

**\*Dadi Janki - 19th January 2013 - Shantivan\***

**\*Become free from all dependency and fly...**

It is time to say 'Baba', to get absorbed in the experience of Baba and to become detached, to go beyond, all other things. Baba has made us belong to Him. We have become free by leaving dependence on all other things in this world. If you are still dependant on anything or anyone it means you are not free. If you are still dependant on someone it means your life is not as valuable as it could be. It means that you can't do true, true service in the name of God, from your heart. If you are subservient it means you can't have accurate yoga.

In fact, this Brahmin life is an invaluable life. Only through realisation can one leave all dependency. If one is subservient to nature or to matter it means one cannot also have full yoga with the Father. What is yoga? Yoga means to die. Yoga means to be absorbed... Baba wants us to be carefree - not careless. If you are not experiencing peace then it means you are not having yoga. Yoga means to shift one's awareness into being a sparkling star: I am a sparkling star. If you are having accurate yoga you will experience this. A star always shines. It does not shine sometimes but always.

In Pandav Bhavan's History Hall there is a picture of the world cycle. It shows that we come in to the cycle, move around it, spend time transforming the self at the Confluence Age and then go back home. We need to now stay in the awareness that it is actually time to go back. It is time to leave this Iron Aged world. We have to wind up everything and withdraw from this world. We are sitting and transforming ourselves; settling everything in order to go back. It is not time to look either behind or around. If you are looking at the past, looking at the side-scenes or worrying about the future, it means you are not having yoga. It is not only Krishna who can be shown with heaven on the palm of his hand. Brahmins also have heaven on the palms of their hands. Thus, it is the time to prepare. It is the time to have only Baba and the Murli inside the self. Baba should be in my heart. If only Baba is in your heart you will feel that your feet don't touch the ground. Baba used to tell us to pay attention to our feet! Our feet are very precious as we can create multi-millions at every step through them... Our feet should be such that they can be worshipped! Thus, keep your feet very well - keep them clean and nice...

Be careful. If you want to really free yourself then you have to leave the awareness of 'I'. I have done this, I will do that. This thinking keeps one in bondage. I have to be ever-ready. Ever-ready means free. If there is the awareness of I it means you are not free... you thus can't be ever-ready. It is Baba's name I am here to glorify - not my own name. It is Baba who sings the praise of His Brahmin children. Don't expect or accept the praise of human beings. On seeing me, others should see Baba. They should feel that I am the child of God. They should feel that I am like God Himself. I don't have to make effort to fulfil anyone's desires except my Father's. If you fulfil His desires you will be able to fulfil the spiritual desires of all souls.

We are not just sitting here waiting for the Golden Age to come. We have to practically usher that age in... Bharat is an ancient land and we will rule

in Bharat. We are seeing the rehearsals for destruction but when there is total destruction will my stage remain high? Therefore, Baba now wants us to have the practice of our feet being above the ground. I should now be flying above everything.

In the Sakar Murlis Baba used to say that this knowledge would go overseas. That we should travel overseas and do service. Originally no-one wanted to travel overseas but Baba said it would happen... Jagdish Bhai made a plan and we started travelling. What Baba said came into practical. I should also feel that I have made Baba's Murli practical. That I have done and I am continuing to do what Baba has said. You will then feel that wherever you set foot there is income... You will feel that you are highly fortunate.

A great deal of service has happened each year in January... Let me play my part and co-operate in Baba's task with love. I am playing my part in God's play. He is the Director and He has sat me with great love on His head so that I can play my unique part...

Om Shanti
