

## **Dadi Janki - 1<sup>st</sup> January 2019 – Gyan Sarovar**

### **On the occasion of Dadi's 103<sup>rd</sup> birthday**

Today is my birthday. We have all come here to celebrate (everyone could not go down to SV to celebrate in the evening). All foreigners are here (400 DF's). I am also a foreigner! I have the bhavna in my heart that Baba has kept me in this body to reveal Baba. I am not thinking about it much but Baba has a purpose. He is Karankaravanhar; the One who gets things done. This soul has lived in this body to reveal Baba and long may it continue to live in this body.

I am receiving so much from all of you; love and affection – good vibrations. The spiritual love we have together gives a lot of happiness. There is an exchange of spiritual love; I take from you and you take from me. So never give sorrow to anyone. Never take sorrow either. Have the exchange of love. This is the vibration that works in the whole world.

As soon as I came here (to GS), I went to Baba's room downstairs and I felt that I was going around the whole world.

*Candles were then lit and a cake was cut and shared with everyone.*

Om Shanti
