The Brow Chakra and Indigo

The Brow Chakra acts within your forehead, with influence on the eyes, sinuses and the pituitary gland. Indigo being associated with self-responsibility, self-enhancement and intuitive ability, it is vital for the brow chakra to remain in good health. Some of the problems that may be traced back to this chakra are problems with the eyes (e.g. cataracts, myopia, color blindness), ears, sinuses and tension or stress. When the indigo energy turns malicious, it hinders vision—both intuitive vision and physical vision. It muddles the understanding and the connection between the inner soul and your path in life. But when in complete balance, indigo energy spreads orderliness and clarity; with some of the qualities being loyalty, integrity and intuitive understanding.

Indigo chakra color meanings:

The sixth, third eye chakra. We know more fully all the depth of chakra connectivity. In indigo pools of depth and contemplation we see more clearly how energy runs together. Indigo is an oceanic orifice - always present - just waiting for us to dive in to discover the behavior and rhythms of energy itself.

When we swim round its ripples, we see all energy is interrelated, each nuance a partner, each ringlet interlinking depth and texture to the story of our existence. When we see with indigo vision we don our x-ray glasses to peer past the veil of illusion. All is revealed. Awareness is found in the deep purple folds of our innermost selves. It's like we've returned to our red chakra roots, come up through ourselves by way of the chakra spine only to meet ourselves again with new understanding.

6 - Third Eye chakra

The Third Eye chakra is about insight and visualization. When it is open, you have a good intuition. You may tend to fantasize.

If it is under-active, you're not very good at thinking for yourself, and you may tend to rely on authorities. You may be rigid in your thinking, relying on beliefs too much. You might even get confused easily.

If this chakra is over-active, you may live in a world of fantasy too much. In excessive cases halucinations are possible.

Third Eye Chakra

The third eye chakra is the seat of mystical, intuitive knowing that spirals forth the awareness that we are **spiritual** beings connected to universal wisdom and truth. A healthy third eye chakra will encourage the path of internal visions and dreams, with the realization that they are Divinely guided and inspired.
