A cheap bargain and a *budget* of savings

The Father, the Jewel-Merchant is smiling on seeing His children who are the businessmen who make the greatest bargain of all. This bargain is so huge that compared to the world, the ones who make this bargain are ordinary and innocent. Which souls become the fortunate souls who make a bargain with God? The Father was seeing this and smiling. You make such a huge bargain in one birth and you become constantly prosperous for 21 births. What do you give and what do you receive? You earn an income of countless multimillions and make a bargain of multimillions so easily. In fact, it only takes a *second* to make this bargain. And how cheap was the bargain you made? You made a bargain in a *second* with one expression: You accepted with your heart: My Baba! With this one expression, you make a bargain of such huge countless treasures. It is a cheap bargain, is it not? It is neither laborious nor expensive. And you don't have to give time. When you make any limited bargains, you have to give so much time. You also have to make effort and it also continues to become expensive day by day. And how long would it last? You can't *guarantee* it for even one birth. So, have you made an elevated bargain or are you thinking about doing it? You have made a firm business deal, have you not? BapDada was seeing His children who are the businessmen and seeing who are well-known in the *list* of businessmen. People of the world make a *list* of those who are well-known, do they not? They make a special *directory*. Whose names are mentioned in the Father's *directory*? Those to whom the eyes of the world are not drawn are the ones who have made a bargain with the Father and they have become the stars of God's eyes, the light of God's eyes. He made souls who had no hope into special souls. Do you always have such intoxication of being the special *VIPs* in God's *directory*? This is why it is remembered that God belongs to the innocent ones. He is the Cleverest of All, but He loves those who are innocent. The Father doesn't like the extrovert cleverness of the world. Their kingdom is in the iron age where they are millionaires one moment and have nothing the next. However, all of you become multimillionaires for all time. It is not a kingdom of fear. It is fearless.

In today's world there is wealth and also fear. The more wealth they have, the more they eat in fear and sleep in fear, whereas you become carefree emperors. You become fearless. It is said that fear is an evil spirit. You become liberated from that evil spirit. You have become liberated, have you not? Do you have any fear? Where there is the consciousness of "mine", there will definitely be fear. "My Baba!" It is Shiv Baba alone who makes you fearless. Apart from Him, if anything, even a golden deer, is "mine", then there will be fear. So *check* that no sanskar of "mine, mine" is still left in your Brahmin life even in a subtle form. You are celebrating the *Silver Jubilee* and the *Golden Jubilee*. Silver and gold become *real* when you melt them in a fire and remove whatever has become *mixed* in them. This is the *real Silver Jubilee* and the *real Golden Jubilee*, is it not? So, in order to celebrate the *jubilee*, you will have to become *real silver* and *real gold*. It isn't that those who are celebrating the *Silver Jubilee* are just *silver*. It is in terms of the number of years that you say that it is the *Silver Jubilee*. However, all of you are those who belong to the *golden*

age and have a right to the *golden age*. So *check* to what extent you have become *real gold*. You made a bargain, but it isn't that you received something and used it up. Have you accumulated so much that you can remain constantly full for 21 generations? And that your dynasty also remains prosperous? Not just for 21 births, but even in the copper age, because of being a devotee soul, you will have nothing lacking. You have so much wealth even in the copper age that you are able to make donations and perform charity very well. Look, even at the end of the iron age, even in your last birth you haven't become beggars, have you? You have become those who can at least eat dal and roti. You don't have illegal money, but at least you have dal and roti. The income of this time will make sure you don't become a beggar throughout the cycle. You have accumulated so much that even in the last birth you can eat dal and roti. Have you kept an account of how much you have saved? Do you know how to make your *budget*? You are clever in accumulating, are you not? If not, then what will you do for 21 births? Will you become those who earn an income or those who have a right to a kingdom and who rule the kingdom? Those of the *royal family* do not need to earn anything. The subjects have to earn. It is numberwise in that too. There are wealthy subjects and ordinary subjects. There is no one poor there. However, the *royal family* receives the kingdom as the reward of their efforts. They become those who have a right to the *royal family* for birth after birth. They do not have a right to the royal throne in every birth, but they attain a right to the *royal family* for birth after birth. So, what will you become? Now create your *budget*. Make a savings *scheme*.

In today's world, they convert *waste* into *best*. They save all *wastage*. So, all of you also keep the account of savings in your awareness. Create a *budget* of how and where you have to use your thought power, your word power, your power of actions and your power of time. Let it not be that all these powers are wasted. If your thoughts are ordinary or wasteful, then both ordinary and wasteful do not save anything, but make you lose something. Keep your *chart* for the whole day. How much did I use these powers and increase them? The more you use them for a task, the more that power will increase. All of you know that thought is a power, but you are numberwise in putting that into practice. Some neither use it for a task nor do they waste it in performing sinful actions. However, in an ordinary timetable, you neither earned nor lost because you did not accumulate. To have a timetable of ordinary service or to have a timetable of ordinary family life would not be called accumulating in a savings account. Do not just *check* whether you served and studied according to your capacity, that you didn't cause sorrow to anyone, that you didn't perform any wrong action. However, you didn't cause sorrow to anyone, but did you give them happiness? Did you do as much powerful service as you should have done? For instance, BapDada always gives the *direction*: To renounce the consciousness of "I" and "mine" is real service. So, did I serve in that way? I did not speak wrong words, but did I speak words that put hope into a hopeless soul? That made a soul lacking courage, courageous? Did I put the zeal and enthusiasm of happiness into someone? This is accumulating and saving. Simply to spend two or four hours ordinarily is not saving anything. Create such a *budget* that you save and accumulate all powers. This year, carry out your task with a *budget*. Make a *plan* of how you use every power. Make such a spiritual *budget* that every soul in the world attains something and sings your praise. You definitely have to give something or other to everyone, whether you give them liberation or liberation-in-life. You are doing the service of not just purifying human souls, but also the elements. A spiritual (Godly) *budget* means that all souls, and the elements, become happy and peaceful. That *Government* makes a *budget* that they will give this much water, this many buildings, this much electricity etc. What *budget* are you creating? That you will give everyone liberation and liberation-in-life for many births and liberate them from their beggary (poverty),

sorrow and peacelessness. For half a cycle they will live comfortably. Their desire will definitely be fulfilled. Those people only want liberation. They don't know it, but that is what they are asking for, is it not? So make a spiritual (Godly) *budget* for the self and for the world. Do you understand what you have to do? You are celebrating both the *Silver Jubilee* and the *Golden Jubilee* this year, are you not? So, this is an important year. Achcha.

To those who always keep the elevated bargain in their awareness, to those who always increase their account of accumulation, to those who use their every power and thereby increase it, to those who always know the importance of time and become great and make others great, to such elevated, wealthy, such elevated, sensible children, BapDada's love, remembrance and namaste.

BapDada meeting kumars:

A kumar life is a *lucky* life because you have been saved from climbing up the wrong ladder. You never have the thought of climbing up the wrong ladder, do you? Even those who have climbed up are coming down. Even those who are householders are calling themselves kumars and kumaris, are they not? So, they have come down the ladder, have they not? So always keep this elevated fortune of yours in your awareness. A kumar life means a life in which you are saved from bondage. Otherwise, just look how many bondages you would be tied in. So, you have been saved from being pulled by bondage. You are free in your mind and free in relationships. A kumar life is an independent life. You don't ever have the thought, even in your dreams, to find some helper do you, that you should find a companion, do you, that they would help you at a time of illness? Do you ever think in this way? Do you ever have this thought at all? A kumar life means to be a constantly flying bird, not one who is trapped in bondage. Let there never be this thought. Always remain free from bondage and continue to move forward at a fast speed.

BapDada meeting kumaris:

Kumaris have received a *lift* to move forward in service. This *lift* is an elevated *gift*. You know how to *use* this *gift*, do you not? The more powerful you make yourself, the more powerful the service you will do. If you yourself are weak in any matter, then service too will be weak. Therefore, become powerful and become a powerful server. Continue to make such preparations so that when the time comes, you can engage yourself in service successfully and claim a *number* ahead. At present, you have to give *time* to your studies and then you will just have one thing to do. Therefore, wherever you are, continue to take *training*. Continue to make your preparations in the company of the instrument souls and you will become a worthy server. The more you move forward, the more benefit there is for you.

BapDada meeting server teachers:

A server means one who is always an instrument. The feeling of being an instrument automatically brings you success in service. If there isn't the feeling of being an instrument, there isn't success. You have made a promise that you will constantly belong to the Father, that you

belong to the Father and that you will remain belonging to Him, have you not? A server means one who places every step in the Father's footsteps. This is called being one who *follows the Father*. You are the servers who make every step elevated by following elevated directions, are you not? To attain success in service is the elevated aim of a server. So, all of you are those who keep an elevated aim, are you not? The more all wastage is finished in yourself and in service, the more powerful you and service will become. So, to finish all wastage and remain constantly powerful is the speciality of servers. The more powerful you instrument souls are, the more powerful service will be. To be a server means constantly to put zeal and enthusiasm into service. Those who have zeal and enthusiasm are able to give zeal and enthusiasm to others. So, zeal and enthusiasm should always be visible in a practical way. Let it not be that internally I remain like that, but that it is not visible externally. Incognito effort is something else, but zeal and enthusiasm cannot remain hidden. The sparkle of constant zeal and enthusiasm should automatically be visible on your face. Whether you say something or not, your face and sparkle should say it. Are you such servers?

To receive a *golden chance* of service is also a sign of elevated fortune. You have received the fortune of being a server, but now, you have to create your fortune and see whether it is *number one* or *number two*. Not just to attain one type of fortune, but to attain fortune upon fortune. The more fortune you continue to attain, the more your *number* automatically moves forward. This is called being multimillion times fortunate. Don't just become an embodiment of success in one *subject*, but in all *subjects*. Achcha.

Who has the most happiness – you or the Father? Why do you not say that you have the most happiness? You have been calling out in devotion since the copper age and now that you have found Him, you should have so much happiness! For 63 births you had the desire to attain Him and now that that desire of 63 births has been fulfilled, there is so much happiness. When the desire for anything is fulfilled, you become happy, do you not? This happiness will give happiness to the world. When you become happy, the whole world becomes happy. You have received such happiness, have you not? When you change, the world also changes, and it changes in such a way that no name or trace of sorrow or peacelessness remains. So, constantly continue to dance in happiness. Always continue to accumulate in your account of elevated actions. Distribute the treasures of happiness to everyone. There is no happiness in today's world. All are beggars for happiness and so fill them with happiness. Always continue to move forward with this service. Continue to put zeal and enthusiasm into souls who have become hopeless. They have become hopeless thinking, "I am unable to do anything, it is not possible...." So you become victorious, you make them victorious and you increase their zeal and enthusiasm. Let the tilak of the awareness of victory always be applied. You are those who have the tilak and also a right to self-sovereignty. Always maintain this awareness. Achcha.

Question: What are the signs of those who are the close stars?

Answer: Equality is visible in them. BapDada's virtues and His task are clearly visible in the stars who are close. The more closeness there is, the more equality there will be. Their face will be a mirror to grant a vision of BapDada. On seeing them, people will

receive BapDada's introduction. Although they would be seeing you, they would be attracted to BapDada. This is known as "*son shows the Father.*" Whosoever you love, the stamp of that one will be visible in your every step. To the extent that you are cheerful, so you become an image that attracts. Achcha.

Blessing: May you become a charitable soul full of the treasure of happiness and donate happiness to souls who are experiencing sorrow.

At this time, the world has sorrow at every moment whereas you have happiness at every moment. To give sorrowful souls happiness is the greatest of all charities. People of the world spend so much time and wealth for happiness whereas you have easily found the treasure of imperishable happiness. Simply continue to distribute what you have received. To distribute means to increase. Whoever comes into connection with you should feel that you are happy because you have attained the elevated attainment.

Slogan: An experienced soul can never be deceived in any matter. Such a soul always remains victorious.

* * * O M S H A N T I * * *
