

## **Dadi Janki – 24.04.08 – GCH London**

### **Play with Baba**

Today is the day of the Satguru. This is a tradition that started in Sakar Baba's time.

You must create the stage where you are free from negative and impure thoughts. As you experience your own bodiless stage and see where you are, you can free others from their obstacles. Dadi is pleading with us: please free yourselves from all thoughts, become bodiless and go very deep in that stage of being free. And then with that stage you will become the soul who doesn't want to blame any other soul. If you blame someone, your stage goes down; you then feel depressed or sad and go into waste thoughts.

Let the hands of the Satguru be on your head. He makes us His companion. We must experience the hands of the Satguru on our head. We have to become like the River Ganges. It is time to come out from the Iron Age and into the Golden Age - we must change from iron into gold. Realise how you have to change yourself. Ask yourself: Have I removed all the waste from the self?

Look inside yourself and put yourself in a safe place. Protect yourself from thinking about others. This is what it means to be safe. Look to your own soul - and not the other soul. The experience of Dadi is that Baba is her toy, but also that Dadi is Baba's toy. We are Baba's toys and Baba is our toy. Play with Baba. Reveal to the world who 'my Baba' is.

Om shanti.
