeds. If you finish it whilst it is in thought, it will not come into words or deeds. Then your mind, words and deeds, all three, will become powerful. Bad things are always instantly thrown away and good things are used. So, throw away the bad things just as something bad is thrown away. Then time will not go faster than your efforts. You will then wait in anticipation for time: We are sitting ready. When the time comes, we will go. You will reach such a stage. If you are not ready, you then think that time should wait a little for you.
