

## **Dadi Janki - 18<sup>th</sup> March 2018 – Shantivan Keep on emerging all relationships with Baba...**

Today is third Sunday. Baba has made us belong to Him with a great deal of love. We have also made Baba belong to us and thus He has been able to change us. First He is our Mother, then He is our Father, Teacher, Satguru, Friend and Beloved. Keep emerging all relationships and you will feel wonderful. This is the method to experience happiness. I used to find it challenging to experience Baba as a friend. Dadi Manmohini revealed to me how to make Baba my friend.

The Shrimat of the Satguru is on our heads now. We have received so many teachings. Baba sees every child and gives guidance.

Everyone has their own specialities and uses those specialities in service. Baba is happy on seeing each one's individual part. If you ask 'why' or 'what' you will not feel good. Dadi has never done this. Baba is the Bestower of Fortune and each one is earning his or her individual fortune. We have played those parts many times. Everyone is good. Remain cheerful and don't compare yourself with anyone. Never allow yourself to become upset; simply keep playing your own part accurately.

Vision, attitude and awareness. As is the awareness, so is the attitude and drishti. This is why Baba says to remain in His remembrance. We have to remain aware that all are Baba's children and all are playing their own parts. They played those parts previously and are playing them again now.

Om Shanti
