

## **Dadi Janki – 4.6.19 Evening – GCH, London**

### **Baba is transforming the whole world (srishti) with His drishti**

*Jayantiben: In today's murli Baba said: If you want to claim an elevated status, follow the father. How was it that Brahma Baba did everything in one stroke? He surrendered himself and everything he had. Is it still the same feeling of surrendering or should we be clarifying surrender in some other way. If I want to follow the father today, in what way can I surrender myself?*

This is what surrender means: to be 'om shanti' – completely peaceful. Dadi liked the song: *We found one Baba in Madhuban and we found Shiv Baba in that one's body.*

Dadi has thought about it - reflecting how wonderful our Brahma Baba is. Baba was so light. He received Shiv Baba's might and hence everything was right. In front of Baba, there was only this one thought: who am I and who is mine? I am a soul. Mine is the Supreme Soul. That is the key, isn't it? My Baba... I saw in Baba light and might – Baba was wonderful. I saw him in the form of light and might and he was wonderful.

To the extent that we remain light, others have the experience of lightness from us. To the extent we ourselves remain right, we receive light and might from Baba and then everything is right. The mind stays well and the body stays well too - and there's no question about wealth. Dadi has never needed to chase after wealth. She has never had to handle money with her own hands. White clothes and empty pockets yet we are the master of the world. That's right isn't it?

We talk of body, mind and wealth. Then there's mind, words and actions. And then there's our thoughts, our breath and our time – all three have to be used in a worthwhile way. Baba has always told us to use all these in a worthwhile way. It's when these are all used in a worthwhile way, that any service we have done or are stilling doing is done with the heart. We also talk of the heart, the mind and the eyes. In our vision, though we see through these physical eyes, we see through the third eye. Then (pointing the forefinger upwards) Baba's vision is on us. This is the wonder. In the heart - Baba and in my vision - Baba. In my thoughts – Baba and in my vision – Baba. Baba, You are a wonder! Baba's wonderful drishti... In soul consciousness, pure feelings from the heart, drishti through these eyes.

The whole world (srishti) receives Baba's drishti. Baba's drishti has done amazing things. See how Baba has just with His drishti transformed the world!

*A song was played and Dadi gave drishti to all those in the gathering and all those tuning in from around the world.*

Om shanti.
