

Dadi Janki – 2 April – Shantivan

The power of concentration is the basis of unity

In order to become complete, you must have completed your effort. You must have checked yourself and no trace of nature or sanskars is remaining. Nature and sanskars have a close connection. Sometimes we say – *bhav swabhav* – as your feelings, so is your nature. Feelings have a connection with nature and sanskars also. If my feeling is of friendship and if it is elevated then the nature will be the same. And if I have something mixed in my feelings then I am not able to understand the nature of the person in front of me. The soul is very subtle and the sanskars too are very subtle. They are of many births. According to the relationships of 63 births, the sanskars are recorded within the soul and we need to clean all those sanskars. The soul is very tiny. Take time to be with your self and until you reach that subtle stage, do not leave it.

Baba watches the soul. He watches through the vision of Brahma Baba. He always looks at the soul. He does not have a connection with my name and form. Brahma Baba always used to say – child. He would never call us by our name. He would say – child come - that we were male or female. And in this way he saved us - he saved us from Maya. Previously, we did not even know Maya. In the morning we get lessons from Baba and in the evening we get lessons from Maya. Baba sat and explained everything to us. He said - this nature is Maya. Not the 5 elements but the nature of the 5 elements. I am the soul and He is the Supreme soul. This body and this earth are made of the 5 elements and our home, where the soul comes from, is beyond these 5 elements. All these things are imprinted in the soul. He told us who we are, where is our Home, that we are His eternal child and that in the beginning we belong to the deity dynasty.

In the Gita, it says to leave the consciousness of body and forget all your bodily relations. You first leave and then forget. So how to leave those relations is not a question. Baba never allows us to ask ‘how’ – that is a wonder. He says - connect yourself with Me and automatically these relationships will be forgotten. Whenever I want to go I know how to put one foot down and then the other - I automatically take footsteps. I do not ask how to walk! Those who cannot walk are not worthy. As soon as we took birth, we started to walk. Baba says – you are My child, now start walking and I will make you walk! If you say - Baba, I have come so late, He will say - last so fast, jump now. If you say – I have so many responsibilities in the world, He will say - I have given you the wings of zeal and enthusiasm, so now fly with these. Baba is very fast and in a very short period of time, He takes us to Paramdham. We will not follow Him but go with Him. All souls will go up in the form of mosquitoes but I should go as a shining star.

There are 3 types of shining stars. If I want to go up as a star of hope, I must fulfil all Baba’s hopes in me. He also says - you are the stars of success. Do you experience success? If we walk, those who see us will also walk. If I try to hold the hand of someone, it does not mean they will be able to walk. I must give them such vibrations that they feel – we have to go back Home. If I am slack in my effort then let me take a jump now and others will follow. To jump, I need both feet and I need strength. Nowadays, Baba says - keep flying, time is short. The flying stars know the art of flying. Through my attitude, I make the atmosphere so powerful that anyone experience going beyond. I just need to remain double light. Keep no burden on my head and not give sorrow or worry to others. Just be sweet.

No matter if Baba is living in Paramdham – He is close to us. When we are close, we feel easy. We remain close through our mind. Those who are close are quality souls. And with the help of the jewels of knowledge, we become the jewels of His eyes. The nectar of knowledge is very sweet. But knowledge is also our weapon and through it we feel nothing and so everyone can see Baba and drama. For this nothing should stay in my heart – nothing of the past. Those who have the habit to remain concentrated in this way have all powers automatically. We are the goddesses with 8 hands, we do not need to invoke the powers. The time says - if you want to come in the flying stage then you need the power of concentration to experience that. Have the experience of being one and that we belong to One. That is concentration and when the whole world sees this unity, they will want to know how it is possible. The basis of unity is our power of concentration. We help each other. When the world sees this they will at last say - our Baba has come. They will say this and jump. Today Baba is coming and He will take our account.

Om shanti
