

Dadi Janki ? 12.10.08 ? Shantivan  
My stage and service

When we say om shanti together with happiness, Baba is pleased. We come to Madhuban to meet BapDada but also to meet each other. We just see Baba and the family. When we are sitting with the family, we are sitting with Baba there is no need to remember Baba, as such.

Today's murli is from the 1970's. Where is 1970 and where is 2008 Listening to the murli, our ears and eyes open. If we don't listen properly, however, our heart and mind will not open. Baba is so pleased when we give our full attention. Baba gives us murlis that are easy to inculcate. So recognize the time and give your time for Baba's service. With every thought, every moment in remembrance, your stage will be unshakeable and firm and will make others have the same.

The murli is like a big glass of juice: it gives you strength to run. But it's no longer the time to run and besides, running can make you tired, now is the time to take a jump, or even fly. Baba gives us the method how to jump. To run you need courage but when you jump, you automatically cross so many things. It shouldn't be that I am making effort to have remembrance but that I am walking through remembrance; it's remembrance that gives me strength. We were once small babies but through remembrance we have become courageous and grown up. I am Baba's baby but I have strength and I have faith.

Just to be present is service; it's not that I have to be thinking and planning all the time. Baba said: You don't need to make many plans; the drama plan is already fixed.

Wherever you go, you should leave your memorial. Pay attention to your virtues. In service be sure not to see others' defects, because that way you'll be paying less attention to yourself. Such mistakes create obstacles in your life and to your stage. When an obstacle comes, it should be to say farewell; it should not make you shake. We should be so alert and accurate in our studies. We are moving according to BapDada's directions and so there should be no carelessness or ordinariness. Baba's directions are for me personally.

Understand and control your mind; if you don't, you'll become weak. My stage should not be according to the service I am doing today. If my final moment is good, I will do such a lot of service, so I should prepare myself for that. By maintaining the stage of liberation and liberation-in-life, Brahma Baba bestowed on us the inheritance. If this inheritance is in my mind, then Baba is, too.

Can we maintain our stage and do service? For this we need to be free of all attachment. We have to serve the self first, and also serve millions.

Baba is attracting souls to Madhuban. The whole world needs what there is here: what you get here, you don't get anywhere else.

Om shanti.
