## **How to be successful on the journey of life...**

Om Shanti, Om Shanti, Om Shanti... You are sitting here physically. Where is your mind? The body is here but the mind is up above with Baba.

There is no other hall like Diamond Hall in the world. We say that everything is Baba's wonder. The biggest wonder is that Baba has made us belong to Him and taught us how to smile. If you feel that by belonging to Baba you have received infinite happiness then raise your hand! The Father is pleased with an honest heart; you know that don't you?

I may be 100 years old but the one thing I never forget is 'who I am and who is mine' I am a soul and the Supreme Soul is mine. My eyes never get pulled anywhere. I did get pulled to come here and see all of you! When I see all of you my blood pressure becomes very good! In fact, I thank Baba for bringing me here to the class

This is the turn of Punjab... all of you are serviceable. You do wonderful service. Of course there are four subjects and service is the last one. There is gyan, yoga, dharna and service. There will be successful in your journey of life when you pay attention to gyan and yoga and thus can have dharna... In fact, there has been so much service that the hall is full. Baba is a Magician. He is the one who makes us play with the jewels of knowledge. There is a beautiful song which says God is the Friend. Baba's love is wonderful.

There is a very short period of the Confluence Age left. We will never get this time again in another age. We need truth in the heart and cleanliness in the intellect. Through the whole day I check myself for truth and cleanliness. When there is internal truth and cleanliness in a soul, that soul claims blessings through the service it does. I have been seeing that some souls are filled with truth. Baba has explained everything so well and we know clearly about internal happiness and how to experience that. There is no need to hide anything. In fact, here there is no place to hide anything. We need to be open – clear... Peace and happiness go together... Happiness calls us, "Come, come"...

Drishti also gives great happiness. You are all Baba's lovely children. Simply become detached and do world service. Every single one has a different part and everyone's part is wonderful.

When I get a call I give the phone to another sister. Is there anyone who doesn't have a phone here? Nowadays, young or old – everyone wants a mobile but I don't want one myself.

Who has come for the first time? You are all very fortunate. Today I went to the kitchen and saw how they are providing food for everyone. I gave halva to everyone. I also tasted it... it was wonderful! We need to remember that whatever needs to be done should be done today. Who has seen tomorrow? We have to earn an income as much as possible here.

Once Baba was sitting on the chair and I was sitting on the floor. Baba asked me to show my feet. He told me that there will be no place to keep my feet... In fact, it is service that makes us run here and there.

Om Shanti
