

Dadi Janki – 29th June 2017 – Kumar’s Class, Conference Hall, Shantivan

Have the feeling to become angels...

There are over 1,600 Kumars present. Does everyone wish to sit in Yoga, or have a spiritual chit-chat regarding making efforts. We need to know ‘who am I’. A soul separate to this body. The Father is One for everyone. We are free from colour, caste and creed. Because we are free we are able to become whatever we wish to become. If we want to become anything we have the image of

What effort needs to be made. To be an Easy and Raj Yogi. To be constant and keep attention to this so there is no tension. We are Baba’s children and therefore it isn’t a question of any tension. Whatever He wants us to do we are ready to do.

To become the image of virtues we need to make the effort. Science is making preparation for destruction. Now we understand destruction will definitely take place we need to stay in silence and the more we do this we will experience Baba. We now have just the feeling to become angels. An angel is one whose feet are not on the ground. We have to earn an income to become truthful in each step we take, day and night, morning and evening. For this we need to make effort.

Kumars say there is so much to do! Dadi says it is very natural to earn an income. The Father is always content with those who have an honest heart. Where there is the child’s courage then there is a thousand fold help from the Father. There is no question in wasting time in this.

Each one is unique and we appreciate each other. At this Confluence Age we are receiving Baba’s love. We have the faith that Baba is making us pure. What is income? It is realisation. It is necessary to sleep but we also need to stay in silence. Being a Kumar in this life, how do we remain loving?

Dadi says it is a great fortune to be a Kumar. Kumars are free! Kumar life is good. Kumar’s can maintain their stage and make others equal to themselves. Kumars have to prepare kumars. Sister Hansa says that Baba is a Kumar. Dadi says I am a kumari and I am free. If I say I am a half kumari, what would happen! Similarly Kumar life is good. Kumars have many responsibilities and everyone needs to be accurate in all four subjects: Gyan, Yoga, Dharna and Seva. Naturally we will be deities in the Golden Age.

The Knowledge says that we now have to become angels. We mustn’t gossip or create unwanted thought. Instead churn the Ocean of Knowledge. Go into the depth of Knowledge and you will find so many great points. Baba has given us knowledge so we can keep taking a dip into it. Don’t speak of ordinary things! While looking at one another, let your drishti be in remembrance so it is unique, and uplifts everyone’s stage. Let there be good bhavna. There should be no such things that put obstacles in the way of becoming योग्य. We need to recognise the self and Baba. Who am I and what am I doing? For each other maintain divine feelings

We have to churn Knowledge for the self and the whole world. This is wonderful and very good service is taking place everywhere with no corner left. We are to claim the kingdom of the Golden Age and from here we are going up above. We will receive the kingdom when we go to the Golden Age and there, there will be everything. Now is the time for the Iron Age to go and the Golden Age to come. We need to recognise time and self. Then we can be instruments to transform this world. Kumars are sitting here to do service of the world.

We will all sit in Yoga now. We must not forget to experience deep silence. Baba’s duty is to pull our intellect.

OM SHANTI
