

Our memorial here in Hawaii!!!  
Baba told us to be goddess of volcano  
Yes it is the story of the volcano goddess  
She creates new and destroys old at the same time...  
She is very powerful and takes many forms...  
She erupts...  
Lets lava flow over the land  
So people offer her sacred offerings to keep friends with her...  
She dances...  
And she comes in different forms...  
So they are aware that they should offer hospitality to strangers...  
In case it is actually her... a goddess  
She might come in form of an old lady...  
Or like a beggar...  
She has the power of the universe...  
And if you get rid of ego...  
You can imbibe that universal creative power into your being...  
That is what the sacred dance, called hula, here is for...  
That is why there is a dancer in the picture...  
Good to know all this  
Yeah... how Baba's incognito teaching reach different places...  
And create stories like this...  
I love the image of volcano goddess from the beginning  
So I was soooo excited when Baba told us that in last Murli...  
I love that stage...  
Free from ego of body...  
Totally absorbed in spiritual  
stage...
